573.01 Short title.—This law may be known and cited as "the Florida celery and sweet corn marketing law."

History.—Comp. §§1, chs. 59-133 and 59-283.

573.02 Legislative findings; declaration of policy.—This law is passed:

(1) Because it is hereby declared that the marketing of celery and sweet corn grown in Florida in excess of reasonable and normal market demands therefor; disorderly marketing of such commodity; improper preparation for market and lack of uniform grading and classification; unfair methods of competition in the marketing of such commodity; and the inherent inability of individual producers to maintain present markets, or to develop new and larger markets for Florida grown celery and sweet corn result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions and the accompanying waste jeopardize the future continued production of adequate celery and sweet corn food supply for the people of this and other states, and prevent agricultural producers from obtaining a fair return from their labor, their farms, and the celery and sweet corn which they produce. As a consequence, the purchasing power of such producers has been in the past, and in all likelihood will continue to be in the future, unless such conditions are remedied, low in relation to that of persons engaged in other gainful occupations within this state. Celery and sweet corn producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus

tending to increase unfairly the tax burdens of other citizens of this state.

(2) Because the conditions hereinbefore described and set forth vitally concern the health, peace, safety and general welfare of the people of this state, and it is hereby declared to be the policy of this state to aid agricultural producers in preventing economic waste in the marketing of their agricultural commodities, to develop more efficient and equitable methods in the marketing of agricultural commodities, and to aid agricultural producers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

(3) The marketing of celery and sweet corn within this state is hereby declared to be affected with a public interest. The provisions of this law are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety and general welfare of the people of this state.

History.—Comp. §§1, chs. 59-133 and 59-283.

573.03 Purposes.—The purposes of this law are:

(1) To enable celery and sweet corn producers of this state, with the aid of the state, to correlate more effectively the marketing of their agricultural commodities, with market demands therefor.

(2) The commissioner shall have power, consistent with this law and in accordance with the provision of marketing orders and agreements made effective hereunder, to establish such general rules and regulations for uniform application to all marketing orders and marketing agreements issued hereunder as may be necessary to facilitate the administration and enforcement of such marketing orders and agreements. Notice of any such regulation issued by the commissioner shall be given to all producers and handlers directly affected.

(5) The commissioner shall have full au-

573.23 Exemptions.—

(1) The advisory committee may adopt, with approval of the commissioner, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

(2) The advisory committee may issue certificates of exemption to any applicant who applies for such exemption and furnishes adequate evidence to the advisory committee, that by reason of a marketing order issued pursuant to this law, such applicant has been adversely affected, unduly burdened or the result of the marketing order is confiscatory by reason of acts beyond such applicant's control or by acts beyond reasonable expectation.

(3) The advisory committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

(4) If any applicant for exemption certificates is dissatisfied with the determination by the advisory committee with respect to his application, said applicant may file an appeal with the commissioner. marketing order; provided that such suspension or termination shall not be effective until the expiration of the current marketing season. If the commissioner finds that the termination of any marketing order is requested in writing by more than fifty per cent of those producers who are engaged within the state in the production of celery or sweet corn for market, covered by such marketing order, and who produce for market more than fifty per cent of the volume of such commodity produced within the state for market and the commissioner further finds that such marketing order obstructs or does not tend to carry out the declared policy and purposes of this act, he shall terminate or suspend for a specified period such marketing order or provision thereof; provided that such termination shall become effective not less than ten days after the commissioner gives notice of an order of termination as required in §573.09.

History.—Comp. §§1, chs. 59-133 and 59-283

573.26 Maintenance and production of records, etc.—

(1) The commissioner may require any and all persons directly affected by and subject to the provisions of any marketing order issued pursuant to this law to maintain books and records reflecting their operations under said marketing order, and to furnish to the commissioner or his duly authorized or designated representative or representatives such information as may be from time to time requested by them relating to operations under said marketing order and to permit the inspection by said commissioner, or his duly authorized or designated representative or representatives of such portions of such books and records as relate to operations under said marketing order.

(3) For the purposes of carrying out the provisions of this law, the commissioner, or his duly authorized or designated representative or representatives, may hold hearings, take

testimony, administer oaths, subpoena witnesses and issue subpoenas for the production of books, records, or documents, relevant and material to the subject matter of such hearings.

(4) No person shall be excused from attending and testifying or from producing documentary evidence before the commissioner, or his duly authorized or designated representative or representatives, in obedience to the subpoena of the commissioner on the ground or the reason that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture. But no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may be so required to testify, or produce evidence, documentary or otherwise, before the commissioner in obedience to a subpoena issued pursuant to this law; provided, that no natural person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

History.—Comp. §§1, chs. 59-133 and 59-283.

(1) Every person who violates any provision of this law, or any provision of any marketing agreement or order duly issued by the commissioner hereunder, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not less than \$200 or more than \$10,000. Each day during which any of the violations above referred to continue after the commissioner has issued a cease and desist order against the violator shall constitute a separate offense. Such fine imposed by a court of competent jurisdiction shall be transmitted by the clerk of such court to the commissioner for depositing in the account of the advisory committee.

(2) Upon the filing of a verified complaint charging a violation of any provision of this law, or of any provision of any marketing order issued by the commissioner hereunder, or of any provision of any marketing agreement enforced by the commissioner hereunder, and prior to institution of any court proceedings authorized hereinafter, the commissioner may, in his discretion, refer the matter to the attorney general of Florida, or prosecuting attorney of this state having jurisdiction, for action pursuant to the provisions of this law, or call a hearing to consider the charges set forth in such verified complaint. In such case the commissioner shall cause copy of such complaint, together with notice of the time and place of hearing of such complaint, to be served personally or by registered mail upon the person or persons named as defendant or defendants therein. Such service shall be made at least three days before said hearing, which shall be held in the city or town in which is situated the principal place of business of the defendant, or one of the defendants, if more than one, or in which the violation complained of is alleged to have occurred, or at some con-

At the time and place designated for such hearing, the commissioner, or his agents, shall hear the parties to said complaint, and shall enter in the office of the commissioner at Tallahassee, his findings based upon the facts established at such hearing.

(3) If the commissioner finds that no violation has occurred, he shall forthwith dismiss such complaint and notify the parties to such complaint.

(4) If the commissioner finds that a violation has occurred, he shall so enter his findings and notify the parties to such complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from such violation within the time specified by the commissioner, the commissioner may thereupon file a complaint against such defendant or defendants in a court of competent jurisdiction, as set forth hereinafter.

(5) The attorney general of Florida, or any prosecuting attorney of this state having jurisdiction, may upon his own initiative, and shall upon complaint of any person, if after investigation, he believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of this law or of any marketing order duly issued by the commissioner hereunder or any marketing agreement enforced by the commissioner.

(6) The several circuit courts of the state, sitting in chancery, are hereby vested with jurisdiction specifically to enforce and to enjoin and restrain any person from violating any provisions of this law, or of any marketing order duly issued by the commissioner hereunder or any marketing agreement enforced by the commissioner, in any proceeding brought by the commissioner in any of said circuit courts; and in any such proceeding it shall not be necessary for the commissioner to allege or prove that an adequate remedy at law does not exist. The said circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the commissioner, the court shall permanently enjoin the defendant or defendants from further violations, any such final decree in favor of the commissioner shall provide that the defendant or defendants pay him reasonable costs of such suit, including reasonable attorney's fees to be fixed by the court. Any such action may be commenced either in the county where the defendant resides, or in the county where any other defendant resides, if more than one defendant, or in the county where any act of omission, or part thereof, complained of occurred.

(7) It shall be a misdemeanor for:

(a) Any person to wilfully render or furnish a false or fraudulent report, statement or record required by the commissioner, pursuant to the provisions of this law, or any marketing

agreement or marketing order effective thereunder.

(b) Any person engaged in the handling of celery or sweet corn or in the wholesale or retail trade thereof to fail or refuse to furnish to the commissioner or his duly authorized agents, upon request, information concerning the name and address of the persons from whom he has received celery or sweet corn regulated by a marketing order issued and in effect hereunder, and the quantity of such commodity so received.

History.—§§1, chs. 59-133 and 59-283.

573.28 Continuance of existing orders; conformity.—Any marketing order heretofore duly issued by the commissioner pursuant to this chapter and now in effect shall continue in full

force and effect and shall be conclusively presumed to be in conformity with the provisions of this act, as amended, unless the commissioner calls a public hearing within ninety days after May 21, 1963, and as a result of said hearing finds that such marketing order is not in conformity with the provisions of this act, as amended.

History.—§12, ch. 63-123.

573.29 Presumption of validity.—The validity or propriety of any act or action taken by the commissioner hereunder or in pursuance of any marketing order heretofore or hereafter issued shall be presumed until the contrary is affirmatively established by the person or persons objecting thereto.

573.50 Short title.—Part II of this chapter may be known and cited as the Florida foliage plant marketing law.

History.—§1, ch. 63-126.

573.51 Legislative findings; declaration of policy.—This act is passed:

(1) Because the marketing of foliage plants in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of the commodity, improper preparation for market and lack of uniform grading and classification, unfair methods of competition in the marketing of foliage plants and the inherent inability of individual producers to maintain present markets or to develop new and larger markets for Florida-grown foliage plants result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions and the accompanying waste jeopardize the future continued production of adequate supplies of foliage plants for the people of this state and other states, and prevent foliage plant producers from obtaining a fair return from their labor, farms and products. As a consequence, the purchasing power of the producers has been, in the past, and in all likelihood will continue to be in the future,

low in relation to that of persons engaged in other gainful occupations within this state, unless such conditions are remedied. Foliage plant producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of the other citizens of this state.

(2) Because these conditions vitally concern the health, peace, safety and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid foliage plant producers in preventing economic waste in the marketing of their commodity, to develop more efficient and equitable methods in the marketing of foliage plants, and to aid foliage plant producers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

(3) In the exercise of the police power of this state to promote and protect the public health, peace, safety and general welfare of the people, the marketing of foliage plants within this state is hereby declared to be affected with a public interest.

History.—§2, ch. 63-126.

573.52 Purposes.—The purposes of this act are:

(1) To enable foliage plant producers of this state, with the aid of the state, to correlate more effectively the marketing of their foliage plants with market demands therefor.

(2) To establish and maintain orderly marketing of foliage plants.

(3) To provide methods for the maintenance of present markets, or for the development of new and larger markets for foliage plants grown in Florida.

(4) To provide for uniform grading and proper preparation of foliage plants for market.

(5) To eliminate or reduce economic waste in the marketing of foliage plants grown in Florida.

(6) To prevent, modify or eliminate trade barriers which obstruct the free flow of foliage plants to market.

History.—§3, ch. 63-126.

573.56 Petitioner's expense.—Prior to the issuance of any marketing order by the commissioner, the commissioner shall require the applicants to deposit with him such amounts as the commissioner may deem necessary to defray the expenses of preparing and making effective any marketing order. (1) The provisions are necessary in order to effect a reasonable correlation of the supply of foliage plants affected with market demands therefor and the marketing order or amendments thereto will tend to re-establish or maintain a level of prices for foliage plants which will provide a purchasing power for the commodity adequate to maintain sufficient producers as are required to provide such supply of the quantities and qualities of foliage plants as is necessary to fulfill the normal requirements of consumers.

(2) The marketing order or amendments thereto will tend to approach equality of purchasing power at as rapid a rate as is feasible in view of the market demand for foliage plants.

Ballots and copies of the proposed order may be obtained from county agricultural agents' offices in the marketing area by producers or handlers not receiving them by mail.

(2) It shall be the duty of the producers or handlers affected, who vote in each referendum to send their marked ballots to the commissioner, whose duty it shall be to have the ballots counted by qualified and impartial personnel in his office, and the commissioner shall within ten days after the closing date for submitting ballots in any referendum, certify in writing and publish the results of such referendum in a newspaper of general circulation in the state and in such other newspapers as the commissioner may prescribe.

(2) Provisions for carrying on research studies in the production or distribution of foliage plants and for the expenditure of moneys for such purposes. In any research in production or distribution carried on hereunder, the commissioner upon recommendation of the advisory committee shall select the research project or projects to be carried on. These projects may be carried out by any research agency the commissioner determines, based upon recommendations of the advisory committee.

(3) Provisions relating to the prohibition of unfair trade practices. In addition to the unfair trade practices, now prohibited by law, applicable to the distribution or handling of foliage plants within this state, the commissioner is hereby authorized to include in any marketing order issued hereunder provisions designed to correct any trade practices affecting the distributing or handling of foliage plants within this state which the commissioner finds, after a hearing in which all interested persons are given an opportunity to be heard, is unfair and detrimental to the effectuation of the declared purposes of part II of this chapter.

(4) Provisions establishing or providing for establishing, with respect to foliage plants, either as delivered by producers to handlers, or as handled or otherwise prepared for market, or as marketed by producers or handlers:

(a) Grading standards of quality, condition, size, shape, maturity, pack, or any other criteria for indicating desirability of foliage plants, which standards may include minimum standards, provided the standards shall not be established below any minimum prescribed by law for this commodity.

(b) Uniform inspection, grading of and proper labeling of foliage plants in accordance with the standards so established.

(c) Fix the size, weight, capacity, dimensions or pack of the containers which may be used in the packaging, transportation, sale, shipment, or other handling of foliage plants.

(5) Provisions for the establishment of surplus, stabilization, or by-product pools for foliage plants or of any grade, size, quality or condition and providing for the sale of the commodity in any pool and for the equitable distribution among the persons participating of the net returns derived from the sale of the commodity. Whenever the marketing order authorizes the establishment of any pool or pools, the advisory committee shall have power to receive the commodity from each producer or handler and to handle the same according to the grade, size, quality or condition and to account to each producer or handler participating upon a pro rata basis for the net proceeds derived from the sale.

(6) Provisions incidental to and not inconsistent with the terms, conditions and provisions specified and necessary to effectuate the other provisions of the marketing order.

History.—§17, ch. 63-126.

573.67 Cooperation with other governments.—The commissioner is hereby authorized to confer with and cooperate with the legally constituted authorities of other states and of the United States, for the purposes of obtaining uniformity in the administration of federal and state marketing regulations, licenses or orders, and the commissioner is authorized to conduct joint hearings, issue joint or concurrent marketing orders, and may exercise any administrative authority to effect such uniformity of administration and regulation.

History.—§18, ch. 63-126.

573.68 Limited marketing orders.—A marketing order issued by the commissioner may be limited in application by prescribing the marketing areas or portions of the state in which a particular order shall be effective; provided that no marketing order shall be issued by the commissioner unless it embraces all persons of a like class who are engaged in a specific and distinctive agricultural industry or trade within the prescribed marketing area or portion of the state in which a particular order shall be effective.

History.—§19, ch. 63-126.

573.69 Marketing agreement.—In order to effectuate the declared policy of part II of this chapter, the commissioner shall have the power, after due notice and opportunity for hearing, to enter into marketing agreements, which agreements may contain any of those provisions contained in §573.66 with distributors, producers and others engaged in the handling of foliage plants regulating the handling of the commodity, which marketing agreement shall be binding upon the signatories exclusively. The execution of a marketing agreement shall in no manner affect the issuance, administration or enforcement of any marketing order. The commissioner may issue a marketing order without executing a marketing agreement, or may execute a marketing agreement and issue a marketing order covering the same commodity. The commissioner, in his discretion, may hold a concurrent hearing upon a proposed marketing agreement and proposed marketing order, giving due notice and opportunity for hearing in the manner provided for marketing orders.

History.—§20, ch. 63-126.

573.70 Assessment; funds; audit; loans.—

(1) To provide funds to defray the necessary expenses incurred by the commissioner in the formulation, issuance, administration and enforcement of any marketing order, every person engaged in the production, distributing or handling of foliage plants within this state, and directly affected by any marketing order, shall pay to the commissioner at such times and in such installments as the commissioner may prescribe, such person's pro rata share of necessary expenses. Each person's share of expenses shall be that proportion which the total volume of foliage plants produced, distributed, or handled by the person during the current marketing season, or part thereof covered by such marketing order, is of the total volume of the commodity produced, distributed or handled by all such persons during the same current marketing season or part thereof. The commissioner, after receiving the recommendations of the advisory committee, shall fix the rate of assessment on the volume of foliage plants sold or some other equitable basis. For convenience of collection, upon request of the commissioner, handlers of the commodity shall pay any producer assessments. Handlers paying assessments for and on behalf of any producers shall at their discretion, collect the pro-

ducer assessments from any moneys owed by the handlers to the producers.

(2) The commissioner may require every producer, distributor or handler directly affected by any marketing order to deposit with him in advance cash or sufficient bond based upon the estimated volume of foliage plants to be handled during the period or periods covered by the marketing order to defray the costs involved in the formulation, issuance, administration, and enforcement of any marketing order. At the close of each marketing season during which the marketing order is effective, the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor or handler upon the basis of the volume of foliage plants handled during the period or periods. The commissioner shall prescribe rules and regulations with respect to the assessment and collection of these funds.

(3) Any money so collected by the commissioner may be transmitted to the foliage plant advisory committee, notwithstanding the provisions of §215.31. Upon the receipt of any assessment funds, the advisory committee shall deposit the money in a depository of its choice upon the approval of the commissioner. The actual expenses incurred by the commissioner, his department, or the advisory committee with respect to the foliage plant marketing order, shall be paid out upon warrant of the advisory committee and some other duly authorized person appointed by the commissioner. Any moneys remaining in the fund, at the discretion of the advisory committee upon approval of the commissioner, may be refunded at the close of any marketing season upon a pro rata basis to all persons from whom the funds were collected; provided that upon termination by the commissioner of any marketing order, all moneys remaining and not required by the advisory committee to defray the expenses of the order shall be returned by the advisory committee upon a pro rata basis to all persons from whom the funds were collected.

(4) In the event of levying and collecting of assessments for each fiscal year of the advisory committee in which assessment funds are received by the advisory committee, the advisory committee chairman shall cause to be made a thorough annual audit of the books and accounts of the advisory committee by a certified public accountant, the audit to be completed within sixty days after the end of the advisory committee's fiscal year. The commissioner, and all producers and handlers covered by the marketing order, shall be properly advised of the details of the annual official audit of the advisory committee's accounts as shown by the certified public accountant within thirty days of the audit. Before receiving any assessment funds, the chairman of the advisory committee and some other duly authorized cosigner of vouchers shall give a bond in an amount prescribed by the commissioner, such bond to have as surety a surety company licensed to do business in Florida, to be filed with the

advisory committee, with a copy to the commissioner.

(5) Any assessment levied, in the specified amount as may be determined by the commissioner, shall constitute a personal debt of every person so assessed and shall be due and payable to the commissioner; the commissioner may file a complaint against any person or persons in a state court of competent jurisdiction for the collection of the assessment.

(6) If any advisory committee has reason to believe that the administration of any order will be facilitated or the attainment of the purposes and objectives of the order will be promoted thereby, the advisory committee is authorized to borrow money with or without interest to carry out any provision of any order based upon anticipated assessment collections.

History.—§21, ch. 63-126.

573.71 Commissioner; powers and duties.—

(1) The commissioner shall administer and enforce the provisions of part II of this chapter within the division of marketing in the department. In order to effectuate the declared purposes of this act, the commissioner is authorized to issue, administer, and enforce the provisions of any marketing agreement or order, regulating producer marketing and handling of foliage plants in the primary channel of trade.

(2) The commissioner shall have the power to establish general rules and regulations for uniform application to all marketing orders and marketing agreements as may be necessary to facilitate the administration and enforcement of the marketing orders and agreements. These general rules shall not be applicable to the provisions of this act relative to posting, publications and effective date. General rules shall be mailed to the advisory committee for each marketing order or marketing agreement in active operation.

(3) Upon recommendation of the advisory committee concerned, the commissioner shall have the power to establish administrative rules and regulations for each marketing order or marketing agreement issued and made effective as may be necessary to facilitate the administration and enforcement of each order or agreement.

(4) Upon recommendation of the advisory committee concerned, the commissioner shall have the power to issue and make effective seasonal marketing regulations authorized by the provisions of any marketing order or marketing agreement necessary to carry out and make effective the purposes and provisions of any marketing order or agreement. Notice of any regulations issued by the commissioner shall be given to all producers and handlers directly affected.

History.—§22, ch. 63-126.

573.72 Exemptions.—

(1) The advisory committee may adopt, with approval of the commissioner, the procedures pursuant to which certificates of exemp-

tion will be issued to producers or handlers.

(2) The advisory committee may issue certificates of exemption to any applicant who applies for an exemption and furnishes adequate evidence to the advisory committee, that by reason of a marketing order, the applicant has been adversely affected, unduly burdened or the result of the marketing order is confiscatory by reason of acts beyond the applicant's control or by acts beyond reasonable expectation.

(3) The advisory committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemption.

(4) If any applicant for exemption certificates is dissatisfied with the determination by the advisory committee with respect to his application, the applicant may file an appeal with the commissioner. An appeal must be taken promptly after the determination by the advisory committee. Any applicant filing an appeal shall furnish evidence satisfactory to the commissioner for a determination of the appeal. The commissioner shall consider the application, examine all available evidence, and make a final determination concerning the application. The commissioner shall notify the appellant of the final determination, and shall furnish the advisory committee with a copy of the appeal and a statement of considerations involved in making the final determination.

History.—§23, ch. 63-126.

573.73 Termination of orders.—The commissioner shall suspend or terminate the marketing order or any provision of the marketing order, whenever he finds the provision or order does not tend to effectuate the declared purposes of part II of this chapter, within the standards and subject to the limitations and restrictions herein imposed and he further finds upon a referendum called by himself that fifty-one per cent of the producers who are engaged within the state in the production of foliage plants for market, covered by the marketing order, and who produce for market more than fifty-one per cent of the volume of foliage plants produced within the state for market are opposed to the marketing order; provided the suspension or termination shall not be effective until the expiration of the current marketing season. If the commissioner finds that the termination of any marketing order is requested in writing by more than fifty-one per cent of the producers who are engaged within the state in the production of foliage plants for market, covered by the marketing order, and who produce for market more than fifty-one per cent of the volume of the commodity produced within the state for market, covered by the order, and the commissioner further finds the marketing order obstructs or does not tend to carry out the declared policy and purposes of part II of this chapter, he shall terminate or suspend for a specified period the marketing order or provision thereof; provided the termination shall be effective only if announced on or before the

date, prior to the end of the current marketing period, as may be specified in the order.

History.—§24, ch. 63-126.

573.74 Inspections.—Any authorized inspector or other authorized person discharging his duties in the checking of compliance with the provisions of any marketing order may enter and inspect any premises, enclosure, building or conveyance where he has reason to believe any foliage plants subject to a marketing order are produced, stored, being prepared for market or marketed, and inspect or cause to be inspected the representative samples of the commodity as may be necessary to determine whether or not any lot of foliage plants is in compliance with applicable regulations of any marketing order.

History.—§25, ch. 63-126.

573.75 Maintenance and production of records.—

(1) The commissioner may require any and all persons directly affected by and subject to the provisions of any marketing order to maintain books and records reflecting their operations under the marketing order, and to furnish to the commissioner or his duly authorized or designated representative or representatives any information as may be from time to time requested by them relating to operations under the marketing order and to permit the inspection by the commissioner or his duly authorized or designated representative or representatives of such portions of the books and records as relate to operations under the marketing order.

(2) Information obtained by any person shall be confidential and shall not be disclosed by him to any other person except to a person with like right to obtain it, or any attorney employed to give legal advice or by court order.

(3) The commissioner or his duly authorized or designated representative or representatives may hold hearings, take testimony, administer oaths, subpoena witnesses and issue subpoenas for the production of books, records, or documents relevant and material to the subject matter of the hearings.

(4) No person shall be excused from attending and testifying or from producing documentary evidence before the commissioner, or his duly authorized or designated representative or representatives, in obedience to the subpoena of the commissioner on the ground or the reason that the testimony or evidence, documentary or otherwise, required of him may tend to incriminate him or subject him to a penalty or forfeiture. But no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing concerning which he may be so required to testify, or produce evidence, documentary or otherwise, before the commissioner in obedience to a subpoena issued; provided, no natural person so testifying

shall be exempt from prosecution and punishment for perjury committed in so testifying.

History.—§26, ch. 63-126.

573.76 Penalties; violation; hearings.—

(1) Every person who violates any provision of part II of this chapter, or any provision of any marketing agreement or order duly issued by the commissioner shall be guilty of a misdemeanor, and upon conviction, shall be punished by a fine of not less than \$200.00 nor more than \$10,000.00. Each day during which any of the violations above referred to continue after the commissioner has issued a cease and desist order against the violator shall constitute a separate offense. Any fine imposed by a court of competent jurisdiction shall be transmitted by the clerk of such court to the commissioner for depositing in the account of the advisory committee.

(2) Upon the filing of a verified complaint with the commissioner charging a violation of any provision of this act, or of any provision of any marketing order issued by the commissioner, or of any provision of any marketing agreement enforced by the commissioner, and prior to institution of any court proceedings authorized, the commissioner may, at his discretion, refer the matter to the attorney general of Florida, or prosecuting attorney of this state having jurisdiction, for action pursuant to the provisions of part II of this chapter, or call a hearing to consider the charges set forth in such verified complaint. In such case the commissioner shall cause copy of the complaint, together with notice of the time and place of hearing of the complaint, to be served personally or by registered mail upon the person or persons named as defendant or defendants. Such service shall be made at least three days before the hearing, which shall be held in the city or town in which is situated the principal place of business of the defendant, or one of the defendants, if more than one, or in which the violation complained of is alleged to have occurred or at some other convenient place or location, at the discretion of the commissioner. At the time and place designated for the hearing, the commissioner, or his agents, shall hear the parties to the complaint and shall enter in the office of the commissioner at Tallahassee, Leon county, his findings based upon the facts established at the hearing.

(3) If the commissioner finds no violation has occurred, he shall forthwith dismiss the complaint and notify the parties to the complaint.

(4) If the commissioner finds a violation has occurred, he shall so enter his findings and notify the parties to the complaint. Should the defendant or defendants thereafter fail, neglect, or refuse to desist from the violation within the time specified by the commissioner, the commissioner may thereupon file a complaint against the defendant or defendants in a court of competent jurisdiction.

(5) The attorney general of Florida, or any prosecuting attorney of this state having juris-

diction, may upon his own initiative and shall upon complaint of any person, if after investigation, he believes the violation to have occurred, bring an action in the name of the state in any court of competent jurisdiction within the state against any person violating any provision of part II of this chapter or any marketing order duly issued by the commissioner or any marketing agreement enforced by the commissioner.

(6) The several circuit courts of the state, sitting in chancery, are hereby vested with jurisdiction specifically to enforce and to enjoin and restrain any person from violating any provisions of part II of this chapter, or of any marketing order duly issued by the commissioner or any marketing agreement enforced by the commissioner in any of the circuit courts; and in any such proceeding it shall not be necessary for the commissioner to allege or prove that an adequate remedy at law does not exist. The circuit courts may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and upon final hearing, if final decree be in favor of the commissioner, he shall provide that the defendant or defendants pay him reasonable costs of each suit, including reasonable attorneys' fees to be fixed by the court. These actions may be commenced either in the county where the defendant resides, if more than one defendant,

or in the county where any act or part thereof, complained of occurred.

(7) No marketing order, general rules and regulations, administrative rules and regulations, or seasonal marketing regulations issued in compliance with part II of this chapter shall be required to comply with the provisions of chapter 120.

(8) The provisions of part II of this chapter shall not be applicable to retailers of agricultural commodities except to the extent that any retailer also engages in the processing or distributing of agricultural commodities as defined in part II of this chapter.

(9) It shall be a misdemeanor for:

(a) Any person to willfully render or furnish a false or fraudulent report, statement or record required by the commissioner, or any marketing agreement or marketing order effective thereunder.

(b) Any person engaged in the handling of any agricultural commodity or in the wholesale or retail trade thereof to fail or refuse to furnish to the commissioner or his duly authorized agents, upon request, information concerning the name and address of the persons from whom he has received any agricultural commodity regulated by a marketing order issued and in effect hereunder, and the quantity of the commodity so received.

573.0100 Short title.—Part III of this chapter may be known and cited as the Florida watermelon marketing law.

History.—§1, ch. 63-292.

573.0101 Legislative findings; declaration of policy.—This law is passed:

(1) Because the marketing of watermelons in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of such commodity, improper preparation for market and lack of uniform grading and classification, unfair methods of competition, and the inherent inability of individual producers to maintain present markets or to develop new and larger markets for Florida-grown watermelons

result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions jeopardize the continued production of adequate supplies of watermelons for the people of this state and other states, and prevent watermelon producers from obtaining a fair return from their labor, their farms and their products. As a consequence, the purchasing power of such producers has been low in relation to that of persons engaged in other gainful occupations within this state and in all likelihood will continue to be so in the future, unless these conditions are remedied. Watermelon producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share

to the support of the necessary governmental and educational functions, thus tending to increase unfairly the tax burdens of the other citizens of this state.

(2) Because these conditions vitally concern the health, peace, safety and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid watermelon producers in preventing economic waste in the marketing of their commodity, to develop more efficient and equitable methods in the marketing of watermelons, and to aid watermelon producers in restoring and maintaining their purchasing power at a more adequate, equitable and reasonable level.

(3) The marketing of watermelons within this state is declared to be affected with a public interest. The provisions of part III of this chapter are enacted in the exercise of the police powers of this state for the purpose of protecting the public health, peace, safety and general welfare of the people.

History.—§2, ch. 63-292.

573.0102 Purposes.—The purposes of part III of this chapter are:

(1) To enable watermelon producers of this state, with the aid of the state, to correlate more effectively the marketing of their watermelons with market demands therefor.

(2) To establish and maintain orderly marketing of watermelons.

(3) To provide for uniform grading and proper preparation of watermelons for market.

(4) To provide methods for the maintenance of present markets, or for the development of new and larger markets for watermelons grown in Florida.

(5) To eliminate or reduce economic waste in the marketing of watermelons grown in Florida.

(6) To prevent, modify or eliminate trade barriers which obstruct the free flow of watermelons to market.

History.—§3, ch. 63-292.

(18) Administrative rules and regulations means rules and regulations applicable to a particular marketing order or agreement, issued and made effective by the commissioner upon recommendation of the advisory committee concerned, without prior notice and public hearing to provide methods and procedures to facilitate the administration and enforcement of the marketing order or agreement. Seasonal marketing regulations shall not extend beyond the marketing regulatory authorizations specified in the marketing order or agreement concerned.

573.0104 Required consent by industry.—No marketing order or amendment directly or indirectly affecting or regulating watermelons in the primary channel of trade of this state shall become effective unless the marketing order or amendment thereto has been consented to by a majority of producers or handlers of such commodity in Florida, as provided in §573.0111.

History.—§5, ch. 63-292.

573.0105 Petition of producers.—Upon the application or petition of ten or more producers who state they have reason to believe that the issuance of a marketing order will tend to effectuate the declared policy of this act, the commissioner may give due notice of, and an opportunity for, a public hearing upon a proposed marketing order.

History.—§6, ch. 63-292.

573.0106 Petitioner's expense.—Prior to the issuance of any marketing order, the commissioner shall require applicants to deposit with him such amounts as the commissioner may deem necessary to defray the expenses of preparing and making effective such marketing order. These funds shall be received, deposited and disbursed by the commissioner. Any balance remaining shall be returned to the petitioners if the proposed order does not become effective. If such proposed order does become effective, the total amount deposited may be refunded from the funds collected under the order upon the recommendation of the advisory committee and approval of the commissioner.

History.—§7, ch. 63-292.

573.0107 Public hearing.—Due notice of any hearing shall be given to all persons who may be directly affected by any action of the commissioner. These hearings shall be open to the public. History.—§8, ch. 63-292.

573.0108 Findings; required to issue order.—After such notice and hearing, the commissioner shall issue a marketing order if he finds and sets forth that the order will tend to accomplish the objectives and purposes of part III of this chapter, and:

(1) The provisions are necessary in order to effect a reasonable correlation of the supply of watermelons affected with market demands therefor and the marketing order or amendments thereto will tend to reestablish or maintain a level of prices for watermelons which will provide a purchasing power for this commodity adequate to maintain enough producers to provide the quantities and qualities of watermelons necessary to fulfill the normal requirements of consumers.

(2) The marketing order or amendments thereto will tend to approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for watermelons.

(3) The marketing order or amendments thereto are in conformity with the provisions of part III of this chapter and will tend to effectuate the declared purposes and policies of part III of this chapter.

(4) The marketing order or amendments thereto will protect the interests of consumers of watermelons, by exercising the powers of part III of this chapter only to such extent as is necessary to establish the equality of purchasing power described in subsection (1).

(3) The cost of producing watermelons as determined by available records, statistics and surveys.

(4) The purchasing power of consumers as indicated by reports and indexes.

(5) The level of prices of other commodities which compete with or are utilized as substitutes for watermelons.

(6) The level of prices of watermelons, in relation to services and articles which farmers commonly buy.

(7) Hardship resulting to any watermelon producer by the issuance of any proposed marketing order which cannot be remedied under the provision of §573.0122.

History.—§10, ch. 63-292.

573.0110 Procedure for referendum.—

(1) With respect to any referendum conducted under the provisions of part III of this chapter, the commissioner shall, before calling and announcing a referendum, fix, determine and publicly announce, at least fifteen days in advance of the date on which ballots and copies of the proposed order shall be mailed to all agricultural producers or handlers affected who are in the state and whose names and addresses are known, the date by which ballots must be returned to the commissioner. Ballots and copies of the proposed order may be obtained from county agricultural agents' offices in the marketing area by producers or handlers not receiving them by mail.

(2) It shall be the duty of producers or handlers affected, who vote in the referendum to send their marked ballots to the commissioner, who shall have the ballots counted by qualified and impartial personnel in his office, and the commissioner shall within ten days after the closing date for submitting ballots in any referendum, certify in writing and publish the results in a newspaper of general circulation in the state and in such other newspapers as the commissioner may prescribe.

History.—§11, ch. 63-292.

573.0111 Referendum.—

(1) No marketing order or amendments directly affecting handlers shall become effective unless and until the commissioner finds that the order has been approved by ballot by the handlers covered by the marketing order, who during a representative period determined by the commissioner handled no less than fifty-one per cent of the volume of watermelons produced or marketed within the production or marketing area covered by the order, as provided in subsection (3).

(2) No marketing order or amendments thereto directly affecting and regulating producers shall become effective unless and until the commissioner finds that the order has been approved by ballot by the producers covered by the marketing order, who during a represent-

ative period determined by the commissioner produced not less than seventy-five per cent of the volume of watermelons covered by the marketing order, and who total by number not less than seventy-five per cent of the watermelon producers so covered by the marketing order, as provided in subsection (3).

The commissioner, after receiving the recommendations of the advisory committee, shall fix the rate of assessment on the volume of watermelons sold or some other equitable basis. For convenience of collection, upon request of the commissioner, handlers of the commodity shall pay producer assessments. Handlers paying assessments for and on behalf of any producers shall at their discretion, collect the producer assessments from any moneys owed by the handlers to the producers.

At the close of each marketing season during which the marketing order is effective, the sum so deposited shall be adjusted to the amount which is chargeable against the producer, distributor or handler upon the basis of the volume of watermelons handled during the period or periods. The commissioner shall prescribe the rules and regulations with respect to assessment and collection of these funds.

(6) If any advisory committee has reason to believe that the administration of any order will be facilitated or the attainment of the purposes and objectives of the order will be promoted thereby, the advisory committee is authorized to borrow money with or without interest to carry out any provision of any order based upon anticipated assessment collections.

576.02 Reports required of manufacturers, etc., prior to sale of fertilizers.—

(1) Each brand of commercial fertilizer shall be registered before being offered for sale, sold or otherwise distributed in this state. The application for registration shall be submitted to the commissioner on forms furnished by the commissioner and shall be accompanied by a tag outline setting forth the guaranteed analysis which shall be the same as that appearing on the product registered. The commissioner of agriculture is hereby authorized to refuse to accept, or to cancel, if accepted, registration of anyone who violates any of the provisions of this chapter by failing or refusing to do anything herein required to be done; provided, however, that no registration shall be cancelled until the registrant shall have been notified and given opportunity to be heard before the commissioner. No manufacturer shall be permitted to register any brand of mixed fertilizer of which the available primary plant food constitutes less than sixteen per cent; provided, however, that the commissioner of agriculture, upon request from any manufacturer, shall issue a permit to said manufacturer permitting him to manufacture mixed fertilizer of less than sixteen per cent available primary plant food when said request is accompanied with a copy of the complete formula showing in detail all ingredients and the amount of each to be used; and provided further that the state chemist has examined and approved such a permit. All provisions of this chapter shall apply to manufacture and sale of mixed fertilizer under said permit.

(2) It shall be unlawful for any manufacturer, importer, or agent for the sale of commercial fertilizer to sell or make delivery of such commercial fertilizer before the registration thereof has been accepted by the commissioner of agriculture and the manufacturer, importer, or agent notified of such acceptance by the commissioner of agriculture; provided, such registration may be handled by telegraph prior to delivery of order.

(3) Any change in or deviation from the information filed upon registration of brands of mixed fertilizer with the commissioner of agriculture shall constitute a separate brand and shall require a separate registration; provided, however, that secondary plant foods may be added to a brand already registered so long as such addition does not in any way change

or qualify any other requirements of the registration previously made, and such addition of secondary plant foods shall not require an additional registration. A mere change in the analysis or percentage of plant food for fertilizer material shall not constitute a separate fertilizer material, but shall require an additional registration.

(4) "Total nitrogen," "available phosphoric acid," "water soluble potash," and "total available primary plant food" shall be expressed and guaranteed only in whole numbers representing percentages. Other forms of "primary plant food" and all forms of "secondary plant food" may be expressed and guaranteed in whole numbers or decimal fractions of whole numbers representing percentages.

(5) Manufacturers shipping or delivering commercial fertilizer in lots of one or more tons shall notify the commissioner of agriculture thereof on the date of such shipment, giving the name and address of consignee, point of destination, and county in which located, quantity and brand or brands, and if shipped by rail in carload lots, the number and initial of the car.

History.—§5, ch. 4983, 1901; GS 1267; RGS 2401; §1, ch. 10128, 1925; CGL 3810, §2, ch. 16999, 1935.

Am. §1, ch. 25148, 1949; subsection (1) formerly §576.03, subsections (2) and (3) formerly §576.04, subsection (4) formerly §576.02, subsection (5) formerly §576.05.
Sub. §(1) am. §4, ch. 29793, 1955.

576.03 State chemist to analyze samples of commercial fertilizer.—

(1) It shall be the duty of the state chemist to analyze samples of commercial fertilizer that may be offered for sale in this state, and for this purpose he is authorized and directed to take or have taken by an inspector of the bureau of inspection of the state department of agriculture, or by one on whom the powers of inspector are by this law conferred, an official sample from any lot of commercial fertilizer offered for sale or sold within this state, which samples shall be taken as prescribed by regulation hereunder.

(2) Upon receipt of the official sample, the state chemist shall have the said official sample prepared and analyzed. Before making said official analysis, however, the state chemist shall take or have taken a sufficient portion from the official sample for check analysis, and shall place the same or shall have the same placed in a bottle, sealed and identified by number, date, and initials of the person preparing it. This sealed and identified sample, herein called "official check sample," shall be kept by the state chemist until the analysis is completed on the official sample. Provided, however, that the manufacturer may obtain upon request to the state chemist a portion of said official sample sufficient for analysis. If upon completion of said official analysis it is found to conform, within the meaning of this chapter, with the guarantee of analysis of the manufacturer of the commercial fertilizer from which the official sample was taken, the official check sample may be destroyed. If, however, it is found that the analysis of the commer-

cial fertilizer from which the official sample was taken does not conform, within the meaning of this chapter, with the guarantee of the manufacturer, then the said official check sample shall be retained by the state chemist for a period of ninety days from the date of the certificate of analysis of the official sample. And if within said time the manufacturer of the commercial fertilizer from which the official sample was taken, upon receipt of certificates, shall make demand for analysis of the official check sample by a referee chemist, a portion of the said official check sample sufficient for analysis shall be sent to a referee chemist mutually acceptable to the commissioner of agriculture, the state chemist, and the manufacturer of the commercial fertilizer, for analysis at the expense of the said manufacturer. The referee chemist, upon completion of his analysis, shall forward to the commissioner of agriculture and to the manufacturer a certificate of analysis bearing a proper identification mark or number and said certificate of analysis shall be verified by an affidavit of the person making the analysis. If said certificate of analysis checks within two-tenths of one actual per cent (0.20%) with the state chemist's analysis on each element for which analysis was made, then the mean average of the two analyses shall be accepted as final and binding on all concerned; provided, however, that if the referee's certificate of analysis shows a variation in any one or more elements for which an analysis was made greater than two-tenths of one actual per cent (0.20%) a portion of the official check sample sufficient for analysis shall be submitted to a second referee chemist mutually acceptable to the commissioner of agriculture, to the state chemist, and to the manufacturer of the commercial fertilizer from which the official sample was taken, upon demand of either of them. The second referee chemist, upon completion of his analysis shall make certificate and report as provided above for the first referee chemist. The mean average of the two certificates of analysis nearest in conformity shall be accepted as final and binding on all concerned; if said mean average shows that the manufacturer's guarantee has not been met within the variation hereinafter provided in this chapter, the said certificates shall be admissible in any court.

(3) The state chemist shall show in his certificate of analysis the moisture content of the goods analyzed, the total nitrogen content, the nitrogen as nitrate nitrogen, the nitrogen as ammoniacal nitrogen, the nitrogen as water soluble organic nitrogen, the nitrogen as water insoluble nitrogen, the available phosphoric acid, the insoluble phosphoric acid, the water soluble potash, the total available primary plant food, and the chlorine.

(4) If the guaranteed analysis tag attached to the package from which the official sample was taken shows a claim of percentage of any secondary plant food, then it shall be the duty

of the state chemist to determine the percentage of such secondary plant food present by the methods as provided in this chapter, and to show in his certificate of analysis such percentages as are found present.

(5) Upon completion of the analysis of the official sample by the state chemist, he shall mail to the manufacturer of the commercial fertilizer from which the official sample was taken, and also to the dealer or agent, if any, or purchaser, a true copy of his certificate of analysis.

(6) If an error occurs in analyzing commercial fertilizer or reporting same, the state chemist shall immediately make a corrected report and furnish a copy thereof to the manufacturer and a copy to the purchaser of the fertilizer.

(7) In drawing any official sample and in making any analysis the officially adopted methods and terminology of the association of official agricultural chemists shall be used. In cases not covered by officially adopted methods and terminology of the association of official agricultural chemists, the state chemist shall, as soon as practicable, adopt and publish methods and terminology which shall be official in the state until such methods and terminology are officially adopted by the association of official agricultural chemists; excepting that in any instance in which it is the judgment of the technical committee, as provided for in §576.09 that the officially adopted methods and terminology of the association of official agricultural chemists are not applicable to conditions, circumstances, or cases, in the state, then the state chemist shall, with the approval of the technical committee, adopt and publish methods and terminology which shall be official in the state.

576.04 Analysis of fertilizers to be shown on tag, etc.—

(1) Every package of commercial fertilizer manufactured, imported, transported, distributed, stored, kept or offered for sale or sold in or into the state, shall have securely attached a tag on which shall be plainly and legibly printed the name or brand of the commercial fertilizer, the name and address of the manufacturer, the net contents of the package in pounds, stating the minimum percentage of total nitrogen, the minimum percentage of nitrate nitrogen, the minimum percentage of ammoniacal nitrogen, the minimum percentage of water soluble organic nitrogen, the minimum percentage of water insoluble nitrogen, the minimum percentage of available phosphoric acid, the minimum percentage of insoluble phosphoric acid, the minimum percentage of water soluble potash, the minimum percentage of total available primary plant food, and the maximum percentage of chlorine.

The sum of the various forms of nitrogen

guaranteed shall equal the total nitrogen guaranteed. There shall also be stated on the tag all the materials from which the above plant food are derived.

(2) If claim is made for any of the secondary plant foods they shall be guaranteed on the tag in percentage expressed as oxide with the exception of sulphur which shall be guaranteed as an element. When secondary plant foods are guaranteed in a mixture containing primary plant foods, the guarantee shall be expressed as oxide only; except the element magnesium which shall be guaranteed as an oxide and the percentage thereof guaranteed as to both total and water soluble, and except sulphur which shall be guaranteed as an element. Where such elements form more than one oxide the "technical committee" shall designate the particular oxide which shall be used in a guaranteed analysis.

(3) There shall also be attached to or printed on the tag on each package a label or stamps showing the payment of the fee required; the date of delivery or shipment of the commercial fertilizer to the purchaser shall also be shown on each tag bearing the label or stamp and shall serve as a cancellation mark thereon. There shall be no other statement on the tag, unless required by regulations, except the name and the address of the person to whom the commercial fertilizer is shipped or delivered by the manufacturer; however, the order number may be shown on the tag so long as it does not in any way render the guaranteed analysis illegible. When commercial fertilizer is shipped in bulk by rail there shall be fastened on the inside wall of the car near the door a tag of the same kind as is used in the case of package shipments bearing the same information as required or permitted in the case of package shipments. In such case, the labels or stamps cancelled with date of their use shall be attached to or printed on the tag; provided, however, that in case of bulk shipments or materials from without the state to points within the state, guaranteed analysis of said material and tax stamps cancelled on the date of use may be attached to the invoice covering such shipment of materials and delivered to the purchaser or receiver in lieu of attaching to the inside of the car. When commercial fertilizer is shipped in bulk by truck, wagon or other vehicle, the tags required in this section bearing proper labels or stamps and cancelled with the date of their use shall be attached to the copy of the invoice and shall be delivered to the receiver.

576.05 Form for fertilizer and fertilizer material tags; generally.—

(1) The form of the tag shall be as prescribed by regulation, recommended by the "technical committee" herein provided for.

(2) The provisions for tagging shall not be construed as referring or applying to materials stored by manufacturers for mixing purposes or stored for them in public warehouses, and manufacturers are not required to attach tags or guaranteed analysis to such materials until they are offered for sale, nor shall it be construed as applying to sales of commercial fertilizer by one manufacturer to another.

(3) Regulations hereunder may require additional wording on the tag, covering any substances legally included in the fertilizer, other than those provided for in §576.04.

History.—Comp. §1, ch. 25148, 1949; material formerly contained in §576.05 is now included in §576.02 as subsection (5); prior to 1949 amendment of ch. 576, §§576.08 and 576.09 covered form for fertilizer tags.

576.06 Sale of unprocessed leather, hair, etc.; misrepresentation of ingredients.—

(1) No person shall sell or offer for sale in the state any unprocessed leather, hair, or wool waste as a commercial fertilizer, or as an ingredient of any mixed fertilizer, nor organic material showing an activity of water insoluble nitrogen less than prescribed by the association of official agricultural chemists.

(2) Any manufacturer who shall misrepresent the proportion of nitrogen and the source thereof, phosphoric acid, or potash, or other ingredients contained in commercial fertilizers shall be guilty of a misdemeanor punishable as in this chapter provided.

576.07 Inspection fee to be paid upon commercial fertilizer; reporting system.—

(1) Every manufacturer of or agent or dealer in commercial fertilizer shall pay to the commissioner of agriculture a fee of twenty-five cents per ton for commercial fertilizer offered for sale in the state, except raw ground phosphate rock, soft phosphate, colloidal phosphate, phosphatic clays and all other untreated phosphatic materials, peat or humus, and hydrated lime and limestone when sold or used for agricultural purposes, on which materials the fee shall be ten cents per ton. The said fee or fees shall accompany the order or orders on the commissioner of agriculture for the official stamps or tags which shall evidence the payment of said fees as herein required. Provided that when the manufacturer shall have paid the fee herein named for any person acting as agent or seller for any manufacturer, the agent or seller shall not be required to pay the fee named in this section. This section shall not be construed as applying to sales of commercial fertilizer by one manufacturer to another. All fees paid to the commissioner of agriculture, as herein provided, shall be by him paid into the state treasury to be placed in the general inspection trust fund.

(2) Any manufacturer, importer, dealer, agent or seller of commercial fertilizer in Florida may make application to the commissioner of agriculture of Florida for a permit to report the tonnage of commercial fertilizer sold and pay the inspection fee fixed and required in the first paragraph of this section, as the basis for said report, in lieu of affixing or furnishing inspection fee tags or stamps. The commissioner of agriculture may, in his discretion, grant such permit. The issuance of all permits will be conditioned on the applicant satisfying the commissioner of agriculture that he has a good bookkeeping system and keeps such records as may be necessary to indicate accurately the tonnage of commercial fertilizer sold in the state and as are satisfactory to the commissioner of agriculture and granting the commissioner of agriculture, or his duly authorized representative, permission to examine such records and verify the tonnage statement. The tonnage report shall be monthly and the inspection fee shall be due and payable monthly, on or before the fifteenth day of each month covering the tonnage and kind of commercial fertilizer sold during the last preceding month. The report shall be under oath and on forms furnished by the commissioner. If the report is not filed and the inspection fee paid on the date due or if the report of tonnage be false, the amount of inspection fee due shall bear a penalty of ten per cent which shall be added to the inspection fee due and shall constitute a debt and become a claim and lien against the cash deposit or securities or bond which may be required. Failure to make an accurate statement of tonnage or to pay the inspection fee as provided herein shall constitute sufficient cause for revocation of the permit. That in order to guarantee faithful performance with the provisions of this subsection each applicant shall, before being granted a permit to use the reporting system, deposit with the commissioner of agriculture cash in the amount of one thousand dollars or securities acceptable to the commissioner of a value of at least one thousand dollars or shall deposit with the commissioner a surety bond in like amount executed by some corporate surety company authorized to do business in Florida. The commissioner shall approve all such securities or bonds before acceptance.

(3) In the event the permittee for any reason discontinues operating under the provisions of this subsection (2) of this section, and there is no liability against the bond posted by the permittee as herein required, the said bond or deposit shall thereupon be returned to the permittee.

(4) The manner and method of labeling to show the information required by §576.04 shall be provided by the permittee and shall be acceptable to the commissioner of agriculture.

(1) n. by §2, ch. 61-119.

576.08 Action by party entitled to recover damages under this chapter.—

(1) Any person purchasing commercial fertilizer from any manufacturer or dealer or agent who shall discover upon an analysis made by the state chemist or otherwise provided by this chapter that he is entitled to recover damages for reason of variation from guaranteed analysis greater than the tolerances permitted under this chapter, shall recover in any action he may institute upon proof of the variation the amount to which he may be entitled under the provisions of penalties.

History.—§3, ch. 17808, 1937; CGL 1940 Supp. 4151(431).

579.03 Report to commissioner of agriculture.—If such board of county commissioners, after such investigation, shall find and determine that such petition has been duly signed by the requisite number of registered voters, who are freeholders, residing within said territory; and that it is in all respects strictly in accordance with the requirements of law, such finding and determination shall be regarded for all purposes as conclusive; and such board shall thereupon immediately certify to the commissioner of agriculture, a copy of such petition, together with its finding and determination thereon.

Only duly qualified electors, who are freeholders, shall be entitled to vote at such election.

But if a majority of the votes cast at such special election shall be in favor of the proposition to create a cotton production control district, then said board of county commissioners shall certify such fact to the commissioner of agriculture of the State of Florida, who shall then enter an order constituting the territory, in which said election was held, into a cotton production control district, effective as of January 1st next succeeding the

(d) The guaranteed analysis, listing the minimum percentage of crude protein, minimum percentage of crude fat, and maximum percentage of crude fiber, and, when mineral ingredients are present, the maximum percentage of ash, or the maximum percentage of total mineral ingredients, or the percentage of each mineral ingredient; provided that maximum percentages of ash or of mineral ingredients

for types of commercial feed may be established by regulation. Vitamin ingredients, when guaranteed, shall be shown in amounts and terms provided by regulation. For mineral feeds the list shall include the following: Maximum and/or minimum percentages of calcium (Ca), phosphorus (P), salt (NaCl), iron (Fe), copper (Cu), cobalt (Co), manganese (Mn), and fluorine (F) if ingredients used as sources of any of these constituents are declared. All mixtures containing mineral or vitamin ingredients, generally regarded as dietary factors essential for the normal nutrition of animals, and which are sold or represented for the primary purpose of supplying these minerals or vitamins as additions to rations in which these same mineral or vitamin factors may be deficient, shall be classified as mineral or vitamin supplements. The commissioner may by regulation limit the use of active drug ingredients in commercial feeds and prescribe the labeling to be used to insure safe usage of such medicated feeds. Other nutritional substances or elements determinable by laboratory methods may be guaranteed by permission of or shall be guaranteed at the request of the commissioner as may be provided by regulation. Products sold solely as mineral and/or vitamin supplements and guaranteed as specified in this section need not show guarantees for protein, fat and fiber.

(3) There shall be paid to the commissioner the amount of \$10.00 as penalty for the distribution of any commercial feed that is not accompanied with labeling required under this chapter, as may be determined by the commissioner, and proceeds from any such penalty payments shall be deposited by the commissioner in the general inspection trust fund.

580.061 Inspection fees, payment thereof; enforcement; reporting system and bond requirement.—

(1) There shall be paid to the commissioner for all commercial feed distributed in this state an inspection fee at the rate of twenty-five cents per ton; provided, that sales of commercial feeds to manufacturers or exchanges between them are hereby exempted if the commercial feeds so sold or exchanged are used solely in the manufacture of feeds which are registered; provided, that invoices for such sales or exchanges show the following: "For

mixing in registered brands only"; and provided that such sales or exchanges shall be supported by a written purchase order or confirmation of purchase, which in form shall be subject to the approval of the commissioner, signed by the manufacturer to whom such feeds are invoiced, showing that such feeds are or were purchased for use solely in the manufacture of feeds which are registered. All fees collected by the commissioner under this chapter shall be paid to the state treasurer to the credit of the general inspection trust fund. The commissioner may employ all help necessary to carry out and enforce the provisions of this chapter and may designate any such employee to perform any duties necessary to carry out the terms of this chapter. All expenses and salaries shall be paid out of the general inspection trust fund.

(2) (a) Each registrant or distributor of commercial feeds distributed in Florida shall make application to the commissioner for a permit to report the tonnage of commercial feeds sold and pay the inspection fee of twenty-five cents per ton as in this chapter provided. The issuance of all permits will be conditioned on the applicant satisfying the commissioner that he has a good bookkeeping system and keeps such records as may be necessary to indicate accurately the tonnage of commercial feeds sold in this state and as are satisfactory to the commissioner and granting the commissioner or his duly authorized representative permission to examine such records and verify the tonnage statement. The tonnage report shall be monthly, quarterly, semiannually or annually, as determined by the commissioner, and the inspection fee shall be due and payable on or before the twentieth day of the month covering the tonnage and kind of commercial feeds sold during the preceding reporting period. The report shall be under oath and on forms furnished by the commissioner. The report shall show the number of tons of each type of feed as shown on the form so furnished. If the report is not filed and the inspection fee paid on the date due or if the report of tonnage be false, the amount of inspection fee due is subject to a penalty of ten per cent which may be added to the inspection fee due and constitutes a debt and becomes a claim and lien against the surety bond which is required as hereinafter provided. Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided herein shall constitute sufficient cause for revocation of the permit and also for cancellation of the master registration on file for the permittee. In order to guarantee faithful performance with the provisions of this chapter each applicant for permit shall post with the commissioner a surety bond in such amount as shall be required by the commissioner to cover fees for any given reporting period, which amount shall not be less than one thousand dollars surety bond to be executed by a corporate surety company authorized to do business in Florida. The com-

missioner shall approve all such bonds before acceptance.

(b) In the event the permittee for any reason discontinues operating under the provisions of §580.061 (2)(a), the said bond posted by the permittee as provided therein, shall continue in full force and effect; provided, however, that in the event of such discontinuance of operation the permittee may by written notice of such discontinuance to the commissioner, and setting forth the date of such discontinuance, in which event said bond shall remain in force and effect for a period of ninety days thereafter for the filing of any claim or claims against the same; and after such period of ninety days the bond shall stand cancelled except as to such claim or claims as have been filed prior thereto.

(c) Any registrant or distributor of commercial feed distributed in Florida who holds any stamps or tags obtained from the commissioner as evidence of payment of inspection fee that may have been required or provided under prior law shall be refunded the purchase price of same upon application to the commissioner before July 1, 1962, and return of such stamps or tags to the commissioner.

(1) If it contains any poisonous, deleterious or non-nutritive ingredient in sufficient amount to render it injurious to health when fed in accordance with directions for use on the label.

(2) If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.

(3) If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling.

(4) If it contains added hulls, screenings, straw, cobs or other high fiber material unless the name of each such material is stated on the label.

History.—§7, ch. 29755, 1955; (1) a., (4) n. by §6, ch. 61-440.

(4) If it purports to be, or is represented as, a commercial feed for which a definition of identity and standard of quality has been prescribed by regulation unless it conforms to such definition and standard.

(5) If any word, statement, or other information required by or under authority of this chapter to appear on the label or labeling is not

prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices in the labeling) and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

History.—§8, ch. 29755, 1955; (3) a. by §7, ch. 61-440.

580.091 Inspection; sampling; analysis.—

(1) It shall be the duty of the commissioner, who may act through his authorized agent, to sample and inspect commercial feeds distributed within this state at such time and place to such an extent as he may deem necessary to determine whether such commercial feeds are in compliance with the provisions of this chapter. The commissioner, individually or through his agent, is authorized to enter upon any public or business premises and in any vehicle of transport during regular business hours in order to have access to commercial feeds and records relating to their transportation and sale, subject to the provisions of this chapter and the rules and regulations pertaining thereto.

(2) It shall be the duty of the commissioner or his authorized agent to draw and to have analyses made of official and special samples.

(3) The methods of sampling and analysis shall be those adopted by the commissioner.

(4) The commissioner or his authorized agent, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided solely by the official sample as defined in §580.031 (14) and obtained and analyzed as provided for in subsections (1) and (2) of this section.

(5) When the inspection and analysis of an official sample indicate a commercial feed has been adulterated or misbranded, the results of analysis shall be forwarded by the commissioner or his authorized agent to the guarantor and the purchaser. On request, within thirty days from the date of report, the commissioner or his authorized agent, shall furnish to the guarantor a portion of the sample concerned for check analysis. If requested by the guarantor within sixty days from the date of report, the commissioner or his authorized agent, shall forward other portions of said sample to two referee chemists agreed upon by the commissioner or his authorized agent and the guarantor. The analysis fees of the referee chemists shall be paid by the guarantor. The average of analyses reported by the commissioner or his authorized agent and the two referee chemists shall become the official analysis.

provision of this chapter; provided, that an open hearing shall be held by the commissioner before proposed rules, regulations and standards are adopted; provided further, that during an emergency involving health of animals the commissioner may promulgate temporary regulations effective for the period of emergency or until regulations as above mentioned may be promulgated. The commissioner or his authorized agent shall release the commercial feed so withdrawn when the provisions and regulations have been complied with and all costs and expenses incurred in the withdrawal have been paid; provided that with the permission of the commissioner or his authorized agent any lot of feed under said "stop-sale" for reason of being "below guarantee" may be sold as such to a consumer who shall sign a statement professing that he, the consumer, had knowledge of the same at the time of purchase. If compliance is not obtained within a reasonable time, the commissioner shall begin proceedings for condemnation.

(2) CONDEMNATION AND CONFISCATION.—Any lot of commercial feed not in compliance with the provisions of this chapter, or regulations hereunder, shall be subject to seizure on complaint of the commissioner to the circuit judge or circuit court of the circuit in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this chapter, or regulations hereunder, and orders the condemnation of said commercial feed, it shall be disposed of in the manner provided by said circuit judge or circuit court in the said order of condemnation; provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this chapter.

History.—§11, ch. 29755, 1955; (1) a. by §10, ch. 61-440.

other states, territory or foreign countries as to a dangerous insect pest or disease, it is unlawful thereafter until such quarantine is removed for any person to introduce into this state, or to move, sell or otherwise dispose of within this state any plant, plant product or other thing included in such quarantine, except under such rules and regulations as may be prescribed by the department; provided that in case of emergency where it is necessary to place a quarantine to take effect immediately the promulgation may be made by the plant industry technical committee.

History.—§9, ch. 12291, 1927; CGL 3838; tr. from §581.07 and am. by §10, ch. 59-261.

581.111 Emergency.—An emergency is any situation wherein the plant industry technical committee has declared a plant pest to be a public nuisance or when in the opinion of the said technical committee a plant pest endangers or threatens the horticultural and agricultural interest of the state. Rules and regulations promulgated and adopted by the technical committee in cases where an emergency is declared to exist shall be effective immediately. These rules and regulations shall continue in effect while the emergency for which the rules and regulations were promulgated and adopted continues to exist, provided, however, that no emergency shall exist for a period in excess of six months, without review by the technical committee and redeclaration by it that such emergency continues to exist.

History.—§11, ch. 59-261.

581.121 Nursery stock; sale, etc.—It is unlawful for any nurseryman, dealer or agent to sell, give away, carry, ship or deliver for carriage or shipment any nursery stock except in compliance with the provisions of this chapter and the rules and regulations made pursuant to law.

Each application for a certificate of inspection shall be accompanied by a certificate fee in such amount as shall be determined by the commissioner; and upon the issuance of such certificate it shall be renewed annually thereafter upon its anniversary date upon satisfactory showing to the director of the division of plant industry that the provisions of this law and the regulations of the department have been complied with and upon the payment of an annual renewal fee in such amount as shall be determined by the commissioner; provided, however, that neither such certificate of inspection fee or such annual renewal fee shall exceed twenty-

five dollars; provided further, that the commissioner may exempt from the payment of a certificate fee nurserymen and dealers whose nursery stock is used exclusively for planting on their own property, provided further that all applications for annual renewal of certificates of inspection required by this section shall be made not later than the anniversary date of the certificate being renewed, and any such application received after such date shall be accompanied by a penalty or late filing fee of not to exceed five dollars. All moneys received by the department under the provisions of this section shall be deposited in the state treasury to the credit of the special account known as the plant industry account within the general inspection trust fund and shall be used by the department to defray its expenses in carrying out the duties imposed on it by this chapter.

581.142 Viable nursery stock; requirements for sale.—

(1) It shall be unlawful to sell or offer for sale any plant or nursery stock unless such plant or nursery stock is viable and meets the basic requirements of a viable plant or viable nursery stock, at the time and place of sale.

(2) Nursery stock or a plant that is capable of living and accomplishing the purpose for which it is grown, whether foliage, flowers, fruit or special use shall be considered viable.

(3) The basic requirements of viable nursery stock or a viable plant are as follows:

(a) Same must be free of physiological and pathological defects to the extent that all essential parts may function normally.

(b) The root system must have adequate roots or the ability to produce them to support normal performance of all essential parts of the plant. The root system must be adequately protected to prevent excessive loss of moisture while in storage and transit.

(c) Trunk and branches must be capable of transporting fluids throughout the plant and be free from any infirmity of a permanent nature which would interfere with this function. Any damaged branches must be capable of being pruned without seriously deterring growth of the plant.

(d) Leaves must be capable of performing essential manufacturing functions, such as pho-

tosynthesis. In the case of deciduous plants, when void of leaves, must have the ability to put out new leaves capable of functioning normally.

(4) This act shall be enforced by and under the control of the department of agriculture of the state and the division of plant industry in the same manner as provided for the enforcement of other matters contained in chapter 581, and the commissioner, the department of agriculture and the division of plant industry are authorized to use the powers given in chapter 581 to the same extent as if the provisions of this act were specifically incorporated in chapter 581 and as if the wording of said chapter specifically included viable plants and viable nursery stock and shall have the right to make regulations, inspect, enforce, search, seize, and destroy, after reasonable notice, plants and nursery stock which do not meet the standards provided herein and which are offered for sale in violation of this act.

(5) The department of agriculture, through the commissioner, shall have the powers and duties subject to procedural requirements of §581.051, pertaining to rules and regulations:

(a) To make all rules and regulations for the purpose of carrying out the purposes of this act and the enforcement thereof;

(b) In connection with and in order to insure inspection thereof;

(c) Providing standards to assist in the determination of what are viable plants or nursery stock;

(d) Such other and further regulations as are within the purview of this act and will assist in its proper administration.

(6) Any person who shall violate any of the provisions or requirements of this act or the rules and regulations made thereunder or any notice given pursuant thereto or who shall interfere with or obstruct any inspector or any other employee of the department shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than \$25.00 nor more than \$500.00, or by imprisonment of not more than 6 months.

History.—§§1-6, ch. 63-260.

581.151 Control of spreading decline.—The department is empowered to join with the U. S. department of agriculture or to proceed independently in a program to control and eradicate, wherever possible, spreading decline resulting from a burrowing nematode (*Radopholus similis* (Cobb) Thorne), in the state.

History.—§15, ch. 59-261.

581.152 Eradication of burrowing nematode in commercial groves.—

(1) The citrus disease known as spreading decline, caused by the burrowing nematode is hereby declared to be a dangerous public nuisance and a serious threat to the citrus industry of Florida.

(2) The department of agriculture is directed to carry out a program of containment or eradication of spreading decline, caused by the burrowing nematode, in all commercial cit-

rus grove areas in Florida. This program shall include the destruction of all trees and plants in commercial citrus groves or adjacent thereto which are infested by the burrowing nematode and the fumigation of the soil in such areas in accord with rules and regulations of the department of agriculture.

Trees and plants which are known to be hosts to the burrowing nematode but which are not infested with the burrowing nematode shall also be destroyed as a part of the program if their destruction is deemed necessary as provided by the rules and regulations of the department to prevent the spread of the burrowing nematode from an infested area into an uninfested area. Provided, however, no trees shall be destroyed without the owner's consent unless so decreed by a court of competent jurisdiction.

Any grove owner, objecting to the destruction of his trees, infested or otherwise, deemed necessary by the department to be destroyed shall prior to any further action on the part of the department have the right to judicial declaration as to the validity of any rule or order requiring such destruction by bringing an action for a declaratory judgment.

Reasonable compensation based on fair market value shall be made by the department for the compulsory destruction of trees in carrying out the program authorized by this section and in providing protection for the commercial citrus industry of Florida.

The amount of compensation to be paid each grove owner for the loss of his trees in accord with this section shall be determined by the department or its agents, and the grove owner shall be paid such compensation upon his written request before the destruction of his trees.

In the event any grove owner deems such compensation to be inadequate or unreasonable he may petition in writing for a hearing before an independent appraisal board which shall be comprised of one member selected by the grove owner, one member selected by the commissioner, and one member selected and mutually agreed upon by the parties. Such board shall make a fair, impartial appraisal of the value of the trees in question and submit same to the department in writing along with the written proceedings of the hearing. Each member of such appraisal board may be compensated by the department in a reasonable amount as determined by the department.

The administrative determination of such appraisal board as to the amount of compensation to which a grove owner is entitled may be reviewed by certiorari by the circuit court of the county in which the trees are located in the manner provided for in chapter 59 and the Florida appellate rules.

Provided, however, in any proceeding instituted by a grove owner objecting to the destruction of his trees, in which the decision of the court is adverse to said grove owner, the compensation for such trees shall be adjudicated in the same proceeding, pursuant to the procedure herein.

(3) The department shall conduct public hearings for consideration of rules and regulations and such public hearings shall be held prior to the making or promulgating of rules and regulations. Notice of such public hearing must be given at least fifteen days prior to such hearing. Any person, firm, or corporation with property in, or who is a resident of, the state, affected by the department's rules or regulations, may file his name and address with the department and request that he be furnished with a copy of any proposed rule or regulation, and the department shall, in not less than fifteen days before any public hearing, mail a copy of such proposed rule or regulation to every person so requesting same. Any such person shall have the right to be fully heard in person, or through an attorney, by the department upon any proposed rule or regulation.

(4) The department is authorized to cooperate with other public agencies both state and federal and with the Florida citrus industry in carrying out the program of containment, eradication and research of spreading decline authorized by this section.

581.161 Fumigation or treatment of fruit or plants infested by Mediterranean fruit fly or other pests.—The division of plant industry is authorized to supervise or cause the fumigation or treatment of fruit or plants infested by the Mediterranean fruit fly or any other agricultural pest when such pest has been declared to be a nuisance by the commissioner or the technical committee under its emergency powers. Such fumigation may be performed by employees of the said division or other persons supervised by the director of the said division and the persons engaged in such fumigation or treatment of fruit or plants shall not be required to be licensed by any other board or agency notwithstanding the provisions of any other law.

581.181 Notice of infection of plants; destruction.—

(1) If the director shall find, on examination, any plant or plant product infested or infected with injurious insects or plant diseases,

he shall notify the owner or person having charge of such premises to that effect, and the owner or person in charge shall, within ten days after such notice, cause the removal and destruction of infested and infected plant or plant product if it is incapable of successful treatment; otherwise, such owner or person in charge shall cause it to be treated as directed in the notice. No damage shall be awarded to the owner for the destruction of infested or infected plant or plant product under the provisions of this chapter.

(2) In case the owner or person in charge shall refuse or neglect to comply with the terms of the notice, within ten days after receiving it, the director may, under authority of the commissioner, proceed to treat or destroy the infested or infected plant or plant product. The expense thereof shall be assessed, collected and enforced against the owner by the department.

History.—§18, ch. 59-261; (2) a. by §6, ch. 61-409.

581.201 Injunction.—A single act in violation of the provisions of this chapter shall be sufficient to authorize the issuance of an injunction. The commissioner is not required to furnish bond when making complaint for injunction. The attorney general, the state attorneys, prosecuting attorneys, county solicitors, and all public prosecutors in each county shall represent the department when called upon to do so. The department in the discharge of its duties and in the enforcement of powers herein delegated may send for books, records, and papers, administer oaths and hear witnesses, and to that end the various sheriffs throughout the state shall serve all summonses and other papers upon request of the department.

582.01 Definitions.—Wherever used or referred to in this chapter unless a different meaning clearly appears from the context:

(1) "District" or "soil conservation district" means a governmental subdivision of this state, and a public body corporate and politic, organized in accordance with the provisions of this chapter, for the purpose, with the powers, and subject to the restrictions set forth in this chapter.

(2) "Supervisor" means one of the members of the governing body of a district, elected in accordance with the provisions of this chapter.

(3) "Board" or "state soil conservation board" means the agency created in §582.06.

(4) "Land owner" or "owner of land" includes any person who shall hold legal or equitable title to any lands lying within a district organized under the provisions of this chapter.

(5) "Land occupier" or "occupier of land" includes any person, other than the owner, who shall be in possession of any lands lying within a district organized under the provisions of this chapter, whether as lessee, renter, tenant, or otherwise.

(6) "Qualified elector" includes any person qualified to vote in general elections under the constitution and statutes of this state who, in addition to such qualifications, is a land owner or owner of land as herein defined.

(7) "Due notice" means notice published at least twice, with an interval of at least seven days between the two publication dates, in a newspaper or other publication of general circulation within the appropriate area, or if no such publication of general circulation be available, by posting at a reasonable number of conspicuous places within the appropriate area, such posting to include, where

possible, posting at public places where it may be customary to post notices concerning county or municipal affairs generally. At any hearing held pursuant to such notice, at the time and place designated in such notice, adjournment may be made from time to time without the necessity of renewing such notice for such adjourned dates.

History.—§3, ch. 18144, 1937; §1, ch. 19473, 1939; CGL 1940 Supp. 4151(474).

582.02 Lands a basic asset of state.—The farm, forest and grazing lands of the state are among the basic assets of the state and the preservation of these lands is necessary to protect and promote the health, safety, and general welfare of its people; improper land-use practices have caused and have contributed to, and are now causing and contributing to a progressively more serious erosion of the farm and grazing lands of this state by fire, wind and water; the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus, and developing a soil condition that favors erosion; the top soil is being burned, washed and blown out of fields and pastures; there has been an accelerated washing of sloping fields; these processes of erosion by fire, wind and water speed up with removal of absorptive topsoil, causing exposure of less absorptive and less protective but more erosive subsoil; failure by any landowner or occupier to conserve the soil and control erosion upon his lands causes destruction by burning, washing and blowing of soil and water from his lands onto other lands and makes the conservation of soil and control erosion of such other lands difficult or impossible.

History.—§2, ch. 18144, 1937; CGL 1940 Supp. 4151(473).

582.03 Consequence of soil erosion.—The consequences of such soil erosion in the form of soil-washing and soil-blowing are the silting and sedimentation of stream channels, reservoirs, dams, ditches, and harbors; the loss of fertile soil material in dust storms; the piling up of soil on lower slopes, and its deposit over alluvial plains; the reduction in productivity or outright ruin of rich bottom lands by overwash or poor sub-soil material, sand; deterioration of soil and its fertility, deterioration of crops grown thereon, and declining acre yields despite development of scientific processes for increasing such yields; loss of soil and water which causes destruction of food and cover for wildlife; a blowing and washing of soil into streams which silts over spawning beds, and destroys water plants, diminishing the food supply of fish; a diminishing of the underground water reserve, which causes water shortages, intensifies periods of drought, and causes crop failure; an increase in the speed and volume of rainfall runoff, causing severe and increasing floods, which bring suffering, disease, and death; impoverishment of families attempting to farm eroding and eroded lands; damage to roads, highways, railways, farm buildings, and other property from floods and from dust storms; and losses in navigation, hydroelectric power, municipal water supply, irrigation developments, farming and grazing.

History.—§2, ch. 18144, 1937; CGL 1940 Supp. 4151(473).

582.04 Appropriate corrective methods.—To conserve soil resources and control or prevent soil erosion, it is necessary that land-use practices contributing to soil wastage and soil erosion be discouraged and discontinued, and appropriate soil-conserving land-use practices be adopted and carried out; among the procedures necessary for widespread adoption, are the carrying on of engineering operations, such as the construction of terraces, terrace outlets, check-dams, dikes, ponds, ditches, and the like; the utilization of strip cropping, lister furrowing, contour cultivating, and contour furrowing; land irrigation, seeding and planting of waste, sloping, abandoned, or eroded lands to water conserving and erosion-preventing plants, trees, and grasses; forestation and reforestation; rotation of crops; soil stabilization with trees, grasses, legumes, and other thick-growing, soil-holding crops; the addition of soil amendments, manurial materials and fertilizers for the correction of soil deficiencies or for the promotion of increased growth of soil protecting crops; retardation of runoff by increasing absorption of rainfall; and retirement from cultivation of steep, highly erosive areas and areas now badly gullied or otherwise eroded.

History.—§2, ch. 18144, 1937; CGL 1940 Supp. 4151(473).

582.05 Legislative policy for conservation.—It is the policy of the legislature to provide for the conservation of the soil and soil resources of this state, and for the control and prevention of soil erosion, and thereby to pre-

serve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety and general welfare of the people of this state.

History.—§2, ch. 18144, 1937; CGL 1940 Supp. 4151(473).

582.06 State soil conservation board; advisory committee.—

(1) The present state soil conservation board is hereby abolished and a new state soil conservation board is hereby created.

(2) The state soil conservation board, called the "state board" in this chapter, shall be composed of five members, from among active farmers of at least five years continuous practice of farming at time of appointment who have been practicing soil conservation, and who shall be appointed by the governor, no two members shall be appointed from the same congressional district. Two members shall be appointed for a term of one year; one member shall be appointed for a term of two years; one member for a term of three years; and one member for a term of four years. After the completion of the initial terms thereafter the terms of the members of the state board shall be for four years. The chairman of the state board shall be selected by the members of the state board, at a meeting to be called immediately upon appointment of the original members of the state board and annually thereafter. The state board is authorized to receive gifts, appropriations, materials, equipment, lands and facilities and to manage, operate and disburse same for the use and benefit of the soil conservation districts of the state. The state board, except as provided in this chapter, shall act in conjunction with, but at all times under and subject to, the control and supervision of the state board of conservation as defined by §370.01.

(3) The state board may create an advisory committee which shall be composed of the commissioner of agriculture, the state director of agricultural extension, the state forester and such other persons as the state board may deem qualified. The state board may use this advisory committee in the planning, and in the accomplishment of, the objectives of this chapter.

History.—§4, ch. 18144, 1937; §2, ch. 19473, 1939; CGL 1940 Supp. 4151(475); am. §1, ch. 28094, 1953.

582.07 Quorum of board; compensation; powers; etc.—A majority of the board shall constitute a quorum, and the concurrence of a majority in any matter within their duties shall be required for its determination. The members of the board shall receive no compensation for their services on the board, but shall be reimbursed for traveling expenses as provided in §112.061. The board shall provide for the execution of surety bonds for all employees and officers who shall be entrusted with funds or property; shall provide for the keeping of a full and accurate record of all pro-

ceedings and of all resolutions, regulations, and orders issued or adopted; and shall provide for an annual audit of the accounts of receipts and disbursements.

History.—§4, ch. 18144, 1937; §2, ch. 19473, 1939; CGL 1940 Supp. 4151(475); §24, ch. 57-1; §19, ch. 63-400.

582.08 Additional powers of board.—The state soil conservation board shall have the following additional duties and powers:

(1) To offer such assistance as may be appropriate to the supervisors of soil conservation districts, organized as provided in §582.10, in the carrying out of any of their powers and programs.

(2) To keep the supervisors of each of the several districts organized under the provisions of this chapter informed of the activities and experience of all other such districts, and to facilitate an interchange of advice and experience between such districts and cooperation between them.

(3) To coordinate the programs of the several soil conservation districts so organized so far as this may be done by advice and consultation.

(4) To secure the cooperation and assistance of the United States and any of its agencies, and of agencies and counties of this state, in the work of such districts.

(5) To disseminate information throughout the state concerning the activities and programs of the soil conservation districts so organized and to encourage the formation of such districts in areas where their organization is desirable.

History.—§4, ch. 18144, 1937; §2, ch. 19473, 1939; CGL 1940 Supp. 4151(475).

582.09 Administrative officer of board.—The state soil conservation board may employ an administrative officer and such technical experts and such other agents and employees, permanent and temporary, as it may require, and shall determine their qualifications, duties, and compensation. The board may call upon the attorney general of the state for such legal services as it may require, or may employ its own counsel and legal staff. It may delegate to one or more of its members, or to one or more agents or employees, such powers and duties as it may deem proper, and the board may furnish information as well as call upon any or all state or local agencies for cooperation in carrying out the provisions of this chapter.

History.—§4, ch. 18144, 1937; §2, ch. 19473, 1939; CGL 1940 Supp. 4151(475).

582.10 Creation of soil conservation districts.—Any twenty-five owners of land lying within the limits of the territory proposed to be organized into a district may file a petition with the state soil conservation board, asking that a soil conservation district be organized to function in the territory described in the petition. Such petition shall set forth:

(1) The proposed name of said district.

(2) That there is need, in the interest of the public health, safety, and welfare, for a soil conservation district to function in the territory described in the petition.

(3) A description of the territory proposed to be organized as a district, which description shall not be required to be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate.

(4) A request that the state soil conservation board duly define the boundaries for such district; that a referendum be held within the territory so defined on the question of the creation of a soil conservation district in such territory; and that the board determine that such a district be created.

Where more than one petition is filed covering parts of the same territory the state soil conservation board may consolidate all or any petitions.

History.—§5, ch. 18144, 1937; §3, ch. 19473, 1939; CGL 1940 Supp. 4151(476).

582.11 Hearing upon question of creation; notice, etc.—Within thirty days after such a petition has been filed with the state soil conservation board, it shall cause due notice to be given of a proposed hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of such district, upon the question of the appropriate boundaries to be assigned to such district, upon the propriety of the petition and other proceedings taken under this chapter, and upon all questions relevant to such inquiries. All owners and occupiers of land within the limits of the territory described in the petition, and of lands within any territory considered for addition to such described territory, and all other interested parties, shall have the right to attend such hearings and to be heard. If it shall appear upon the hearing that it may be desirable to include within the proposed district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of further hearing shall be given throughout the entire area considered for inclusion in the district and such further hearing held. After such hearing, if the board shall determine, upon the facts presented at such hearing and upon such other relevant facts and information as may be available, that there is need, in the interest of the public health, safety, and welfare, for a soil conservation district to function in the territory considered at the hearing, it shall make and record such determination, and shall define, by metes and bounds or by legal subdivisions, the boundaries of such district. In making such determination and in defining such boundaries, the board shall give due weight and consideration to the topography of the area considered and of the state, the composition of soils therein, the distribution of erosion, the prevailing land-use practices, the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits such lands may receive from being included within such boundaries, the relation of the proposed area to existing watersheds and agricultural regions, and to other soil conservation districts already organized or proposed for organization

under the provisions of this chapter, and such other physical, geographical, and economic factors as are relevant, having due regard to the legislative determinations set forth in this chapter. The territory to be included within such boundaries need not be contiguous. If the board shall determine after such hearing, after due consideration of the said relevant facts, that there is no need for a soil conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition. After six months shall have expired from the date of the denial of any such petition, subsequent petitions covering the same or substantially the same territory may be filed as aforesaid and new hearings held and determinations made thereon.

History.—§5, ch. 18144, 1937; §3, ch. 19473, 1939; CGL 1940 Supp. 4151(476).

582.12 Referendum for creation, etc.—After the board has made and recorded a determination that there is need, in the interest of the public health, safety, and welfare, for the organization of a district in a particular territory and has defined the boundaries thereof, it shall consider the question whether the operation of a district within such boundaries with the powers conferred upon soil conservation districts in this chapter is administratively practicable and feasible. To assist the board in the determination of such administrative practicability and feasibility, the board, within a reasonable time after entry of the finding that there is need for the organization of the proposed district and the determination of the boundaries thereof, shall hold a referendum within the proposed district upon the proposition of the creation of the district, and cause due notice of such referendum to be given. The question shall be submitted by ballots upon which the words "For creation of a soil conservation district of the lands below described and lying in the county (ies) of _____, _____ (and _____)"

and "Against creation of a soil conservation district of the lands below described and lying in the county (ies) of _____ and _____" shall appear with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose creation of such district. The ballot shall set forth the boundaries of such proposed district as determined by the board. All owners of lands lying within the boundaries of the territory, as determined by the state soil conservation board, shall be eligible to vote in such referendum. Only such land owners shall be eligible to vote.

History.—§5, ch. 18144, 1937; §3, ch. 19473, 1939; CGL 1940 Supp. 4151(476).

582.13 Expenses of referendum.—The board shall pay all expenses for the issuance of such notices and the conduct of such hearings and referenda, and shall supervise the conduct of such hearings and referenda. It shall issue

appropriate regulations governing the conduct of such hearings and referenda, and providing for the registration prior to the date of the referendum of all eligible voters, or prescribing some other appropriate procedure for the determination of those eligible as voters in such referendum. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as provided in §582.12, and said referendum shall have been fairly conducted.

History.—§5, ch. 18144, 1937; §3, ch. 19473, 1939; CGL 1940 Supp. 4151(476).

582.14 Results of referendum; publication, etc.—The board shall publish the result of such referendum and shall thereafter consider and determine whether the operation of the district within the defined boundaries is administratively practicable and feasible. If the board shall determine that the operation of such district is not administratively practicable and feasible, it shall record such determination and deny the petition. If the board shall determine that the operation of such district is administratively practicable and feasible, it shall record such determination and shall proceed with the organization of the district in the manner hereinafter provided. In making such determination the board shall give due regard and weight to the attitude of the owners and occupiers of lands lying within the defined boundaries, the number of land owners eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the creation of the district to the total number of votes cast, the approximate wealth and income of the land owners and occupiers of the proposed district, the probable expense of carrying on erosion-control operations within such district, and such other economic and social factors as may be relevant to such determination having due regard to the legislative determinations set forth in this chapter; provided, however, that the board shall not determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of creation of the district shall have been cast in favor of the creation of such district.

History.—§5, ch. 18144, 1937; §3, ch. 19473, 1939; CGL 1940 Supp. 4151(476).

582.15 Organization of district, etc.—

(1) If the board shall determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible, any five of the petitioners who signed the petition for the creation of the proposed district may present to the secretary of state an application signed by them which shall set forth (and such application need contain no details other than the mere recitals) (a) that a petition for the creation of the district was filed with the state soil

conservation board pursuant to the provisions of this chapter, and that the proceedings specified in this chapter were taken pursuant to such petition; that the application is being filed in order to complete the organization of the district under this chapter; (b) the name which is proposed for the district; and (c) the location selected by the board to be the principal office of the supervisors of the district. The application shall be accompanied by a statement by the state soil conservation board, which shall certify (and such statement need contain no detail other than the mere recitals) that a petition was filed, notice issued, and hearing held as aforesaid; that the board did duly determine that there is need, in the interest of the public health, safety, and welfare, for a soil conservation district to function in the proposed territory and did define the boundaries thereof, that notice was given and a referendum held on the question of the creation of such district, and that the result of such referendum showed a majority of the votes cast in such referendum to be in favor of the creation of the district; that thereafter the board did duly determine that the operation of the proposed district is administratively practicable and feasible. The said statement shall set forth the boundaries of the district as they have been defined by the board.

(2) The secretary of state shall examine the application and statement and, if he finds that the name proposed for the district is not identical with that of any other soil conservation district of this state or so nearly similar as to lead to confusion or uncertainty, he shall receive and file them and shall record them in an appropriate book of record in his office. If the secretary of state shall find that the name proposed for the district is identical with that of any other soil conservation district of this state, or so nearly similar as to lead to confusion and uncertainty, he shall certify such fact to the state soil conservation board and to the five petitioners and the petitioners shall thereupon submit to the secretary of state a new name for the said district not subject to such defects. Upon receipt of such new name, free of such defects, the secretary of state shall record the application and statement, with the name so modified, in an appropriate book of record in his office. The secretary of state shall make and issue a certificate under the seal of the state, of the due organization of the said district, and shall record such certificate with the application and statement. The boundaries of such district shall include the territory as determined by the state soil conservation board.

(3) After six months shall have expired from the date of entry of a determination by the state soil conservation board that operation of a proposed district is not administratively practicable and feasible, and denial of a petition pursuant to such determination, subsequent petitions may be filed as aforesaid, and action

taken thereon in accordance with the provisions of this chapter.

582.16 Addition of territory to district or removal of territory therefrom.—Petitions for including additional territory or removing territory within an existing district may be filed with the state soil conservation board, and the proceedings provided for in this chapter in the case of petitions to organize a district shall be observed in the case of petitions for such inclusion or removal. The board shall prescribe the form for such petition, which shall be as nearly as may be in the form prescribed in this chapter for petitions to organize a district. If the petition is signed by a majority of the land owners of such area, no referendum need be held. In referenda upon petitions for such inclusions or removals, all owners of land lying within the proposed area to be added or removed shall be eligible to vote.

582.17 Presumption as to establishment.—In any suit, action or proceeding involving the validity or enforcement of, or relating to, any contract, proceeding, or action of the district, the district shall be deemed to have been established in accordance with the provisions of this chapter upon proof of the issuance of the aforesaid certificate by the secretary of state. A copy of such certificate duly certified by the secretary of state shall be admissible in evidence in any such suit, action, or proceeding and shall be proof of the filing and contents thereof.

582.18 Election of supervisors for each district.—

(1) Regular elections shall be held every two years beginning in 1953 for the purpose of electing supervisors for each district. The state board shall determine the date of such elections, shall pay all expenses of such elections, shall supervise the conduct thereof, shall give due notice of such elections, shall determine the eligibility of voters therein and shall publish the results thereof. Candidates for supervisor in each district shall be nominated by nominating petitions subscribed by twenty-five or more qualified electors of such district and filed with the state board at least thirty days prior to the date set by the state board for the regular election. The names of all nominees on behalf of whom such nominating petitions have been filed shall appear, arranged in the alphabetical order of the surnames, upon ballots, with a square before each name and a direction of insert an X mark in the square before the names to indicate the voter's preference according to the number of supervisors to be elected. All qualified electors residing within the district shall be eligible to vote in such election. The candidates who

shall receive the largest number, respectively, of the votes cast in such election shall be the elected supervisors for such district. In the case of newly organized districts participating in a regular election for the first time the three candidates receiving the highest number of votes, respectively, shall be elected for terms of four years each, the two candidates receiving the next highest number of votes shall be elected for initial terms of two years.

(2) Following the issuance by the secretary of state of a certificate of organization of a soil conservation district, or in the event of a vacancy resulting from death, resignation, removal or otherwise, nominating petitions for a special election may be filed with the state soil conservation board to nominate candidates for supervisors of such districts, providing, if within six months from the date of the filing of such nominating petitions a regular election is to be held then the state board shall not call a special election, otherwise it shall call a special election. The regulations governing the regular election shall apply to the special election insofar as may be applicable.

582.19 Qualifications and tenure of supervisors.—The governing body of the district shall consist of five supervisors, elected as provided hereinabove.

The supervisors shall designate a chairman and may, from time to time, change such designation by majority vote. The term of office of each supervisor shall be four years, except that two supervisors shall be elected to serve for initial terms of two years, respectively, from the date of their election as provided in this chapter. A supervisor shall hold office until his successor has been elected and qualified. The selection of successors to fill an unexpired term, or for a full term, shall be by election by the qualified electors of the district. A majority of the supervisors shall constitute a quorum and the concurrence of a majority of the supervisors in any matter within their duties shall be required for its determination. A supervisor shall receive no compensation for his services, but he shall, with approval of the supervisors of the district, be reimbursed for traveling expenses as provided in §112.061.

The supervisors may utilize the services of the county agricultural agents and the facilities of the county agricultural agents' offices insofar as practicable and feasible and may employ such additional employees and agents, permanent and temporary, as they may require, and determine their qualifications, duties and compensation. The supervisors may delegate to their chairman, to one or more supervisors, or to one or more agents, or employees such powers and duties as they may deem proper. The supervisors shall furnish to the state soil conservation board, upon request, copies of such rules, regulations, orders, contracts, forms and other documents as they shall adopt or employ,

and such other information concerning their activities as it may require in the performance of its duties under this chapter.

The supervisors shall provide for the execution of surety bonds for all employees and officers who shall be entrusted with funds or property; shall provide for the keeping of a full and accurate record of all proceedings and of all resolutions, regulations, and others issued or adopted; and shall provide for an annual audit of the accounts of receipts and disbursements. Any supervisors may be removed by the governor of this state upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason.

The supervisors may invite the legislative body of any municipality or county located within or near the territory comprised within the district to designate a representative to advise and consult with the supervisors of the district on all questions of program and policy which may affect the property, water supply, or other interest of such municipality or county.

582.20 Powers of districts and supervisors.—A soil conservation district organized under the provisions of this chapter shall constitute a governmental subdivision of this state, and a public body corporate and politic, exercising public powers, and such district and the supervisors thereof, shall have the following powers, in addition to others granted in other sections of this chapter:

(1) To conduct surveys, investigations, and research relating to the character of soil erosion and the preventive and control measures needed, to publish the results of such surveys, investigations, or research, and to disseminate information concerning such preventive and control measures; provided, however, that in order to avoid duplication of research activities, no district shall initiate any research program except in cooperation with the government of this state or any of its agencies, or with the United States or any of its agencies;

(2) To conduct demonstrational projects within the district on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the

consent of the owner and occupiers of such lands or the necessary rights or interests in such lands, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled;

(3) To carry out preventive and control measures within the district including, but not limited to, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in §582.04 on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the consent of the owner and the occupiers of such lands or the necessary rights or interests in such lands;

(4) To cooperate, or enter into agreements with, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to, any agency, governmental or otherwise, or any owner or occupier of lands within the district, in the carrying on of erosion control or prevention operations within the district, subject to such conditions as the supervisors may deem necessary to advance the purposes of this chapter;

(5) To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests therein; to maintain, administer, and improve any properties acquired, to receive income from such properties and to expend such income in carrying out the purposes and provisions of this chapter; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and the provisions of this chapter;

(6) To make available, on such terms as it shall prescribe, to landowners and occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, seeds and seedlings, and such other material or equipment, as will assist such landowners and occupiers to carry on operations upon their lands for the conservation of soil resources and for the prevention or control of soil erosion;

(7) To construct, improve, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter;

(8) To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion within the district, which plans shall specify in such detail as may be possible, the acts, procedures, performances, and avoidances which are necessary or desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to publish such plans and information and bring

them to the attention of owners and occupiers of lands within the district;

(12) No provisions with respect to the acquisition, operation, or disposition of property by public bodies of this state shall be applicable to a district organized hereunder unless the legislature shall specifically so state. The property and property rights of every kind and nature acquired by any district organized under the provisions of this chapter shall be exempt from state, county, and other taxation.

History.—§8, ch. 18144, 1937; CGL 1940 Supp. 4151(479); am. §7, ch. 22858, 1945.

582.21 Adoption of land-use regulations.—The supervisors of any district shall have authority to formulate regulations governing the use of lands within the district in the interest of conserving soil and soil resources, and preventing and controlling soil erosion. The supervisors may conduct such public meetings and public hearings upon tentative regulations as may be necessary to assist them in this work. The supervisors shall not have authori-

ty to adopt such land-use regulations until after they shall have caused due notice to be given of their intention to conduct a referendum for submission of such regulations to the owners of lands lying within the boundaries of the district, for their indication of approval or disapproval of such proposed regulations, and until after the supervisors have considered the result of such referendum. Copies of such proposed regulations shall be available for the inspection of all eligible voters during the period between publication of such notice and the date of the referendum. The notices of the referendum shall recite the contents of such proposed regulations, or shall state where copies of such proposed regulations may be examined. The question shall be submitted by ballots, upon which the words "For approval of proposed land-use regulations for the conservation of soil and prevention of erosion" and "Against approval of proposed land-use regulations for conservation of soil and prevention of erosion" shall appear, with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose approval of such proposed regulations. The supervisors shall supervise such referendum, shall prescribe appropriate regulations governing the conduct thereof, and shall publish the result thereof. All owners of lands within the district shall be eligible to vote in such referendum. Only such land owners shall be eligible to vote. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

The supervisors shall not adopt such proposed regulations unless at least a majority of the votes cast in such referendum shall have been cast for approval of the said proposed regulations. The approval of the proposed regulations by a majority of the votes cast in such referendum shall not be deemed to require the supervisors to adopt such proposed regulations. Land-use regulations adopted pursuant to the provisions of this section by the supervisors of any district shall be binding and obligatory upon all owners and occupiers of land within such districts.

Any owner of land within such district may at any time file a petition with the supervisors asking that any or all of the land-use regulations adopted by the supervisors under the provisions of this section shall be amended, supplemented, or repealed. Land-use regulations adopted pursuant to the provisions of this section shall not be amended, supplemented, or repealed except in accordance with the procedure prescribed in this section for adoption of land-use regulations. Referenda of adoption, amendment, supplementation, or repeal of land-use regulations shall not be held more often than once in six months.

History.—§9, ch. 18144, 1937; CGL 1940 Supp. 4151(480).

582.22 Regulations; contents.—The regulations to be adopted by the supervisors under the provisions of this chapter may include:

(1) Provisions requiring the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches, and other necessary structures;

(2) Provisions requiring observance of particular methods of cultivation including contour cultivating, contour furrowing, lister furrowing, sowing, planting, strip cropping, changes in cropping systems, seeding, and planting of lands to water-conserving and erosion-preventing plants, trees and grasses, for-estation, and reforestation;

(3) Specifications of cropping programs and tillage practices to be observed;

(4) Provisions requiring the retirement from cultivation of highly erosive areas or of areas on which erosion may not be adequately controlled if cultivation is carried on;

(5) Provisions for such other means, measures, operations and programs as may assist conservation of soil resources and prevent or control soil erosion in the district, having due regard to the legislative findings set forth in this chapter.

The regulations shall be uniform throughout the territory comprised within the district except that the supervisors may classify the lands within the district with reference to such factors as soil type, degree of slope, degree of erosion threatened or existing, cropping and tillage practices in use, and other relevant factors, and may provide regulations varying with the type or class of land affected, but uniform as to all lands within each class or type. Copies of land-use regulations adopted under the provisions of this chapter shall be printed and made available to all owners and occupiers of lands lying within the district.

History.—§9, ch. 18144, 1937; CGL 1940 Supp. 4151(480).

582.23 Performance of work under the regulations by the supervisors.—The supervisors may go upon any lands within the district to determine whether land-use regulations adopted are being observed. Where the supervisors of any district shall find that any of the provisions of land-use regulations adopted are not being observed on particular lands, and that such non-observance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district, the supervisors may present to the circuit court for the county or counties within which the lands of the defendant may lie, a petition, duly verified, setting forth the adoption of the land-use regulations, the failure of the defendant land owner or occupier to observe such regulations, and to perform particular work, operations, or avoidances as required thereby, and that such non-observance tends to increase erosion on such lands and is interfering with the prevention or control of erosion on other lands within the district, and praying the court to require the defendant to

perform the work, operations, or avoidances within a reasonable time and to order that if the defendant shall fail so to perform the supervisors may go on the land, perform the work or other operations or otherwise bring the condition of such lands into conformity with the requirements of such regulations, and recover the costs and expenses thereof, with interest, from the owner of such land. Upon the presentation of such petition the court shall cause process to be issued against the defendant, and shall hear the case. If it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence, or appoint a referee to take such evidence as it may direct and report the same to the court within his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made.

The court may dismiss the petition; or it may require the defendant to perform the work, operations, or avoidances, and may provide that upon the failure of the defendant to initiate such performance within the time specified in the order of the court, and to prosecute the same to completion with reasonable diligence, the supervisors may enter upon the lands involved and perform the work or operations, or otherwise bring the conditions of such lands into conformity with the requirements of the regulations and recover the costs and expenses thereof, with interest at the rate of five per cent per annum, from the owner of such lands.

The court shall retain the jurisdiction of the case until after the work has been completed. Upon completion of such work pursuant to such order of the court the supervisors may file a petition with the court, a copy of which shall be served upon the defendant in the case, stating the costs and expenses sustained by them in the performance of the work and praying judgment therefor with interest. The court shall have jurisdiction to enter judgment for the amount of such costs and expenses, with interest at the rate of five per cent per annum until paid, together with the costs of suit, including a reasonable attorney's fee to be fixed by the court.

History.—§10, ch. 18144, 1937; CGL 1940 Supp. 4151(481).

582.24 Board of adjustment.—Where the supervisors of any district organized under the provisions of this chapter shall adopt an ordinance prescribing land-use regulations, said supervisors shall constitute, and be ex-officio members of, a board of adjustment to hear and consider petitions which may be submitted to such board by any land owner in the district praying for relief from any of the provisions of the said land-use regulations.

History.—§11, ch. 18144, 1937; §6, ch. 19473, 1939; CGL 1940 Supp. 4151(482).

582.25 Rules of procedure of board.—The board of adjustment shall adopt rules to govern its procedures, which rules shall be in accordance with the provisions of this chapter

and with the provisions of any ordinance adopted pursuant to this chapter. The board shall designate a chairman from among its members, and may, from time to time, change such designation. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Any three members of the board shall constitute a quorum. The chairman, or in his absence such other member of the board as he may designate to serve as acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep a full and accurate record of all proceedings and of all documents filed in its office, which shall be a public record.

582.26 Petition to board to vary from regulations.—Any land owner or occupier may file a petition with the board of adjustment alleging that there are great practical difficulties or unnecessary hardship in the way of his carrying out upon his lands the strict letter of the land-use regulations prescribed by ordinance approved by the supervisors, and praying the board to authorize a variance from the terms of the land-use regulations in the application of such regulations to the lands occupied by the petitioner. Copies of such petition shall be filed by the petitioner with the chairman of the state soil conservation board. The board of adjustment shall fix a time for the hearing of the petition and cause due notice of such hearing to be given. The state soil conservation board shall have the right to appear and be heard at such hearing. Any owner or occupier of lands lying within the district who shall object to the authorizing of the variance prayed for may intervene and become a party to the proceedings. Any party to the hearing before the board may appear in person, by agent, or by attorney. If, upon the facts presented at such hearing, the board shall determine that there are great practical difficulties or unnecessary hardship in the way of applying the strict letter of any of the land-use regulations upon the lands of the petitioner, it shall make and record such determination and shall make and record findings of fact as to the specific conditions which establish such great practical difficulties and unnecessary hardships. Upon the basis of such findings and determination, the board shall have power by order to authorize such variance from the terms of the land-use regulations, in their application to the lands of the petitioner, as will relieve such great practical difficulties or unnecessary hardship and will not be contrary to the public interest, and such that the spirit of the land-use regulations shall be observed, the public health, safety, and welfare secured, and substantial justice done.

History.—§11, ch. 18144, 1937; §6, ch. 19473, 1939; CGL 1940 Supp. 4151(482).

582.27 Review of order by circuit court.—Any petitioner aggrieved by an order of the board granting or denying, in the whole or in part, the relief sought, or any intervening party, may obtain a review of such order in the circuit court for the county or counties within which the lands of the petitioner may be, by filing in such court a petition praying that the order of the board be modified or set aside. A copy of such petition shall forthwith be served upon the parties to the hearing before the board and thereupon the party seeking review shall file in the court a transcript of the entire record in the proceedings, certified by the board, including the documents and testimony upon which the order complained of was entered, and the findings, determination, and order of the board. Upon such filing, the court shall cause notice thereof to be served upon the parties and shall have jurisdiction of the proceedings and of the questions determined or to be determined therein, and shall have power to grant such temporary relief as it deems just and proper, and to make and enter a decree enforcing, modifying, and enforcing as so modified, or setting aside, in whole or in part, the order of the board. No contention that has not been urged before the board shall be considered by the court unless the failure or neglect to urge such contention shall be excused because of extraordinary circumstances. The findings of the board as to the facts, if supported by evidence, shall be conclusive. If any party shall apply to the court for leave to produce additional evidence and shall show to the satisfaction of the court that such evidence is material and that there were reasonable grounds for the failure to produce such evidence in the hearing before the board, the court may order such additional evidence to be taken before the board and to be made a part of the transcript. The board may modify its findings as to the facts or make new findings, taking into consideration the additional evidence so taken and filed, and it shall file such modified or new findings, which, if supported by evidence, shall be conclusive, and shall file with the court its recommendations, if any, for the modification or setting aside of its original order. The jurisdiction of the court shall be exclusive and its judgment and decree shall be final, except that the same shall be subject to review in the same manner as are other judgments or decrees of the court.

History.—§11, ch. 18144, 1937; §6, ch. 19473, 1939; CGL 1940 Supp. 4151(482).

other governmental subdivision of the state, which shall have jurisdiction over, or be charged with the administration of, any county-owned or other publicly owned lands, lying within the boundaries of any district organized under this chapter, shall cooperate to the fullest extent with the supervisors of such districts in the effectuation of programs and operations undertaken by the supervisors under the provisions of this chapter. The supervisors of such districts shall be given free access to enter and perform work upon such publicly owned lands. The provisions of land-use regulations adopted shall be in all respects observed by the agencies administering such publicly owned lands.

582.30 Discontinuance of districts; referendum.—Any time after five years from the organization of a district under the provisions of this chapter, any twenty-five owners of land lying within the boundaries of such district may file a petition with the state soil conservation board praying that the operations of the district be terminated and the existence of the district discontinued. The board may conduct such public meetings and public hearings upon petition as may be necessary to assist it in the consideration thereof. Within sixty days after such a petition has been received by the board it shall give due notice of the holding of a referendum, and shall supervise such referendum, and issue appropriate regulations governing the conduct thereof, the question to be submitted by ballots upon which the words "For terminating the existence of the

(Name of the soil conservation district to be here inserted)" and "Against terminating the existence of the

(Name of the soil conservation district to be here inserted)" shall appear with a square before each proposition and a direction to insert an X mark in the square before one or the other of said propositions as the voter may favor or oppose discontinuance of such district. All owners of lands lying within the boundaries of the district shall be eligible to vote in such referendum. Only such land owners shall be eligible to vote. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

If two-thirds or more of the qualified voters in such referendum shall have voted for the discontinuance of the district, the board shall certify to the supervisors of the district the result of such referendum and that the continued operation of the district is not administratively practicable and feasible.

History.—§14, ch. 18144, 1937; §7, ch. 19473, 1939; CGL 1940 Supp. 4151(485).

582.31 Certification of results of referendum; dissolution.—Upon receipt from the state

soil conservation board of a certification that the board has determined that the continued operation of the district is not administratively practicable and feasible, pursuant to the provisions of this chapter, the supervisors shall forthwith proceed to terminate the affairs of the district. The supervisors shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of such sale to be converted into the state treasury, which amount shall be placed to the credit of the state soil conservation board for the purpose of liquidating any legal obligations said district may have at the time of its discontinuance. The supervisors shall thereupon file an application, duly verified, with the secretary of state for the discontinuance of such district, and shall transmit with such application the certificate of the state soil conservation board setting forth the determination of the board that the continued operation of such district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as in this section provided, and shall set forth a full accounting of such properties and proceeds of the sale. The secretary of state shall issue to the supervisors a certificate of dissolution and shall record such certificate in an appropriate book of record in his office.

582.32 Continuance of existing contracts, etc.—Upon issuance of a certificate of dissolution all land-use regulations theretofore adopted and in force within such districts shall be of no further force and effect. All contracts theretofore entered into, to which the district or supervisors are parties, shall remain in force and effect for the period provided in such contracts. The state soil conservation board shall be substituted for the district or supervisors as party to such contracts. The board shall be entitled to all benefits and subject to all liabilities under such contracts and shall have the same right and liability to perform, to require performance, and to modify or terminate such contracts by mutual consent or otherwise, as the supervisors of the district would have had. Such dissolution shall not affect the lien of any judgment entered under the provisions of this chapter, nor the pendency of any action instituted under the provisions of this chapter, and the board shall succeed to all the rights and obligations of the district or supervisors as to such liens and actions.

The state soil conservation board shall not be required to entertain petitions for the discontinuance of any district nor conduct referenda upon such petitions nor make determinations pursuant to such petitions in accordance with the provisions of this chapter, more often than once in five years.

The division is hereby authorized and empowered to construct or erect buffer or quarantine fences when deemed advisable by the department.

(2) The commissioner, or the technical committee under its emergency powers, shall fix the date when systematic dipping of cattle or other domestic animals, which shall include horses and mules, in the quarantined area or any portion thereof, shall begin, and the said regulation shall contain a schedule showing each dipping vat by name or number and the date on which the first systematic dipping of domestic animals or cattle, which shall include horses and mules, is to be held at each such vat, and the date of each subsequent dipping. Notice of adoption of such regulation and schedule shall be given by publishing said notice in some newspaper published in or near said area, once each week for two successive weeks (two publications being sufficient), and by posting a copy of said notice eight days before dipping shall begin, at the courthouse door in the county or as near as may be convenient to each and every dipping vat to be used. Each owner of domestic animals or cattle, which shall include horses and mules, then or thereafter being within said area, shall dip such domestic animals or cattle, which shall include horses and mules, at the dipping vat described in the regulation and schedule as shall be most convenient upon the dates specified for dipping, respectively, and to dip all such domestic animals or cattle, which shall include horses and mules, every fourteen days from and after the date of the first dipping, unless otherwise permitted by division director, until such time as the department shall discontinue dipping in such area or be relieved of such dipping by permission of the division director.

585.26 Same; pasture rotation method.—The department may employ the pasture rotation method of tick eradication in conjunction with fever tick eradication in this state. Whenever the department shall adopt the said pasture rotation method and shall require the removal,

from the area in which systematic tick eradication work is being carried on, of cattle of any owner, custodian or person in charge of such cattle, the said department shall furnish the necessary assistants required to remove such cattle; or in lieu thereof may, at its election, pay to such owner the actual, necessary or reasonable expense incurred by him in complying with the requirements of the department in removing such cattle from such area as hereinbefore provided.

585.28 Same; arbitration of costs, etc.—In the event the owner fails or refuses to dip his cattle or other domestic animals, which shall include horses and mules, or to have them inspected, the division may collect, drive, dip, and inspect such cattle or other domestic animals, which shall include horses and mules, and one-half of the expenses so incurred by the department shall become a charge against the owner and if not paid within thirty days, the department shall have a lien upon said cattle or other domestic animals, which shall include horses and mules, to secure said charge against the owner.

History.—§11, ch. 9201, 1923; CGL 3327; §7, ch. 22858, 1945; §13, ch. 23775, 1947; §20, ch. 59-457.

585.30 Same; procedure where owner fails or refuses to dip.—

(1) Any cattle, within any tick eradication area, which are not dipped in accordance with the rules and regulations of the commissioner or the technical committee under its emergency powers and under the department's supervision, shall be taken into custody, dipped and retained in its custody, at some place to be selected by the director, until redeemed or sold as hereinafter provided.

(2) The division and its agents and employees may enter into any range, premises, pen, pasture, barn or inclosure or place where cattle may be found and take into custody, remove, dip and pen any cattle which have not been dipped in accordance with the requirements of this chapter, and the rules and regulations of the department, and all expenses so incurred by the department, including expenses for penning, feeding and dipping, shall be a lien upon said cattle. If said expenses be not forthwith paid and the cattle redeemed by the owner, the division shall notify the sheriff of the county wherein said cattle are held, by written notice thereof, stating the time and place said cattle were taken into custody, the number thereof and any marks and brands thereon, and the name of the owner if known.

(3) Upon receipt of the notice aforesaid the said sheriff shall forthwith give public notice, to whom it may concern and to the owner if known, that on a day and hour to be specified in said notice, which shall not be less than ten days nor more than twenty days from and after the first publication of said notice as hereinafter provided, he will offer for public sale

and sell for cash to the highest bidder, the cattle described in said notice. Said notice shall also state the time and place such cattle were taken into custody, the number thereof and any marks and brands thereon. Said sale shall be held at the place where said cattle are situated or penned. Said public notice shall be given by publishing the same in some newspaper published in the county wherein said cattle are penned, if there be such newspaper, for two publications, the first of which shall be not less than ten days prior to the date of sale, and by publishing a copy of said notice, at least ten days prior to sale, at the courthouse door and at two dipping vats near where the cattle were taken into custody. A copy of said notice shall also be served upon the owner or one of them if more than one, or their agent, in the manner provided by law for service of summons, at least ten days before sale, if such owner or his agent, together with his address, be known to the sheriff and he resides or can be found within the state.

(4) If such cattle shall not be redeemed before the sale thereof by payment of all costs and expenses incurred by the department in taking into custody, feeding, penning and dipping of such cattle, and all sheriff's costs, then such sheriff shall offer for sale and shall sell and deliver to the highest bidder for cash all such cattle and shall deduct from the proceeds thereof all sheriff's costs, and shall pay to the department all costs and expenses incurred in taking into custody, penning, feeding and dipping such cattle, and forthwith pay into the fine and forfeiture fund of such county the balance of such proceeds; and such sale and delivery shall vest in the purchaser an absolute title and right of possession of such cattle, superior to all other title, liens and claims, except any lien for unpaid taxes on such cattle.

(5) If the former owner shall, within twelve months from and after the date of such sale, file with and establish to the satisfaction of the county commissioners of such county his claim to the net proceeds arising from said sale, the county commissioners shall deliver to such claimant the amount of such net balance.

(6) The term "sheriff's costs," as used in this section, shall be taken and held to mean such costs as sheriffs are allowed by law for similar services, and the term "expenses of keeping and feeding" shall be taken and held to mean the actual, reasonable and necessary expenses for such keeping and feeding incurred, to be shown by a sworn, itemized statement thereof filed with the clerk of the circuit court.

585.32 Purchase and distribution of hog cholera antiserum, virus, vaccine or other immunization agent.—

(1) The department is hereby authorized and required to purchase hog cholera antiserum, virus, vaccine or other immunization agent in such units as deemed advisable by the commissioner, at the lowest and best bid or bids, from

one or more reliable manufacturers or suppliers producing or handling a high quality product.

(2) Except as provided in subsection (4), the department shall distribute through employees of the division, licensed veterinarians and recognized and approved agents of the state and federal governments, hog cholera antiserum, virus, vaccine or other immunization agent without cost thereof to any farmer who is an owner of swine in Florida, making application therefor on forms to be furnished by the department and approved by the administrator of said serum, virus, vaccine or other immunization agent.

(3) Whenever said serum, virus, vaccine and other immunization agents are distributed without cost as provided in subsection (2), the administrator thereof shall identify each and every hog to which said serum, virus, vaccine or other immunization agents are so administered, by means of a permanent identification without cost to the owner. The department shall designate a permanent identification to be used in all cases for this purpose.

(4) The department shall designate persons to whom it will sell serum, virus, vaccine or other immunization agent at cost, which persons so purchasing said serum, virus, vaccine or other immunization agent at cost are to sell the same to owners of swine in Florida who are unwilling to submit said swine to identification as provided in subsection (3), at a price not to exceed cost plus ten per cent; provided, however, that persons designated hereunder shall not include employees of the department or agents of the state in their capacities as such employees or agents.

(5) All moneys accruing from the sale of hog cholera antiserum, virus, vaccine or other immunization agent as provided in this section, shall be deposited in the state treasury to the credit of the current appropriation made for such purpose, which amounts are hereby appropriated to be used for the further purchase and distribution of hog cholera antiserum, virus, vaccine or other immunization agent, as provided in this section.

(6) For the purchase and distribution of the hog cholera antiserum, virus, vaccine or other immunization agent foregoing, there shall be used funds appropriated therefor by the legislature at the same session of the legislature at which this law is enacted and at all succeeding sessions of the legislature.

(7) The department is hereby authorized to promulgate and enforce all rules and regulations necessary for the administration of this section.

585.321 Distribution of hog cholera antiserum, virus, vaccine or other immunization agent to farmers.—

(1) Except as otherwise provided by law, the department shall distribute through employees of the division, licensed veterinarians, recognized and approved agents of the state and federal governments, and within the boundaries of any county not adequately provided with the foregoing distributors, one or more persons selected by the board of county commissioners of such county and certified to the department, hog cholera antiserum, virus, vaccine or other immunization agent without cost thereof to any farmer who is an owner of swine in Florida making application therefor upon blanks to be furnished by the department and approved by the administrator of said serum, virus, vaccine or other immunization agent.

(2) Before any person, selected by a board of county commissioners as provided in subsection (1), shall distribute hog cholera antiserum, virus, vaccine or other immunization agent, such person shall be required to give a good and sufficient bond in the penal sum of one thousand dollars with some surety company authorized to do business in the state, as surety, payable to the department, and conditioned upon the due and faithful performance of his duties as distributor of hog cholera antiserum, virus, vaccine or other immunization agent, said bond to be approved by the clerk of the court in said county in which application is made.

History.—§§1, 2, ch. 22592, 1945; (1) by §3, ch. 57-140; §23, ch. 59-457; §7, ch. 61-408.

585.34 Inspection and transportation of meats in Florida.—

(1) Any person engaged in the slaughter of meat-producing animals within the state may make application to the department for a permit to transport and sell his products at any place within the limits of the state.

(2) The department, on receipt of such application described above, shall cause to be made a thorough investigation of the sanitary conditions existing in such establishment, the efficiency of the inspection provided and the manner in which the food products of such establishment are slaughtered and prepared. If such establishment is found to be operating in accordance with the regulations of the department, a numbered permit shall be issued to the person making application for same.

(3) Municipal corporations may establish and maintain the inspection of slaughter houses, abattoirs, meat-packing plants, meat and meat food products, at establishments located within their corporate limits, and elsewhere within the counties in which such municipal corporations are located and within all other counties immediately adjoining the counties in which said municipalities are located respectively, for the purpose of ascertaining whether or not meats and meat food products intended for distribution in said municipali-

ties are fit for human consumption. No person shall be employed as such inspector unless qualified by education and experience and is a permanent resident of the state.

(4) The officials of all municipalities maintaining such inspections may, in such municipalities and counties, fix and collect fees for such inspection of such establishments and any and all meat animals and meat food products so inspected, which may be necessary to the maintenance of such inspection service, but no further inspection charge shall be made within the state.

(5) No permit shall be issued to any establishment except where the meat inspection is conducted under the supervision of the department or its duly designated representatives.

(6) The numbered permit shall be the establishment's official state number, and such number may be used to identify all passed meats and meat food products prepared in such establishment. Such permit may be revoked by the department at any time when the establishment issued such permit violates any of the regulations prescribed for efficient inspection and sanitation.

(7) All meat carcasses inspected and passed shall be branded with a rubber stamp bearing the number of the establishment and the words "Florida inspected and passed."

(8) The department may make and adopt all necessary rules and regulations for the efficient inspection, preparation and handling of meats and meat food products in such establishments, and for the disposal of all condemned meats, and such rules and regulations shall govern the inspection of all meats and meat food products at establishments operating under this section.

(9) There shall be required by law only one inspection of meat or meat food products as herein defined, which may be an inspection by the United States department of agriculture or the department; provided, however, that inspection by local municipal authorities as permitted by this law shall be considered as state inspection within this provision.

(10) When any meat or meat food product that has been inspected as provided by this law and marked "inspected and passed," shall be placed or packed in any can, pot, tin, canvas, or other receptacle or covering in any establishment where inspection under the provisions of this law is maintained, the person preparing such meat or meat food product shall cause a label to be attached to said can, pot, tin, canvas or other receptacle or covering under the supervision of an inspector, which label shall state that the contents thereof have been "inspected and passed" under the provisions of this law; and no inspection of meat or meat food products deposited or enclosed in a can, pot, tin, canvas or other receptacle or covering in any establishment where inspection is maintained under the provisions of this law shall be deemed to be complete until such meat or meat food product has been sealed or enclosed

in said can, pot, tin, canvas or other receptacle or covering under supervision of an inspector; and no such meat or meat food product shall be sold by any person in the state under any false or deceptive name; but established trademarks that are usual to such products and which are not false or deceptive, and which shall be approved by the department are permitted. The department shall confiscate and cause to be destroyed all such labels that are found to be false or deceptive.

(11) No establishment may be operated in the state for the purpose of slaughtering animals, or for the manufacture of meat food products unless such establishment is operated under federal inspection, state inspection, or approved municipal inspection. No dressed carcasses of animals intended for food purposes, parts thereof, prepared meats or meat food products shall be sold, offered for sale, exposed for sale or be possessed for sale within the state, unless the same shall bear the "inspected and passed" stamp of an establishment operating under federal inspection, state inspection or approved municipal inspection.

(12) When it is deemed necessary in order to safeguard the public health, the department shall cause to be made an ante-mortem inspection of any animals before they are slaughtered for food purposes. Satisfactory facilities shall be provided for conducting such inspection and for separating from the passed animals those deemed unfit for immediate slaughter. If any owner or person in charge is about to slaughter for food purposes any animal which the department believes may be affected with disease, the department shall notify the owner or person in charge of said animals to refrain from slaughtering them for food purposes until the ante-mortem examination is completed. Any owner or person slaughtering animals for food purposes after such notification by the department shall be guilty of a misdemeanor. No owner or person shall be required to refrain from slaughtering animals for a period longer than seventy-two hours.

(13) The department may provide post-mortem inspection of all animals slaughtered for food purposes in any establishment in the state. The head, tongue, tail, thymus glands, viscera, and other parts and blood used in the preparation of meat, food, meat food products, or medicinal products shall be retained in such manner as to preserve their identity until after the post-mortem examination has been completed. Carcasses and parts thereof found to be sound, healthful and wholesome after inspection and otherwise fit for human food shall be passed and may be marked in the following manner: "Florida inspected and passed," or with the inspection legend of an approved and municipal inspection department, to which has been added the words "Fla. approved." This mark may also include any number given the establishment. Each carcass or part thereof which is found on post-mortem inspection to be unsound, unhealthful, unwholesome, or otherwise unfit

for human food, shall be marked conspicuously by the inspector at the time of inspection with the words, "Fla. inspected and condemned," or with the condemned brand of an approved municipal inspection department and such carcass or parts thereof, under the supervision of the inspector, shall be rendered unfit for human consumption in a manner approved by the department.

(14) Inasmuch as it cannot be determined for certain, by any present known method of inspection, whether meat is unwholesome unless the organs and other tissues of an animal are inspected when slaughtered, and as meat and products thereof from uninspected animals may be unfit for human food, the department shall seize and destroy for human food purposes any meat or meat food product that does not bear the "Inspected and passed" stamp, brand, mark, or label, as provided by this law; provided nothing herein shall affect the transportation of dead and condemned carcasses of animals to rendering plants; nor the transportation of dressed carcasses of calves for inspection to points where inspection is maintained in accordance with the provisions of this article; nor meat or meat products to which a statement is attached in accordance with the provisions of this law.

(15) The dressed carcasses of all animals intended for human consumption, parts thereof, meats, or meat food products, inspected and marked in accordance with this law may be transported or sold anywhere in the state without restriction, except that imposed upon meat or meat food products bearing the inspection stamp of the United States department of agriculture.

(16) It is unlawful for any person, except employees of the United States department of agriculture, the department or a municipal inspection department, to possess, keep or use any mark, stamp, or brand provided or used for marking, stamping or branding the carcass of any animal, parts thereof, meats or meat food products, or to possess, keep or use any mark, stamp or brand having thereon a device or words the same or similar in character, or import to the marks, stamps, or brands provided or used by the United States department of agriculture, the department or of any municipal inspection department for marking, stamping, or branding the carcasses of animals or parts thereof intended for food purposes, meats, or meat food products.

(17) Every establishment in Florida, where animals are slaughtered or where meat or meat food products are prepared or processed for human consumption, shall be maintained and operated in a clean and sanitary manner and inspection conducted in accordance with the provisions of this law and the regulations of the department and in the event that an establishment is not so maintained and operated the department may suspend inspection in any establishment having state inspection or municipal inspection.

(18) Nothing contained in this law shall restrict or prevent a retail meat market as a part of its retail meat business and as a consequence of same or an incident to same, from making or preparing or selling prepared meat or meat food products that are made or prepared on its own premises from meats which bear the inspected and passed stamp of federal inspection, state inspection or approved municipal inspection; provided, that said prepared meat or meat food products are sold on the premises of said retail meat market and are not made or prepared by cooking or drying. No application is required of such retail meat markets, or the owners or operators thereof for the inspection service provided for in this law and no such inspection service is required to enable them to make, prepare or sell such prepared meat or meat food products. Nothing contained in this law shall prohibit a retail meat market from selling or offering for sale meat, prepared meat, meat products, or meat food products which bear the inspected and passed stamp of federal inspection, state inspection or approved municipal inspection.

(19) It is unlawful to sell any cold storage meat that has been imported into the state from without the United States, herein referred to as foreign cold storage meat, without having first obtained a permit from the department and without having submitted all such meat for inspection and examination at port of entry and paid inspection fee required therefor. The department shall cause all such meat to be inspected upon arrival and shall establish such bacteriological or chemical standards as it deems proper to determine the wholesomeness and fitness of such meat for human consumption; any meats found unfit for human consumption shall be marked conspicuously with the words "Fla. inspected and condemned" and the sale thereof for human food is prohibited. All meats inspected and passed for food, as provided in this subsection, shall be marked with a stamp of such size and design as shall be required by the rules and regulations established by the department for the enforcement of this section, and shall bear the words "foreign cold storage meat inspected and passed." Such meat, when displayed for sale, shall bear placard showing that it is foreign cold storage meat, which placard shall also contain the name of the country of origin. Such meats shall at all times be subject to reinspection. The department is hereby authorized to collect reasonable fees for inspection service provided for in this subsection.

(20) The department shall make available a qualified inspector at each slaughter house or meat packing or processing plant in the state at all times when the same is operating, in order that no loss or delay may result to such slaughter house or packing plant by reason of the unavailability of a qualified inspector. Should any such slaughtering, or meat processing or packing be conducted at such slaughter houses or plants at hours considered overtime

for state employees, or on legal holidays, then the owner or operator of the establishment shall, by contract or agreement with the department make arrangements to defray the additional or overtime costs for salaries and expenses for inspectors to conduct the necessary meat inspection during such overtime periods.

(21) Any person, firm or corporation violating any of the provisions of this law, for which violation a specific penalty is not otherwise prescribed herein, shall, upon conviction thereof, be fined not more than \$500, or sentenced to imprisonment in the county jail for not exceeding 6 months, or be both so fined and imprisoned.

(22) The legislature has determined that it is impractical to formulate and promulgate either a law or rules and regulations reasonably applicable to all persons, firms or corporations engaged in producing, slaughtering, processing, transportation, and selling of meat producing animals for human consumption in the state, and therefore the following exceptions to the general provisions contained in subsections (1) through (20) hereof shall be applicable as to the persons, firms or corporations falling within the hereinafter contained classifications, unless a request by such person, firm or corporation is made to the department, for permission to come under the provisions of subsections (1) through (20) supra, insofar as inspections are concerned:

(a) Any person, firm, or corporation slaughtering or processing for sale within the state not more than twenty head of cattle, nor more than thirty-five head of hogs per week, shall not be subject to the inspection under the terms of §585.34, as amended by chapter 26831, acts of 1951, unless such person, firm or corporation shall make a request therefor to the department for such inspection. Such person, firm or corporation so slaughtering or processing not more than twenty head of cattle nor thirty-five head of hogs per week shall be subject to the same inspection as provided by said §585.34, as the same was prior to the amendment by said chapter 26831, acts of 1951.

(b) If any person, firm or corporation slaughtering or processing for sale not more than twenty head of cattle nor more than thirty-five head of hogs per week desire to come within the inspection as provided by §585.34, as amended by chapter 26831, acts of 1951, and so request the same of the department, then said person, firm or corporation shall be subject to the said inspection.

(c) The department may, in its discretion, authorize any person, firm or corporation, permission to slaughter or process for sale more than twenty head of cattle and thirty-five head of hogs per week, however, not to exceed fifty head of hogs or twenty-five head of cattle per week to meet special emergencies or seasonal demands and in such event the same provisions of this law shall apply as applied to those slaughtering and processing not more than the

maximum of thirty-five head of hogs and twenty head of cattle per week.

(d) Any meat carcass that has been farm slaughtered or otherwise slaughtered under exemptions as prescribed herein and properly tagged for identification, may be admitted to any cooler within the state for chilling or freezing, and may be admitted to any freezer locker plant for processing and freezing.

Rules and regulations promulgated and adopted by the technical committee in cases where an emergency is declared to exist shall be effective immediately. These rules and regulations shall continue in effect while the emergency for which the rules and regulations were promulgated and adopted continues to exist, provided, however, that no emergency shall exist for a period in excess of six months, without review by the technical committee and redeclaration by it that such emergency continues to exist.

SOUTHEASTERN INTERSTATE FOREST FIRE PROTECTION COMPACT

ARTICLE I

The purpose of this compact is to promote effective prevention and control of forest fires in the southeastern region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest fire fighting services by the member states, by providing for mutual aid in fighting forest fires among the compacting states of the region and with states which are party to other regional forest fire protection compacts or agreements, and for more adequate forest protection.

ARTICLE II

This compact shall become operative immediately, as to those states ratifying it whenever any two or more of the states of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, which are contiguous have ratified it and congress has given consent thereto. Any state not mentioned in this article which is contiguous with any member state may become a party to this compact, subject to approval by the legislature of each of the member states.

ARTICLE III

In each state, the state forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that state and shall consult with like officials of the other member states and shall implement cooperation between such states in forest fire prevention and control.

The compact administrators of the member states shall coordinate the services of the member states and provide administrative integration in carrying out the purposes of this compact.

There shall be established an advisory committee of legislators, forestry commission representatives, and forestry or forest products industries representatives which shall meet from time to time with the compact administrators. Each member state shall name one member of the senate and one member of the house of representatives who shall be designated by that state's commission on interstate cooperation, or if said commission cannot constitutionally designate the said members, they shall be designated in accordance with laws of that state; and the governor of each member state shall appoint two representatives, one of whom shall be associated with forestry

or forest products industries to comprise the membership of the advisory committee. Action shall be taken by a majority of the compacting states, and each state shall be entitled to one vote.

The compact administrators shall formulate and, in accordance with need, from time to time, revise a regional forest fire plan for the member states.

It shall be the duty of each member state to formulate and put in effect a forest fire plan for that state and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

ARTICLE IV

Whenever the state forest fire control agency of a member state requests aid from the state forest fire control agency of any other member state in combating, controlling or preventing forest fires, it shall be the duty of the state forest fire control agency of that state to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

ARTICLE V

Whenever the forces of any member state are rendering outside aid pursuant to the request of another member state under this compact, the employees of such state shall, under the direction of the officers of the state to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the state to which they are rendering aid.

No member state or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance, or use of any equipment or supplies in connection therewith; provided, that nothing herein shall be construed as relieving any person from liability for his own negligent act or omission or as imposing liability for such negligent act or omission upon any state.

All liability, except as otherwise provided hereinafter, that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

Any member state rendering outside aid pursuant to this compact shall be reimbursed by the member state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries, and subsistence of employees and maintenance of equipment incurred in connection with such request; provided, that nothing herein contained shall prevent any assisting member

state from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such service to the receiving member state without charge or cost.

Each member state shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

For the purposes of this compact the term employee shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding state under the laws thereof.

The compact administrators shall formulate procedures for claims and reimbursement under the provisions of this article, in accordance with the laws of the member states.

CHAPTER 600

FLORIDA CITRUS MARKETING ACT

600.011 Short title.

600.021 Declaration of state policy.

600.031 Purposes of law.

600.011 Short title.—This act may be known and cited as "Florida citrus marketing act."

History.—§6, ch. 61-88.

600.021 Declaration of state policy.—

This act is passed:

(1) In the exercise of the police power of this state to promote and protect the public health, peace, safety and general welfare, and to stabilize and protect the citrus fruit industry of the state.

(2) Because the citrus fruit crop grown in Florida comprises the major agricultural crop of Florida and the marketing thereof is affected with a public interest.

(3) Because it is hereby found and declared that because of the increased and ever-increasing production of citrus fruit in Florida and elsewhere, except in years of freezes or other disasters that substantially reduce the total crop, the marketing of citrus fruit grown in Florida in excess of reasonable and normal market demands therefor, disorderly marketing of such citrus fruit, unfair methods of competition in the marketing of such citrus fruit, and the inherent inability of individual producers to develop new and larger markets for Florida grown citrus fruit, result in an unreasonable and unnecessary economic waste of the agricultural wealth of this state. Such conditions and the accompanying waste jeopardize the future continued production of quality citrus fruit for the people of this and other states and areas, and prevent citrus fruit producers from obtaining a fair return from their labor, the citrus fruit which they produce, and impair the economic value of their citrus fruit groves. As a consequence, the purchasing power of such producers has been in the past, and in all likelihood will continue to be in the future, unless such conditions are remedied, low in relation to that of persons engaged in other gainful occupations within this state. Citrus fruit producers are thereby prevented from maintaining a proper and reasonable standard of living and from contributing their fair share to the support of the necessary governmental and educational functions, thus tending to unfairly increase the tax burdens of other citizens of this state.

(4) Because the conditions hereinbefore described and set forth vitally concern the health, peace, safety and general welfare of the people of this state, it is hereby declared to be the policy of this state to aid citrus fruit producers and handlers in preventing economic waste in the production and marketing of their citrus fruit, to develop more efficient and equitable methods in the marketing of citrus fruit, and to aid citrus fruit producers and handlers in restoring and maintaining their

purchasing power at a more adequate, equitable and reasonable level.

History.—§1, ch. 61-88.

600.031 Purposes of law.—The purposes of this act are:

(1) To enable citrus fruit producers of this state, with the aid and under the direction and control of the state, more effectively to correlate the production and marketing of their citrus fruit with market demands therefor.

(2) To establish and maintain orderly marketing of citrus fruit grown in Florida.

(3) To provide methods and means for the development of new and larger markets for citrus fruit grown in Florida.

(4) To eliminate or reduce economic waste in the production, handling and marketing of citrus fruit grown in Florida.

(5) To restore and maintain adequate purchasing power for the citrus fruit producers of Florida; and

600.051 Marketing agreements; powers of commissioner.—

(1) In order to effectuate the declared policy and purposes of this act, the commissioner shall have the power, after due notice and opportunity for hearing, to enter into, administer and enforce marketing agreements with handlers and distributors engaged in any one or more of the citrus districts established in and by §601.09, in the handling and distributing of citrus fruit in fresh fruit form or any variety or varieties, grade, size or quality thereof, regulating the handling of such citrus fruit in the way and manner and to the extent therein prescribed and agreed upon, which said marketing agreements shall

be binding only upon the signatories thereto exclusively. The execution of any such marketing agreement shall in no manner affect the issuance, administration, or enforcement of any marketing order otherwise provided for by chapter 601, and any marketing agreement executed hereunder shall be ineffective to the extent that it is in conflict with any rule, regulation, marketing order or marketing agreement under any federal law relating to the handling of citrus fruit grown in Florida.

(2) After such notice and opportunity for hearing, the commissioner may issue and execute a marketing agreement, or any amendment thereof after its issuance, if he finds and sets forth in such marketing agreement that such agreement or amendment, as the case may be, will, with respect to the citrus fruit covered thereby, tend to:

(a) Re-establish or maintain prices received by producers for citrus fruit at a level which will give to such citrus fruit a purchasing power, with respect to the articles and services which producers commonly buy, equivalent to the purchasing power of such citrus fruit in the base period. The base period shall be such prior period in which the commissioner finds that:

1. The volume of production of citrus fruit was adequate to supply the requirements of consumers thereof; and

2. The returns to producer of citrus fruit were sufficient to provide an adequate standard of living to the citrus fruit producer and his family.

(b) Approach such equality of purchasing power at as rapid a rate as is feasible in view of the market demand for citrus fruit.

(c) Prevent the unreasonable or unnecessary waste of the wealth of the citrus fruit industry of Florida by developing new and larger markets for citrus fruit.

(d) Protect the interests of consumers of citrus fruit by exercising the powers of this act only to such extent as is necessary to establish the equality of purchasing power described in §600.051(2)(a).

(3) In making the findings set forth above in this section, the commissioner shall take into consideration any and all facts available to him with respect to the following economic factors:

(a) The quantity of citrus fruit available for distribution.

(b) The quantity of citrus fruit normally required by consumers.

(c) The cost of producing citrus fruit as determined by available records, statistics and surveys.

(d) The purchasing power of consumers as indicated by reports and indices.

(e) The level of prices of similar and other commodities which compete with or are utilized as substitutes for Florida citrus fruit.

(4) Subject to the legislative restrictions and limitations set forth herein, any marketing agreement entered into between the com-

missioner and signatories thereto pursuant to this act may contain any or all of the following provisions for regulating the handling or distributing of citrus fruit in fresh fruit form within this state, in the primary channel of trade, but no others:

(a) Provisions for determining the existence and extent of the surplus of citrus fruit or of any variety, grade, size or quality thereof, and providing for the control and distribution of such surplus and for equalizing the burden of such surplus elimination or control among the handlers or other distributors affected.

(b) Provisions for limiting the total quantity of citrus fruit, or of any variety, grade, size or quality thereof, which may be distributed or otherwise handled in the primary channel of trade by any and all affected persons engaged in such distributing or handling during any specified period or periods. The total quantity of any such citrus fruit so regulated and permitted to be distributed, or otherwise handled, shall not be less than the quantity which the commissioner finds is reasonably necessary to supply the market demands of consumers of such citrus fruit.

(c) Provisions for allotting the quantity of citrus fruit, or of any variety, grade, size or quality thereof, which each handler signatory to such agreement may purchase or acquire from, or handle on behalf of any and all producers thereof in the primary channel of trade during any specified period or periods, under a uniform rule applicable to all handlers so regulated based upon the current season's production or sales of such producers, or upon production or sales of such producers in such

prior period as the commissioner determines to be representative, or both, to the end that the total quantity of such citrus fruit or any variety, grade, size or quality thereof, so purchased or handled in the primary channel of trade, shall be apportioned equitably among the producers thereof.

(d) Provisions for the establishment of surplus or reserve pools of citrus fruit, or of the representative value of such citrus fruit, or of any variety, grade, size or quality thereof, and providing for the sale or other disposition of such surplus citrus fruit and the equitable distribution among the persons interested therein of the net returns or other consideration derived from the sale or other disposition of such citrus fruit or such distribution of such representative value of such citrus fruit.

(e) Prohibiting unfair methods of competition and unfair trade practices.

(f) Provisions for the establishment of plans or programs for advertising, merchandising, sales promotion and incentive payments, or matters connected therewith, to create new or larger markets for citrus fruit or any variety, grade, size or quality thereof grown in the state.

(g) Provisions incidental to and not inconsistent with the terms, conditions and provisions hereinbefore specified and necessary to effectuate the other provisions of such marketing agreement and the provisions of this act, including, but not limited to, provisions for paying the costs and expenses of administration of any such agreement, and provisions for penalties and for liquidated damages for violation of any such agreement.

thereon for a livelihood, and said business is therefore of vast public interest.

(3) Because it is wise, necessary, and expedient to protect and enhance the quality and reputation of Florida citrus fruit and the canned and concentrated products thereof in domestic and foreign markets.

(4) To provide means whereby producers, packers, canners, and concentrators of citrus fruit and the canned and concentrated products thereof may secure prompt and efficient inspection and classification of grades of citrus fruit and the canned and concentrated products thereof at reasonable costs, it being hereby recognized that the standardization of the citrus fruit industry of Florida by the proper grading and classification of citrus fruit and the canned and concentrated products thereof by prompt

and efficient inspection under competent authority is beneficial alike to producer, packer, shipper, canner, concentrator, carrier, receiver, and consumer in that it furnishes them prima facie evidence of the quality and condition of such products and informs the carrier and receiver of the quality of the products carried and received by them and assures the ultimate consumer of the quality of the products purchased.

(5) To stabilize the Florida citrus industry and to protect the public against fraud, deception, and financial loss through unscrupulous practices and haphazard methods in connection with the processing and marketing of citrus fruit and the canned or concentrated products thereof.

601.111 Minimum maturity standards.—

(1) The legislature of the state finds and declares that emergencies creating abnormal conditions in the Florida citrus industry, such as unusual climatic conditions that produce unusual growing conditions of citrus fruit, freezes and hurricanes or other acts of God that may affect a substantial part of the citrus industry, require that the Florida citrus commission be given the power and authority to lower the maturity standards established by law for citrus fruit or any variety thereof, not including oranges except as to minimum juice content requirement, under and subject to the limitations, conditions, restrictions and provisions and within the standards hereinafter prescribed and established.

(2) That in the event of an emergency such as is mentioned in subsection (1), and after a public hearing, to be called and held by the Florida citrus commission, the said commission, in addition to all other powers and authority which it now possesses, which have heretofore been granted or delegated to it by the legislature of the state, shall have the additional power to issue rules and regulations to:

(a) Lower by not more than ten percent the existing minimum requirement as to the total soluble solids of the juice of citrus fruit or any variety, except oranges, or size thereof;

(b) Lower by not more than ten percent the existing ratio of total soluble solids of the juice of citrus fruit or any variety thereof, except oranges, to the anhydrous citric acid; and

(c) Lower by not more than ten percent the existing minimum requirement for juice content of citrus fruit or any variety or size thereof.

Any action under this subsection shall not be taken until after a public hearing has been

called by the vote or with the consent of at least nine members of the Florida citrus commission and any regulation adopted pursuant to this section shall be by the affirmative vote of at least nine members of said Florida citrus commission and every such regulation shall contain an expiration date not later than one year from its effective date.

(3) Any order, rule or regulation adopted by the Florida citrus commission under and in accordance with the provisions of this act, shall take effect at a time to be fixed by the commission but not less than twenty-four hours from the time same is adopted, irrespective of the provisions of §601.12.

(4) This act shall not repeal any other section or part of chapter 601, but shall be deemed as supplemental and additional to the express power vested in the Florida citrus commission, subject only to the limitations, restrictions, conditions, provisions and standards herein set forth.

All such rules, regulations, and orders shall become effective ten days after the same are promulgated, unless otherwise ordered by the commission, but no rule, regulation, or order shall be effective sooner than seventy-two hours after promulgation thereof, except orders and regulations as may be promulgated under §§601.89 and 601.90. In case written protests by any interested persons shall be made to any one or more of such rules, regulations, or orders within thirty days after publication of same, hearings shall be conducted at places and at times to be determined by the commission, or its authorized agent or representative, at which all interested persons shall have a right to be heard. Due notice of the time and place of such hearings by the commission, or its authorized agent or representative, shall be given to the persons making such protests. In all cases such written protests shall be filed with the commission and, if there be no such written protests filed with the commission within thirty days after such rules, regulations, or orders become effective, then and in that event such rules, regulations, or orders shall be final. (f) To enter into any mutually satisfactory contracts or agreements with any person, firm, institution, corporation, or business unit, as well as any state or federal agency which the commission deems wise, necessary, and expedient in the carrying out of any of the provisions of this chapter.

levied on citrus fruit, such amounts as may be necessary, not to exceed however, in each of the fiscal years ending, respectively, June 30, 1964, June 30, 1965, expenditures in excess of eleven percent of moneys collected from such excise taxes in such year. Provided, however, that any excess of surplus funds which may be on hand at the end of either or all of said fiscal years may be carried over and expended from year to year in addition to such eleven percent, in such amount, however, so that the money carried over shall at no time exceed one hundred thousand dollars.

601.14 Transportation problems affecting citrus; investigation by commission; appropriation.—

(1) It shall be the duty of the commission to cause to be investigated the transportation problems affecting the Florida citrus industry and the lawfulness of any and all existing or proposed rates, charges, rules, regulations, or practices affecting any rate or charge in so far as the same may affect the Florida citrus industry and, to that end, shall cause such proper investigations to be made by other agencies established and existing for the purpose of handling such problems. The commission may authorize such other agency as selected by it to compile the facts concerning the transportation rates, charges, rules, regulations, or practices affecting the Florida citrus industry and, when any such transportation rate, charge, rule, regulation, or practice is

in its opinion excessive, unjust, unreasonable, discriminating in nature or otherwise unlawful, may cause such agency to file with the interstate commerce commission or other proper regulatory body complaints, protests, petitions, or other pleadings and papers and to participate in any proceedings or hearings concerning the same to the end that the Florida citrus industry may be fully protected in obtaining and enjoying just, reasonable, and otherwise lawful transportation rates and charges. 601.15 Advertising campaign; methods of conducting; excise tax to support enforcement provisions; citrus research.—

(1) The administration of this section shall be vested in the commission which shall prescribe suitable and reasonable rules and regulations for the enforcement hereof and the commission shall administer the taxes levied and imposed hereby. Said commission shall have power to cause its duly authorized agent or representative to enter upon the premises of any handler of citrus fruits and to examine or cause to be examined any books, papers, records, or memoranda bearing on the amount of taxes payable and to secure other information directly or indirectly concerned in the enforcement hereof. Any person required to

pay the taxes levied and imposed who shall by any practice or evasion make it difficult to enforce the provisions hereof by inspection or any person who shall, after demand by the commission or any agent or representative designated by it for that purpose, refuse to allow full inspection of the premises or any part thereof or any books, records, documents, or other instruments in any manner relating to the liability of the tax payer for the tax imposed or shall hinder or in anywise delay or prevent such inspection shall be guilty of a misdemeanor and, upon conviction, shall be punished accordingly.

(2) The commission shall plan and conduct a campaign for commodity advertising, publicity, and sales promotion to increase the consumption of citrus fruits and may contract for any such advertising, publicity, and sales promotion service. To accomplish such purpose, the commission shall have power, and it shall be its duty to disseminate information:

(a) Relating to citrus fruits and the importance thereof in preserving the public health, the economy thereof in the diet of the people and the importance thereof in the nutrition of children;

(b) Relating to the manner, method, and means used and employed in the production and marketing of citrus fruits and to laws of the state regulating and safeguarding such production and marketing;

(c) Relating to the added cost to the producer and dealer in producing and handling citrus fruits to meet the high standards imposed by the state that insure a pure and wholesome product;

(d) Relating to the effect upon the public health which would result from a breakdown of the Florida citrus industry or any part thereof;

(e) Relating to the reasons why producers and dealers should receive a reasonable return on their labor and investment;

(f) Relating to the problem of furnishing the consumer at all times with an abundant supply of fine quality citrus fruits at reasonable prices;

(g) Relating to factors of instability peculiar to the citrus fruit industry, such as unbalanced production, effect of the weather, influence of consumer purchasing power and price relative to the cost of other items of food in the normal diet of people, all to the end that an intelligent and increasing consumer demand may be created;

(h) Relating to the possibilities with particular reference to increased consumption of citrus fruits;

(i) Relating to such other, further, and additional information as shall tend to promote increased consumption of citrus fruits and as may foster a better understanding and more efficient cooperation among producers, dealers, and the consuming public;

(j) To decide upon some distinctive and suggestive trade name and to promote its use in all ways to advertise Florida citrus fruit.

(3) (a) 1. There is hereby levied and imposed the following excise taxes upon each standard packed box of the following citrus fruits grown in this state, to-wit: grapefruit, six cents per box; oranges, six cents per box; Murcotts, five cents per box; Temples, five cents per box; tangerines, five cents per box; and tangelos, five cents per box.

2. There is hereby levied and imposed an additional excise tax of three cents per box upon each standard packed box of oranges grown in Florida. The additional excise tax hereby levied and imposed on oranges shall expire on June 30, 1967. Wherever the terms "citrus excise tax" or "citrus excise taxes" appear in the Florida citrus code, such terms shall be deemed to include the additional excise taxes imposed by this subparagraph.

(b) When grapefruit are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, eighty-five pounds thereof shall be considered equal to or the equivalent of one standard-packed box for tax purposes under this section.

(c) When oranges, including Temples and Murcotts, are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, ninety pounds thereof shall be considered equal to or the equivalent of one standard-packed box for tax purposes under this section.

(d) When tangerines are purchased, acquired, or handled on a weight basis rather than under the standard-packed-box basis, ninety-five pounds thereof shall be considered equal to or the equivalent of one standard-packed box for tax purposes under this section.

(e) The taxes imposed by the provisions of this section shall not apply to citrus fruit consumed for domestic purposes on the premises where produced.

(f) When tangelos are purchased, acquired or handled on a weight basis rather than under the standard-packed-box basis ninety pounds shall be equal to, or the equivalent of, one standard-packed box for tax purposes under this section.

(4) Every handler shall keep a complete and accurate record of all citrus fruit handled by him. Such record shall be in such form and contain such other information as the commission shall by rule or regulation prescribe. Such records shall be preserved by such handlers for a period of one year and shall be offered for inspection at any time upon oral or written demand by the commission or its duly authorized agents or representatives.

(5) Every handler shall, at such times as the commission may by rule or regulation require, file with the commission a return under oath on forms to be prescribed and furnished by the commission, stating the number of standard-packed boxes of each kind of citrus fruit handled by such handler in the primary channel of trade during the period of time prescribed by the commission. Such returns

shall contain such further information as the commission may require.

(6) (a) All taxes levied and imposed under and pursuant to the provisions of this section shall be due and payable and shall be paid, or the amount thereof provided for and guaranteed, as hereinafter provided, when the citrus fruit is first handled in the primary channels of trade. All such taxes shall be paid to the commission or the payment thereof guaranteed to the commission by the person first handling the fruit in the primary channel of trade, except that all taxes on fruit delivered or sold for canning, concentrating, or processing in this state shall be guaranteed to the commission by the person so canning, concentrating, or processing such fruit by the giving of a security bond, or cash deposit under rules and regulations promulgated by the commission.

(b) Payment of the taxes upon the several citrus fruits may be evidenced by stamps to be known and designated as "Florida citrus advertising stamps" or by periodic payment by the person liable for the payment thereof upon such terms and under such rules and regulations as shall be prescribed by the commission for the payment thereof. In all instances, unless such taxes shall be paid by the use of stamps, as herein provided, the commission shall require the payment to be secured by the filing and posting of sufficient bond to be approved by the commission or the depositing of a sufficient cash deposit to be determined by the commission. The methods of payment shall be in the alternative, and either method of payment may be used at the option of the person liable for the payment of the tax under regulations promulgated by the commission, except canners, concentrators, or processors shall give bond or cash deposit as above set forth.

(c) In the event said taxes are paid by the use of stamps, the commission may provide for both the use of adhesive stamps or the impression by use of stamp machines to be approved by the commission. Said stamps or impressions shall indicate the amount paid therefor and shall, in every instance be affixed to or impressed on the grade certificate showing the grade of fruit covered thereby, and, in all other cases, such stamps or impressions shall be affixed to the return provided for in this section.

(d) In the event that periodic payment of said taxes is made under rules and regulations of the commission, evidence of the guarantee of the payment of such taxes shall be made to appear on the grade certificate or on the return provided in this section in such manner and form as shall be prescribed by the commission.

(e) The commission shall cause such stamps to be made and distributed for the payment of taxes provided in this chapter and shall make regulations for the use of stamp machines and impressions thereby and for the periodic payment of such taxes with payment guaranteed as shall be necessary to carry out

and comply with the intent and purposes of this chapter.

(f) All taxes collected by the commission shall be delivered to the state treasury for payment into the proper advertising fund.

(g) All of the other provisions of said chapter 601, as to payment of advertising tax, inspection fees, maturity standards and penalties shall apply to tangelos the same as applicable under said chapter to other citrus fruits as they are therein defined.

(7) All taxes levied and collected under the provisions of subsection (3) of this section upon the respective citrus fruits shall be paid into the state treasury on or before the fifteenth day of each month, such moneys to be kept in a special fund to be designated as the Florida citrus advertising trust fund, and all moneys in such fund are hereby appropriated to the commission for the following purposes:

(a) Two percent of all income of a revenue nature deposited in this fund, including transfers from any subsidiary accounts thereof, shall be deposited in the general revenue fund in lieu of the three percent service charge provided for in §215.20,

(b) An amount equal to one half of the amount deposited in the general revenue fund pursuant to paragraph (a) of this subsection, shall be set aside in the Florida citrus advertising trust fund to be used exclusively for citrus research by the commission,

(c) During the period beginning July 1, 1963, and ending June 30, 1967, an amount equal to twenty percent of the aggregate amount of the citrus excise taxes levied and imposed upon oranges shall be set aside in the Florida citrus advertising trust fund as an emergency reserve fund to be used only in the event of serious economic emergencies which will result in a direct and serious adverse effect upon the market value of oranges, processed orange products, or orange by-products in sales thereof by producers and handlers.

The authority and duty to determine the existence of such an emergency is hereby vested in the commission which shall make such a determination only upon the affirmative vote of at least nine of its members after a public hearing. Notice of the time, place, and purpose of such hearing shall be published at least two times in at least one newspaper of general circulation in each of three cities within the citrus producing area of the state to be selected by the commission. The first of such notices shall be so published at least ten days prior to such hearing and the last of such notices shall be so published not less than two nor more than five days prior to such hearing. Such hearings shall be open to the public. All testimony shall be received under oath and a full and complete record of all proceedings at such hearing shall be made and filed by the commission in its offices. Such record, when signed by the chairman of the commission and authenticated by the seal of the commission, shall constitute prima facie evidence of such proceedings in all courts of the state.

If, after such notice and hearing, the commission so determines that such an emergency exists, then it shall plan and conduct an intensive campaign of commodity advertising and sales promotion of oranges, processed orange products, or orange by-products utilizing such portion of the emergency reserve fund as may be required for such purpose. Upon the completion of any such intensive campaign of commodity advertising and sales promotion, the balance remaining shall be retained in said emergency reserve fund to be used only in the event of another such emergency, in which event the determination of the existence of such emergency shall be made under the same procedure and upon the same criterion, and the funds shall be used in the same manner and for the same purpose and for no other purpose.

The sums to be so set aside in said special reserve fund during said period shall not be removed therefrom but shall continue to be so held solely for such use; provided, however, that in the event the balance in said special reserve fund should, at any time after June 30, 1967, be less than five hundred thousand dollars then and in that event, the commission may, after formal notification of such action and of the amount of such balance to the comptroller of the state, remove said balance from said special reserve fund upon the affirmative vote of nine of its members and without notice, or hearing, or a finding of the existence of an emergency, in which event the balance so removed may thereafter be used by the commission for any purpose authorized by the Florida citrus code.

(d) An amount equal to two hundred thousand dollars out of the citrus excise taxes levied and imposed upon grapefruit shall be set aside in the Florida citrus advertising trust fund as a grapefruit brand advertising fund, one hundred thousand dollars of which shall be used exclusively for making refunds to handlers as an incentive to encourage brand advertising of fresh grapefruit produced in Florida and one hundred thousand dollars of which shall be used exclusively for making refunds to handlers as an incentive to encourage brand advertising of grapefruit products produced in Florida.

1. The Florida citrus commission is hereby authorized and directed, on or before September 15, 1963, to issue and promulgate rules and regulations providing for such refunds to handlers payable as soon as practicable following the end of each shipping season, and providing for prorating the funds hereby appropriated in the event the total claims for such brand advertising so conducted during any shipping season should exceed the total funds hereby appropriated;

2. No handler shall receive in grapefruit advertising incentive payments more than one dollar for each two dollars spent by such handler in such brand advertising.

3. The term advertising shall be restricted to point of sale material, retail price cards, or other printed matter used in the display of grapefruit, processed grapefruit products, and

to newspaper, billboard, magazine, radio or television advertising;

4. As of September 15 of each year the balance remaining in the grapefruit brand advertising fund over and above the aggregate of all claims filed against said grapefruit brand advertising reserve fund shall be removed from said grapefruit advertising reserve fund after formal notification to the comptroller of the state and may thereafter be used by the commission for any other purposes authorized by the Florida citrus code.

(e) The balance of moneys in the Florida citrus advertising trust fund shall be used by the commission for defraying the expenses of the commission in the administration and enforcement of this section. After the payment of all necessary administrative expenses of the commission and other expenditures provided for in this chapter, the money levied and collected under the provisions of subsection (3) of this section shall be used exclusively for the advertisement of citrus fruits, either in fresh or processed form, including citrus cattle feed and all other products of citrus fruits, produced in the state in such equitable manner and proration as the commission may determine, but provided that funds expended for advertising thereunder shall be expended through an established advertising agency.

(8) (a) On certification by any employee of the Florida citrus commission that his actual and necessary expenses on any particular day while traveling outside of the state, exceeded the per diem provided by law, such employee shall show such excess on his regular expense voucher and support the same by the proof required pursuant to rules and regulations to be promulgated by the Florida citrus commission.

(b) The Florida citrus commission is authorized to spend such amount as it deems advisable, not to exceed twenty-five thousand dollars, during any shipping season, for guests involved in promotional activities in the sale of Florida citrus fruits and products.

(c) All obligations, expenses, and costs incurred under the provisions of this section shall be paid out of the citrus advertising fund upon warrant of the comptroller when vouchers thereof, approved by the commission, are exhibited.

(9) (a) Any handler who fails to file a return or to pay any tax within the time required shall thereby forfeit to the commission a penalty of five percent of the amount of tax determined to be due; but the commission, if satisfied that the delay was excusable, may remit all or any part of said penalty. Such penalty shall be paid to the commission and disposed of as provided with respect to moneys derived from the taxes levied and imposed by subsection (3) of this section.

(b) The commission may collect the taxes levied and assessed by subsection (3) of this section in either or all of the following methods:

1. By the voluntary payment by the person liable therefor;

2. By a suit at law;

3. By a suit in equity to enjoin and restrain any handler, citrus fruit dealer, or other person owing said taxes from operating his business or engaging in business as a citrus fruit dealer until the delinquent taxes are paid. Such action may include an accounting to determine the amount of taxes plus delinquencies due. In any such proceeding, it shall not be necessary to allege or prove that an adequate remedy at law does not exist;

4. By use of the method provided for in §205.10, in the collection of delinquent license or privilege taxes by state and county officials.

(10) The powers and duties of the commission shall include the following:

(a) To adopt and from time to time alter, rescind, modify, and amend all proper and necessary rules, regulations, and orders for the exercise of its powers and the performance of its duties under this chapter;

(b) To employ and at its pleasure discharge an advertising manager, agents, advertising agencies, and such clerical and other help as it deems necessary and to outline their powers and duties and fix their compensation;

(c) To make in the name of the commission such advertising contracts and other agreements as may be necessary;

(d) To keep books, records, and accounts of all of its doings, which books, records, and accounts shall be open to inspection and audit by the state auditor at all times;

(e) To purchase or authorize the purchase of all office equipment and supplies and to incur all other reasonable and necessary expenses and obligations in connection with and required for the proper carrying out of the provisions of this chapter.

(f) To conduct and pay out of the Florida citrus advertising trust fund premium and prize promotion designed to increase the use of citrus in any form.

(g) To advertise citrus cattle feed and promote its use.

(2) The Florida citrus commission is hereby authorized and directed on or before September 15, 1959, to issue and promulgate rules and regulations to create from the proceeds of this tax a one hundred thousand dollar reserve fund each shipping season to be used exclusively to refund handlers as a rebate for brand advertising for fresh grapefruit only, upon a basis not to exceed one dollar for each two

dollars spent in brand advertising. No handler shall receive in rebate during any shipping season more than he has paid in such shipping season in additional taxes levied by this section.

(3) The term "advertising" shall be restricted to point of sale material, price cards or other printed matter used in the display of fresh grapefruit and to newspaper, billboard, magazine, radio or television advertising.

(4) As of September 15 of each year the Florida citrus commission shall determine what claims have been filed against the one hundred thousand dollar reserve fund and thereupon any balance remaining in said reserve fund over and above the amount of such claims shall revert to and become a part of the Florida citrus advertising trust fund, and the comptroller of the state, upon formal notification of the excess in said fund over the amount of any claims for refund, is hereby authorized and directed to transfer such excess to and for the benefit of the Florida citrus advertising trust fund. If with respect to any shipping season such claims for refund exceed in the aggregate the amount of such reserve fund for that season such claims shall be paid on a pro rata basis.

(5) All the provisions hereof shall take effect August 1, 1959, and shall remain in full force and effect only until July 31, 1963, but for the purpose of filing claims, refunding to handlers and the reversion of any unclaimed parts of said reserve fund the effects hereof shall continue until September 15, 1963.

601.152 Special campaigns.

(1) Whenever upon its own motion or upon application of any handler or producer or group or association of handlers or producers of citrus fruit, the commission upon affirmative vote of nine of its members, determines that the conduct of a special advertising and promotional campaign or the conduct of market and product research and development, in addition to the advertising campaign being conducted pursuant to §601.15, and the research being conducted pursuant to the other provisions of the Florida citrus code, will substantially further increase the consumer acceptance and consumption of and strengthen the market for any variety or varieties of citrus fruit in fresh form or any type or types of processed citrus product by further increasing the number of families buying such products or further increasing the quantity of such citrus fruit in fresh form or processed citrus product purchased by buying families and that such substantial further increase and strengthening will be of substantial benefit to handlers thereof, producers thereof, and to the economy and well-being of the state, it shall formulate and propose a plan for a special campaign of commodity advertising and sales promotion or the conduct of market and product research development for such variety or varieties of citrus fruit in fresh form or type

or types of processed citrus product and hold a public hearing to consider the implementation of such a special campaign. Notice of the time, place, and purpose of such hearing shall be published, as hereinafter specified, in at least one daily newspaper of general circulation in each of three cities, to be selected by the commission, within the citrus producing area of the state and shall be mailed, by certified mail, return receipt requested, as hereinafter specified.

The first of such published notices shall be so published at least ten days prior to such hearing and the last of such published notices shall be published not less than two nor more than five days prior to such hearing. Such hearing shall be open to the public. A full and complete record of all proceedings at such hearing shall be made and filed by the commission at its offices which record when signed by the chairman of the commission and authenticated by the seal of the commission shall constitute prima facie evidence of said proceedings in all courts of this state.

If such plan proposes a specified variety of citrus fruit in fresh form, such mailed notices shall be addressed to each handler who, during the twelve months immediately preceding such mailing has handled such specified variety of citrus fruit for shipment in fresh form in the primary channel of trade and to each handler who the commission has good cause to believe will, during the twelve months next succeeding such mailing, handle such specified variety of citrus fruit for shipment in fresh form in the primary channel of trade.

If such plan proposes a specified type of processed citrus product such mailed notices shall be addressed to each handler who has during the twelve months immediately preceding such mailing handled such specified type of processed citrus product in the primary channel of trade and to each handler who the commission has good cause to believe will, during the twelve months next succeeding such mailing, handle such specified type of processed citrus product in the primary channel of trade.

Copies of the plan so formulated and proposed shall be made available to the public at the offices of the commission at Lakeland, Florida, at least five days prior to such hearing and shall be in sufficient detail to apprise all persons having an interest therein of the approximate amount of moneys proposed to be expended and the general details of the proposed special campaign of commodity advertising and sales promotion or the conduct of market and product research development.

Every such plan shall provide that the imposition of all assessments thereunder shall be confined to not more than two consecutive shipping seasons, provided, however, that the expenditure of the funds received from the imposition of such assessments shall not be so confined, but may be expended over such greater or lesser period as may be specified in such plan if the same be approved as hereinafter provided. If the assessments levied during a single shipping season are deemed by the com-

mission to be insufficient to fully accomplish the purposes for which such a special campaign is to be conducted, then and in that event, the commission, at any time after an order implementing a plan pursuant to this section has become effective, may formulate and propose an additional special campaign subject to all of the provisions and conditions imposed by this section.

(2) After such notice and hearing, the commission shall determine whether or not the conduct of such a campaign will substantially further increase the consumer acceptance and consumption of the citrus fruit in fresh form or processed citrus product specified in such plan and that such substantial further increase in the consumer acceptance and consumption thereof will be of substantial benefit to the handlers thereof, producers thereof, and to the economy and well-being of the state of Florida. If the commission so determines and if it approves the plan so formulated and proposed, the commission shall enter an order directing that such plan be implemented subject to a referendum of the handlers who have during a representative period to be selected by the commission handled the variety or varieties of citrus fruit for shipment in fresh form specified in such plan or the type or types of processed citrus product specified in such plan.

(3) No order issued pursuant to this section shall become effective unless and until the commission finds such order has been assented to in writing by at least sixty-seven percent of the handlers covered by the order who during the representative period determined by the commission handled in the primary channel of trade not less than fifty-one percent of the total volume of the variety of citrus fruit in fresh form or type of processed citrus product specified in the order and handled in the primary channel of trade.

(4) The commission is authorized to prescribe by rules or regulations such procedures as it deems necessary to properly conduct a referendum among handlers covered by the order to determine whether such order has been assented to in writing by at least sixty-seven percent of the handlers covered by such order who during the representative period determined by the commission handled in the primary channel of trade not less than fifty-one percent of the volume of the variety of citrus fruit in fresh form or type of processed citrus product covered by the order.

(5) Every order entered pursuant to this section shall become effective ten days after the same is issued. In case written protests by any persons adversely affected by such order shall be made to such order, or any part or parts thereof within thirty days after such publication thereof, a hearing shall be conducted at such place and time as the commission shall determine, at which all such persons shall have a right to be heard. Due notice of the time and place of such hearing shall be given to the persons making such protests. In all cases such written protests shall be verified and filed with

the commission and shall show the way and manner in which the protestant claims to be adversely affected by such order. Except for persons filing protests as before provided, every such order shall be final and conclusive as to all persons covered and affected thereby. Any action of the commission refusing to grant in whole or in part the relief sought by any such protest so filed shall be subject to review by any court of competent jurisdiction.

(6) For the purpose of carrying out any and all provisions of this section, the commission, or its duly authorized or designated representative or representatives, may hold hearings, take testimony, administer oaths, subpoena witnesses, and issue subpoenas for the production of books, records or documents, relevant and material to the subject matter of such hearings. Copies of the proceedings, records and acts of the commission and certificates purporting to relate the facts concerning such proceedings, records and acts signed by the chairman of the commission and authenticated by the seal of the commission shall be prima facie evidence thereof in all the courts of the state.

(7) For the privilege of handling citrus fruit for shipment in fresh form in the primary channel of trade or the privilege of handling processed citrus products, in the primary channel of trade, every person so engaged within this state with respect to any variety or varieties of citrus fruit in fresh form or any type or types of processed citrus products covered by any order issued pursuant to this section, shall pay to the commission such handler's pro rata share of the total of the necessary expenses incurred by the commission in the formulation, issuance, administration, and enforcement of such order and in the conduct of the special campaign carried out pursuant to such order. Each such handler's pro rata share of the total of such expenses shall be computed as follows: Divide the total quantity of the variety or varieties of citrus fruit handled for shipment in fresh form in the primary channel of trade or the type or types of processed citrus product handled in the primary channel of trade and specified in such order during the shipping season, during which assessments are imposed by such order into the quantity of such citrus fruit handled for shipment in fresh form or such processed citrus product specified in such order which was handled in the primary channel of trade by such handler during such shipping season to determine such handler's percentage of such total quantity; then multiply such handler's percentage as so determined by the total of such expenses to obtain such handler's pro rata share thereof. Provided, however, that the aggregate of any and all assessments imposed hereunder with respect to one or more orders shall not exceed five cents per standard packed box of citrus (or the equivalent thereof, as determined by the commission) during any shipping season; provided further that with respect to any such order pertaining to a variety of citrus fruit handled for shipment in fresh form in

the primary channel of trade, such assessment shall be levied only against such variety of citrus fruit handled for shipment in fresh form in the primary channel of trade and shall not be levied against such variety of citrus fruit handled for sale to another handler; provided further that no assessment shall be levied against any box of citrus fruit or unit of processed citrus product against which an assessment issued pursuant to this section has previously been issued.

(8) The commission shall prescribe rules and regulations with respect to the assessment and collection of such funds to defray the necessary expenses incurred by the commission in the formulation, issuance, administration and enforcement of any order issued by it and in the conduct of any special campaign to be carried out pursuant to such order.

Every handler shall, at such times as the commission may by rule or regulation require, file with the commission a return under oath on forms to be prescribed and furnished by the commission, stating the quantity of each variety of citrus fruit handled for shipment in fresh form in the primary channel of trade and the quantity of processed citrus products handled in the primary channels of trade by such handler during any period of time prescribed by the commission. Such returns shall contain such further information as the commission may reasonably require in order to enforce the provisions of this section.

All assessments imposed under and pursuant to the provisions of this section shall be due and payable and shall be paid by such handlers at such times and in such installments as the commission shall prescribe in such order, or the amount thereof shall be provided for and guaranteed by giving a security bond or cash deposit or as the commission may prescribe in such order.

(9) All money so collected by the commission shall be deposited for its account in a special fund to be known as the special citrus campaign fund in a bank or banks approved by the comptroller of the state and paid out upon warrant of the commission for the actual expenses incurred by the commission with respect to the formulation, issuance, administration and enforcement of any order and in the conduct of the special campaign to be carried out pursuant to any such order. Upon termination of any order, any and all moneys remaining and not required by the commission to defray the expenses of such order shall be returned by the commission upon a pro rata basis to the handlers from whom such funds were collected.

If the commission finds it necessary to do so, it may advance to said special citrus campaign fund out of the Florida citrus advertising trust fund created by §601.15, such sum of money as the commission determines is initially required to formulate, issue, administer, and enforce any such order and conduct the special campaign to be carried out pursuant to such order until moneys in said special citrus campaign fund

derived from assessments imposed and collected pursuant to this section are sufficient for such purposes, and thereafter repay such advance out of the special citrus campaign fund, and the comptroller of the state is authorized and directed to issue his warrant for such advance upon written request of the commission.

(10)(a) Any handler who fails to file a return or to pay any assessment within the time required shall thereby forfeit to the commission a penalty of five per cent of the amount of assessment then due. Such penalty shall be paid to the commission and disposed of as provided with respect to moneys derived from the assessments imposed pursuant to this section.

(b) The commission may collect the assessments imposed pursuant to this section in either or all of the following methods:

1. The voluntary payment by the handler liable therefor;

2. By a suit at law;

3. By a suit in equity to enjoin and restrain any handler owing said assessments from operating his business or engaging in business as a citrus fruit dealer until the delinquent assessments are paid. Such action may include an accounting to determine the amount of assessments plus delinquencies due. In any such proceeding, it shall not be necessary to allege or prove that an adequate remedy at law does not exist.

(11) This section shall be liberally construed to effectuate the purposes set forth and as additional and supplemental powers vested in the Florida citrus commission under the police power of this state.

But, provided, however, that no such rule or regulation issued hereunder shall permit or allow the sale or shipment of citrus fruit deemed by this act to be immature and unfit for human consumption nor of canned or concentrated products thereof prepared or made from citrus fruit deemed by this law to be immature and unfit for human consumption; but provided further that shipments under subsections (1) and (4) above shall meet such minimum grade standards as may, from time to time, be established by the Florida citrus commission; and provided further that such rules and regulations shall provide for the due collection of any advertising taxes and inspection fees that may be due thereon.

(a) Name and address of the individual, firm, partnership, association, corporation, or other business unit applying for a license;

(b) Names and addresses of the principal stockholders, officers, partners or other individuals belonging to or connected with the applicant if the applicant for a license is a firm, partnership, association, corporation, or other business unit, whether it be for profit or otherwise;

(c) The length of time the applicant has been engaged in the citrus fruit business in Florida in any manner whatsoever;

(d) A statement of delinquent accounts growing out of the ordinary course of business with producers, if any there be;

(e) A financial statement of the applicant, if required by the commission, showing such information as the commission may prescribe regarding the financial conditions of the applicant; and

(f) Whether or not the applicant or any of its officers, directors, or stockholders have previously been licensed as a citrus fruit dealer, or connected with a licensed citrus fruit dealer in the state and, if so, the date all such licenses were obtained; and

(g) The number of boxes of citrus fruit, measured in terms of standard-packed boxes, which the applicant intends to deal with during the current or ensuing shipping season.

(2) If the applicant is an individual and is shown to be a nonresident of the state, or is a copartnership and each member is shown to be a nonresident of the state, in either event, the said applicant shall designate some bona fide resident of the state as such applicant's resident agent upon whom process may be served. The service of process of any of the courts of this state upon such resident agent shall be as effectual and binding upon said applicant as if personally served upon said applicant.

(3) If the applicant is a corporation, then such corporation must be one organized and existing under the laws of this state or having an unrevoked permit authorizing it to transact business in this state.

History.—Comp. §56, ch. 25149, 1949.

The commission shall also consider the past history of any applicant, either individually or in connection with any individual, copartnership, corporation, association, or other business unit with whom any applicant shall have been connected in any capacity, and may in proper cases impute to any individual, corporation, copartnership, association, or other business unit liability for any wrong or unlawful act previously done or performed by said individual, corporation, copartnership, association, or any other business unit. If the commission shall, by a majority vote, be of the opinion that the applicant is qualified and is entitled to a license as a citrus fruit dealer, the said commission shall approve said application; otherwise said application shall be disapproved. Grounds for the disapproval for the application shall include, but shall not be limited to, the following:

(1) Any previous conduct which would have been grounds for revocation or suspension of a license as hereinafter provided if the applicant were licensed.

(2) Delinquent accounts owing to and growing out of the ordinary course of business with producers.

(3) Delinquent accounts with any person or persons with whom applicant has dealt in his operations under previous license.

601.58 Application disapproval; procedure.—If the application is disapproved, the commission shall cause an information to be prepared stating the reasons for such disapproval and file the same and serve a copy thereof upon the applicant within five days thereafter. If, within five days after the service of such information, the applicant shall file with the commission an answer to such information and a request for public hearing, said applicant shall be granted a public hearing, and be given full opportunity to be heard in person or through an attorney. The commission, through its chairman or any member thereof, or any officer or employee thereof, designated by the commission for such purpose, may hold hearings, sign and issue witness subpoenas in the name of the commission, administer oaths, examine witnesses, receive evidence and require, by subpoena, attendance and testimony of witnesses and the production of such necessary records and memoranda as may be material for the determination of the question made out by such information as to whether or not the application for license shall be approved or disapproved by the commission under the provisions of this chapter. In case of disobedience to a witness subpoena issued in the

name of the commission and served upon the witness, the commission, or any of its members or employees, may invoke the aid of any court of competent jurisdiction in requiring attendance and testimony of witnesses, and the production of accounts, records, and memoranda, and any such court may, in case of contumacy or refusal to obey a subpoena issued to any person, issue an order requiring the person to appear before the commission, or any member thereof, or its officers or employees, or to produce accounts, records, and memoranda as so ordered, or to give evidence touching any matter pertinent to such public hearing, and any failure to obey such order of the court shall be punished by the court as a contempt thereof. If after such hearing the commission shall find and determine that its previous action was not justified, it shall approve such application, and, if it determines that its previous action was justified, it shall affirm its previous action. If the applicant fails to file an answer and request a public hearing within said five days, said application shall stand disapproved. If the application is approved, the commission shall immediately forward such application with its approval endorsed thereon to the commissioner of agriculture of the state, who shall issue to such applicant a license as mentioned in §601.60. No license shall be issued to any applicant whose application has been disapproved by the commission.

History.—§58, ch. 25149, 1949; am. §10, ch. 26484, 1951.

601.59 Annual license fee.—Each applicant shall pay to the commissioner a fee of ten dollars per annum, except where any applicant expects to deal only as an agent, such applicant shall pay the sum of five dollars. All such license fees collected hereunder shall be paid by the commissioner into the state treasury monthly to the credit of the general inspection trust fund and are appropriated and made available for defraying the expenses incurred in the administration and enforcement of this law.

History.—§59, ch. 25149, 1949; §2, ch. 61-119.

601.60 Issuance of license.—Whenever an application bears the approved endorsement of the commission and the applicant has paid the prescribed fee, the commissioner shall issue to such applicant a license which shall entitle the licensee to do business as a citrus fruit dealer in the current or ensuing shipping season to be in force unless and until it is suspended or revoked by the commissioner in accordance with the provisions of this law.

History.—Comp. §60, ch. 25149, 1949.

601.601 Registration of agents.—Every licensed citrus fruit dealer shall:

(1) Register with the commissioner of agriculture each and every agent authorized to represent said dealer in transactions involving the consignment, purchase or sale of citrus fruit; and make application for registration of said agent or agents on a form approved by the commissioner and filed with the commis-

sioner not less than five days prior to the active participation of said agent or agents on behalf of said dealer in any transaction involving the consignment, purchase or sale of citrus fruit; and be held fully liable for and legally bound by all contracts and agreements, verbal or written, involving the consignment, purchase or sale of citrus fruit, executed by a duly registered agent on his behalf, during the entire period of valid registration of said agent the same as though said contracts or agreements were executed by said dealer. Registration of each agent shall be for the entire shipping season for which the applying dealer's license is issued; provided, however, said licensed dealer may cancel the registration of any agent registered by him by giving formal written notice to the commissioner of not less than ten days and in addition, said dealer shall make every effort to alert the public to the fact that said agent is no longer authorized to represent him. An agent may be registered by more than one licensed dealer for the same shipping season, provided that each licensed dealer shall apply individually for registration of said agent, and further provided that written consent is given by each and every dealer under whose license said agent has valid prior registration.

(2) When the above requirements for registration of an agent have been met and the prescribed fee of five dollars as required by §601.59 has been paid, the commissioner shall duly register said agent and issue an identification card certifying such registration. Said identification card, among other things, shall show in a prominent manner:

- (a) The name and address of the agent;
- (b) The authorizing dealer's name and address and license number;
- (c) The effective date and season for which registration is made;
- (d) A space for signature of the agent;
- (e) A space to be countersigned by the licensed dealer;
- (f) A statement providing that the card shall not be valid unless so signed and countersigned.

In addition, the Florida citrus commission may, from time to time, adopt additional requirements or conditions relating to the registration of agents as may be necessary.

History.—§1, ch. 63-75.

601.61 Bond required prior to issuance of license.—

(1) Except as hereinafter provided, before any license is granted by the commissioner to any person other than an agent for a licensed citrus fruit dealer, the applicant therefor must deliver to the commissioner a good and sufficient cash bond or surety company bond executed by the applicant as principal and by a surety company qualified to do business in this state as surety in the following amounts for the number of standard packed boxes of citrus fruit, or the equivalent thereof, which the applicant intends to deal with during the current or next ensuing shipping season as set forth in his application:

\$2,000.00 up to 5,000 boxes
 \$3,750.00 between 5,000 and 7,500 boxes
 \$5,000.00 between 7,500 and 10,000 boxes
 \$10,000.00 between 10,000 and 20,000 boxes
 \$1,000.00 for each additional 20,000 boxes or fraction thereof in excess of 20,000 boxes, with a maximum bond of \$100,000.00.

The commission shall advise the commissioner as to the amount of bond required. Said bond shall be in the form approved by the commissioner and shall be conditioned upon full compliance with the terms and conditions of all contracts, verbal or written, made by the citrus fruit dealer with producers, or with other citrus fruit dealers, relative to the purchasing, handling, sale, and accounting of sales of citrus fruit, and upon applicant accounting for the proceeds and paying for any citrus fruit contracted for in accordance with the terms of the contracts with producers, and upon applicant accounting for any advance payments or deposits made and delivering all citrus fruit contracted for in accordance with the terms of the contracts with other citrus fruit dealers. Said bond shall be to the commissioner and his successors in office, in favor and for the use and benefit of every producer and of every citrus fruit dealer with whom applicant deals in the purchase, handling, sale, and accounting of purchases and sales of citrus fruit. The aggregate accumulative liability under any bond shall not exceed the amount named therein. Said bond shall provide that the surety thereon shall not be liable to any citrus fruit dealer claiming to be injured or damaged by the applicant if the aggregate of the amounts found to be due to producers pursuant to §601.62 or §601.63 equals or exceeds the amount of the bond, unless such citrus fruit dealer is also a producer and is acting in the capacity of a producer and not in the capacity of a citrus fruit dealer in the transaction wherein he claims to have been injured or damaged by applicant; but if the aggregate of such amounts is less than the amount of the bond, then the surety may be held liable to such citrus fruit dealers, but not in excess of the sum by which the amount of the bond exceeds the aggregate of the amounts found to be due to producers pursuant to §601.62 or §601.63. Every such bond shall continue in force and effect until ninety days after the termination of the shipping season for which the bond is given. The commissioner or the commissioner or any officer or employee designated by the commission or the commissioner, shall have the right to inspect such accounts and records of any citrus fruit dealer as may be deemed necessary to determine whether a bond which has been delivered to the commissioner is in the amount required by this section or that a previously licensed nonbonded dealer should be required to furnish bond. If any such citrus fruit dealer refuses to permit such inspection, the commissioner may publish the facts and circumstances and by order suspend the license of the offender until permission to make such inspection.

tion is given. Upon a finding by the commissioner that any citrus fruit dealer will deal with more fruit during the season than shown by the application the commissioner may order such bond increased to such an amount as will meet the above requirements. Upon failure to file such increased bond within such time fixed by the commissioner, the commissioner may revoke the license of such citrus fruit dealer.

(2) Citrus fruit which the applicant produces, or, in the case of a cooperative marketing association, citrus fruit which is handled for its members, or citrus fruit handled by the applicant which has been prepared or processed and packaged by a registered packing house or canning or concentrating plant other than the applicant or citrus fruit handled by the applicant from citrus groves for which applicant provides complete grove management services under direct contract with the owner or producer, shall not be considered as fruit which the applicant intends to deal with for the purpose of determining the amount of the surety bond required under subsection (1) of this section. If an applicant does not intend to deal with any citrus fruit other than that which comes within the classification in the foregoing sentence, or in the case of an express or gift fruit shipper who handles only fruit which the applicant produces or purchases from a licensed citrus fruit dealer, the commissioner shall issue a license without the posting of a bond. Such a license shall bear a descriptive statement to the effect that the licensee is not a bonded citrus fruit dealer.

Cooperative marketing association means one organized and existing under the provisions of either chapter 618 or chapter 619.

History.—§61, ch. 25149, 1949; §21, ch. 26492, 1951; sub. §(2) n. §2, ch. 28197, 1953; §1, ch. 29762, 1955; §1, ch. 61-45; §1, ch. 61-389; (2) §1, ch. 63-61.

601.611 Applicable law in event ch. 61-389 held invalid.—If any of the provisions of ch. 61-389, amending §§601.61-601.63 shall be held to be unconstitutional or invalid for any reason by any court of competent jurisdiction, or if any such court shall find or declare that no applicant shall be required to furnish the bond required by this act, then and in that event this entire act, including section 5 hereof, shall be ineffective for any and all purposes, and the laws in effect on August 1, 1961, which are amended or repealed by this act shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect, it being the intention of the legislature that in that event this entire act shall be ineffective for any and all purposes and the laws in effect on August 1, 1961, including ch. 61-45, which are amended or repealed by this act shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect.

History.—§4, ch. 61-389.

601.62 Actions on bond of dealer.—Any producer and any citrus fruit dealer claiming to be injured or damaged by any act of said

citrus fruit dealer, or the commissioner on behalf of all producers and all citrus fruit dealers contracting with the said citrus fruit dealer, may maintain an action on said bond against the citrus fruit dealer and the surety named in said bond or any of them and any judgment in any such action shall include costs. If such an action is brought by a producer or citrus fruit dealer and if the surety named in said bond is made a party defendant therein, then, within one hundred days immediately following the end of the shipping season for which such bond was given, notice of the pendency of such action shall be served upon each producer and citrus fruit dealer who shall have duly filed with the commissioner a claim under said bond prior to the expiration of ninety days immediately following the end of such shipping season. Each of said producers and citrus fruit dealers shall have the right to intervene in such action by filing a motion for leave to intervene prior to the expiration of one hundred twenty days immediately following the end of such shipping season. In the event the aggregate of the amounts found to be due the plaintiff and intervenors by the defendant does not exceed the amount of the bond, then judgment shall be entered in favor of each of them in the amount found to be due. In the event the aggregate of the amounts found to be due the plaintiff and intervenors exceeds the amount of the bond, and if the aggregate of the amounts found to be due to those parties who are producers (and who were acting in that capacity in the transaction involved) exceeds the amount of the bond, then judgment shall be entered in favor of each such producer in an amount equal to his pro rata share of the amount of said bond. In the event the aggregate of the amounts found to be due to the plaintiff and intervenors exceeds the amount of the bond, and if the aggregate of the amounts found to be due to those parties who are producers (and who were acting in that capacity in the transaction involved) does not exceed the amount of the bond, then judgment shall be entered in favor of each such producer in the amount found to be due him, and judgment shall be entered in favor of each of those parties who were acting in the capacity of a citrus fruit dealer in the transaction involved in an amount equal to his pro rata share of the sum by which the amount of the bond exceeds the aggregate of the judgments entered in favor of such producers. Provided, however, that nothing in this chapter shall be construed to limit the liability of any citrus fruit dealer to the amount of the bond required.

History.—§62, ch. 25149, 1949; §2, ch. 61-389.

601.63 Procedure where liability under bond admitted.—In cases where liability under and by virtue of any bond given pursuant to the provisions of §601.61 is admitted, without suit, the commissioner shall ascertain the amounts due claimants who have duly filed a claim under and in connection with such bond prior

to the expiration of ninety days immediately following the end of the shipping season for which such bond was given. Thereafter, if the full amount of said bond, or the aggregate of the amounts found to be due such claimants, is paid by the surety to the commissioner, then the commissioner shall make distribution thereof in the following manner. In the event the aggregate of the amounts found to be due such claimants does not exceed the amount of the bond, then the commissioner shall distribute to each claimant the amount found to be due such claimant. In the event the aggregate of the amounts found to be due to such claimants exceeds the amount of the bond and if the aggregate of the amounts found to be due to those claimants who are producers (and who were acting in that capacity in the transaction involved) exceeds the amount of the bond, then the commissioner shall distribute to each such producer an amount equal to his pro rata share of the amount of the bond. In the event the aggregate of the amounts found to be due to such claimants exceeds the amount of the bond and if the aggregate of the amounts found to be due to those claimants who are producers (and who were acting in that capacity in the transaction involved) does not exceed the amount of the bond, then the commissioner shall distribute to each such producer the amount found to be due him, and the commissioner shall distribute to each of those claimants who were acting in the capacity of a citrus fruit dealer in the transaction involved an amount equal to his pro rata share of the sum by which the amount of the bond exceeds the aggregate of the sums found to be due to such producers.

History.—§63, ch. 25149, 1949; §3, ch. 61-389.

601.64 Citrus fruit dealers; unlawful acts, etc.—It is unlawful in, or in connection with any transaction relative to the purchase, handling, sale, and accounting of sales of citrus fruit:

(1) For any citrus fruit dealer to make or exact any fraudulent charge to or from any person;

(2) For any citrus fruit dealer to reject or fail to deliver in accordance with the terms of the contract without reasonable cause any citrus fruit bought, sold, or contracted to be bought or sold by such citrus fruit dealer;

(3) For any citrus fruit dealer to discard, dump, or destroy without reasonable cause any citrus fruit received by such citrus fruit dealer;

(4) For any citrus fruit dealer to make, for a fraudulent purpose, any false or misleading statement concerning the condition, quality, quantity, or disposition of, or the condition of the market for, any citrus fruit which is received by such citrus fruit dealer or bought or sold or contracted to be bought or sold by such citrus fruit dealer; or the purchase or sale of which is negotiated by such citrus fruit dealer; or to fail or refuse truly and correctly to account and make full payment promptly in respect of any such trans-

action in any such citrus fruit to the person with whom such transaction is had, or to fail or refuse on such account to make full payment of such amounts as may be due thereon, or to fail without reasonable cause to perform any specification or duty express or implied arising out of any undertaking in connection with any such transaction;

(5) For any citrus fruit dealer to knowingly buy, sell, receive, process, or handle stolen citrus fruit.

History.—§64, ch. 25149, 1949; sub. §(5) am. §10, ch. 26484, 1951.

601.641 Fraudulent representations, penalties.—

(1) It shall be unlawful for any person, firm, association or corporation to claim or represent to be a licensed citrus fruit dealer, or a bonded citrus dealer unless such person, firm, association or corporation is licensed and bonded under the laws of Florida.

(2) It shall be unlawful for any person, firm, association or corporation to advertise falsely as to his status as a seller of citrus fruit or to make any false claim as to the status of such seller of citrus fruit, or to make any false claim as to the condition, grade, quality, quantity, or producer's name and address of any citrus fruit sold by any such person, firm, association, or corporation.

(3) It shall be unlawful for any person, firm, association or corporation licensed under chapter 601 to advertise or to use on his letterhead, or on any advertising material, or in any way pretend to be a bonded shipper unless said person, firm, association or corporation has filed and had approved a performance bond in addition to the bond required under chapter 601.

(4) This section is supplemental, making provisions in addition to any other provisions of law and shall be construed liberally.

(5) Any person, firm, association or corporation violating any of the provisions of this section shall be punished by fine not exceeding \$500 or by imprisonment not exceeding 6 months or by both such fine and imprisonment. Such criminal penalties shall be in addition to any other penalties provided by law. If the violator be a licensed citrus fruit dealer then such license may be revoked or suspended in the manner provided by § 601.67.

History.—§§1-5, ch. 57-4; (2) a. by §1, ch. 61-92.

601.65 Liability of citrus fruit dealers.—If any citrus fruit dealer violates any provisions of this law he shall be liable to the person injured thereby for the full amount of damages sustained in consequence of such violation. Such liability may be enforced either (1) by complaint to the commissioner, as provided in §601.66 or (2) by suit in any court of competent jurisdiction; but this section shall not in any way abridge or alter the remedies now existing at common law or by statute, and these provisions are in addition to such remedies.

History.—Comp. §65, ch. 25149, 1949.

601.66 Complaints of violations by citrus fruit dealers; procedure.—Any person complaining of any violation of any of the provisions of this chapter by any citrus fruit dealer during any shipping season may at any time prior to the expiration of ninety days immediately following the end of such shipping season apply to the commissioner by complaint, which shall briefly state the facts; whereupon, if in the opinion of the commissioner the facts therein contained warrant such action, a copy of the complaint thus made shall be forwarded by the commissioner to the citrus fruit dealer, who shall be called upon to satisfy the complaint or to answer it in writing within a reasonable time to be prescribed by the commissioner. After an opportunity for hearing on a complaint, the commissioner shall determine whether or not the citrus fruit dealer has violated any of the provisions of this chapter. If, after hearing on a complaint made by any person under this section, the commissioner determines that the citrus fruit dealer has violated any provisions of this chapter, he shall, unless the offender has already made reparation to the person complaining, determine the amount of damage, if any, to which such person is entitled as a result of such violation and shall make an order directing the offender to pay to such person complaining such amount on or before the date fixed in the order. If any citrus fruit dealer does not comply with an order for the payment of money within the time limited in such order, the complainant, or any person for whose benefit such order was made, may within ninety days from the date of the order, file in any court of competent jurisdiction complaint, setting forth briefly the causes for which he claims damages and the order of the commissioner in the premises. Such suit in such court shall proceed in all respects like other civil suits for damages except that the successful party in the proceedings before the commissioner of agriculture shall not be liable for costs in such court nor for costs in any subsequent stage of the proceedings, unless they accrue upon his appeal. In any suit between the same parties involving the same facts as were involved in a proceeding under this chapter, the findings and order of the commissioner hereunder shall be prima facie evidence of the facts herein stated, and in any such suit if the party who was successful before the commissioner of agriculture finally prevails, he shall be allowed a reasonable attorney's fee to be taxed and collected as a part of the costs of the suit.

601.67 Disciplinary action by commissioner with reference to citrus fruit dealer's license.—The commissioner may, after notice and hearing, impose a fine not exceeding \$50,000.00 against any citrus fruit dealer, which fine, when imposed and paid, shall be deposited by the commissioner in the general inspection trust fund, or in the alternative, the commissioner may revoke or suspend the license of

any such dealer when he shall be satisfied that such dealer has violated any of the provisions of this chapter or has:

(1) Obtained a license by means of fraud, misrepresentation, concealment, or through the mistake or inadvertence of the commission;

(4) Made, printed, published, distributed, or caused, authorized, or knowingly permitted the making, printing, publication or distribution of false statements, descriptions, or promises of such a character as to reasonably induce any person to act to his damage or injury, if the said citrus fruit dealer then knew, or, by the exercise of reasonable care and inquiry, could have known of the falsity of such statements, descriptions or promises;

(5) Knowingly committed or been a party to any material fraud, misrepresentation, concealment, conspiracy, collusion, trick, scheme, or device whereby any other person lawfully relying upon the word, representation, or conduct of the citrus fruit dealer shall act to his injury or damage;

(6) Committed any act or conduct of the same or different character of that hereinabove enumerated which shall constitute fraudulent or dishonest dealing;

(7) Violated any of the provisions of §§506.19 through 506.28, both sections inclusive.

Whenever any administrative order has been made and entered by the commissioner, imposing a fine pursuant to this section, said order shall specify a time limit for payment thereof, not exceeding fifteen days, and upon failure of the dealer involved to pay said fine within said time, the citrus fruit dealer's license of such dealer shall become automatically suspended; and whenever order is entered suspending such license for a definite period of time, and the end of any shipping season shall occur during the period of such suspension, such suspension order shall continue and be effective into the ensuing shipping season and until the entire period of time set forth in such order has elapsed; and whenever any such administrative order of the commissioner is sought to be reviewed by the offending dealer involved in a court of competent jurisdiction, such administrative order shall be subject to any and all orders that may be entered by such court or courts, but if such court proceedings should finally terminate in such administrative order of the commissioner being upheld or not quashed, such order shall thereupon, upon the filing with the commissioner of a certified copy of the mandate or other order of the last court having to do with the matter in the judicial process, become immediately

effective and shall then be carried out and enforced notwithstanding such time will be during a new and subsequent shipping season from that during which the administrative order was first originally entered by the commissioner.

Any action of the commissioner with reference to the revocation or suspension of any license granted under the provisions of this law may be reviewed by certiorari by the appropriate circuit court; but provided, however, any administrative order of the commissioner issued under the provisions of §§601.66-601.68, or 601.70 shall be deemed to have been issued in the county wherein the licensee has his main office, as disclosed in his application for citrus dealer's license.

(2) The commissioner shall cause the said formula to be examined and the said sample to be analyzed and if there shall be found in either any ingredient the use of which upon or in the processing of such citrus fruit shall render the same dangerous to health or otherwise unfit for human consumption, or injurious to such fruit or its keeping qualities, then such composition shall not be used on citrus fruit and the manufacturer shall be denied the license hereinafter required.

(3) Likewise, if the process followed in applying or using the said soaps, oils, waxes, gases, gas-forming materials, and other similar compositions and the component parts thereof, on or in the processing of citrus fruits as furnished by the manufacturer, is found to be injurious to citrus fruit or to its keeping qualities, then such soaps, oils, waxes, gases, gas-forming materials and other similar compositions, and the component parts thereof, shall not be used on citrus fruits and the manufacturer shall be denied the license hereinafter required.

(4) If such composition is found suitable for use on or in the processing of citrus fruits, and the process is likewise found suitable for use on or in the processing of citrus fruits, then such composition shall be authorized for use on or in the processing of citrus fruits and the manufacturer shall be licensed as hereinafter provided.

(5) Thereafter the commissioner of agriculture shall, from time to time, cause samples of such compositions to be taken at the manufacturer's place of business or at the place being used and samples of fruit on or in the processing of which such composition has been used, at such times and places as the same may be found, and shall cause the same to be analyzed and examined and, if said composition shall be found to violate any of the conditions hereinabove made a prerequisite to the issuance of the license, or if it be found to vary in any material or substantial degree from the formula therefor as filed with the commissioner of agriculture, then such composition shall not be used on citrus fruits and the manufacturer thereof shall be subjected to the penalties of this chapter; provided, however, that the formula so filed with the commissioner of agriculture shall be held as confidential and shall only be divulged to the said commissioner or his duly authorized representatives or upon orders of a court of competent jurisdiction when necessary in the enforcement of this section.

(6) Likewise the commissioner shall, from time to time, cause inspection to be made at the packing house or other place where said soaps, oils, waxes, gases, gas-forming materials, and other similar compositions, and the component parts thereof, are being used in the processing of citrus fruit and, if the application of said soaps, oils, waxes, gases, gas-forming materials, and other similar compositions, and the component parts thereof, shall be found to be injurious to the citrus fruit, or to the keeping qualities thereof, the manufacturer shall be advised thereof and, if such condition is not remedied within a reasonable time, the commissioner shall be authorized to cancel the license of the manufacturer to sell or license the use of such soaps, oils, waxes, gases, gas-forming materials, and other similar compositions, and the component parts thereof, on or in the processing of citrus fruits.

(7) Before offering any such soaps, oils, waxes, gases, gas-forming materials and other similar compositions, or the component parts

thereof, for sale or use on or in the processing of citrus fruits, the manufacturer thereof shall first procure from the commissioner of agriculture a license to manufacture and sell or license the use of the same. Each manufacturer shall pay to the commissioner a fee of ten dollars per annum. All such license fees collected hereunder shall be paid by the commissioner into the state treasury monthly to the credit of the general inspection trust fund and appropriated and made available for defraying the expenses incurred in the administration of this law.

601.76 Manufacturer to furnish formula, etc.—

(1) Every manufacturer, before selling or offering for sale, or licensing or offering to license for use any coloring matter, shall furnish the commissioner with the complete formula followed in the manufacture of such coloring matter (including, in event of the use of a non-certified dye, the formula for such dye), together with a sample of such coloring matter in such amount as the commissioner may direct.

(2) He shall likewise furnish the commissioner with a complete description of the process followed in applying said coloring matter to the peel of citrus fruit, including the following:

(b) An explanation of the amount and kind of heat used in said process, how applied to the citrus fruit and for what period of time;

(c) A specific showing as to whether or not the coloring matter used in said process on

the peel of the citrus fruit is of such nature or operates in such manner that the color of citrus fruit which has been treated with such coloring matter under such process is stable or changeable.

(3) The commissioner shall cause the said formula to be examined, and the said sample to be analyzed, and, if there shall be found in either any ingredient prohibited by law, or any other ingredient known to be dangerous to health under the conditions of its use, or if the said coloring matter shall vary in any material or substantial degree from the formula so furnished, then such coloring matter shall not be used on citrus fruits, and the manufacturer shall be denied the license required.

(4) Likewise, if the process followed in applying said coloring matter to the peel of citrus fruits as furnished by the manufacturer to the commissioner is found to be injurious to citrus fruit or to its keeping qualities or to result in the creation of an unstable and unsatisfactory color on the peel of citrus fruit, then such coloring matter shall not be used on citrus fruits and the manufacturer shall be denied the license required.

(5) If such coloring matter is found suitable for use in food, and the process is likewise found suitable for use on citrus fruit, both in respect to effecting no injury to said fruit or its keeping qualities and in resulting in the creation of a stable and satisfactory color on the peel thereof, then the coloring matter shall be authorized for use on citrus fruit, and the manufacturer shall be licensed as provided in this chapter.

History.—Comp. §76, ch. 25149, 1949.

601.77 Subsequent analysis of coloring matter, etc.—

(1) Thereafter the commissioner shall, from time to time, cause samples of coloring matter to be taken at the manufacturer's place of business, and shall cause the same to be analyzed, and if the said coloring matter shall be found to contain any ingredient prohibited, or if it varies in any material or substantial degree from the formula therefor as filed with the commissioner, then such coloring matter shall not be used on citrus fruit, and the manufacturer thereof shall be subjected to the penalties of this law; provided, however, that the formula so filed with the commissioner shall be held as confidential, and shall only be divulged to the commissioner or his duly authorized representatives or upon orders of a court of competent jurisdiction when necessary in the enforcement of this law.

(2) Likewise the commissioner shall from time to time cause inspections to be made at the packing houses or other places where said coloring matter is being applied to citrus fruits and, if the application of said coloring matter to citrus fruits through the use of said process or otherwise shall be found to be injurious to the citrus fruits, or to the keeping qualities thereof, or to result in an unstable and unsatisfactory color, the manufacturer shall be advised thereof, and, if said condition is not

remedied, the commissioner may, after notice and hearing, cancel the license of the manufacturer to manufacture and sell or license the use of such coloring matter.

History.—Comp. §77, ch. 25149, 1949.

601.78 Manufacturer to procure license and post bond.—Before offering any such coloring matter for sale or use the manufacturer thereof shall first procure from the commissioner a license to manufacture and sell or license the use of the same. Each manufacturer shall pay to the commissioner a fee of ten dollars per annum. All such license fees collected hereunder shall be paid by the commissioner into the state treasury monthly to the credit of the general inspection trust fund and are appropriated and made available for defraying the expenses incurred in the administration of this law. At the same time the manufacturer shall execute and deliver to the commissioner a cash bond or surety bond executed by such manufacturer as principal and by a surety company qualified and authorized to do business in this state, as surety, in the amount of five thousand dollars. Said bond shall be in the form approved by the commissioner and shall be conditioned to guarantee that such coloring matter is free from any matter or ingredient that is harmful to the quality of such citrus fruit and is free from any ingredient that is in any way injurious to health. Said bond shall be to the governor of the state and his successors in office and the aggregate accumulated liability under any such bond shall not exceed the amount named therein. Any person claiming to be injured by a breach of any of the conditions of said bond may maintain an action on the same against the principal and surety named in said bond, or either of them, and any judgment against the principal and surety, or either of them, in any such action shall include costs.

601.89 Citrus fruit; when damaged or seriously damaged by freezing.—

(1) Citrus fruit shall be deemed to be seriously damaged by freezing when:

(a) It causes marked drying to extend into the segments of oranges and grapefruit more than one-half inch at the stem end, or into segments of the mandarin groups more than one-fourth inch at the stem end, or more than the equivalent of these respective amounts by volume when occurring in other portions of the fruit;

(b) It causes, before the drying process develops, other injury as evidenced by

1. A water-soaked appearance or evidence of previous water soaking;
2. Broken-down juice cells;
3. Mushy condition;
4. Open spaces in the pulp;

or when any condition or combination of conditions, as described in 1., 2., 3., and 4., may be interpreted as affecting any portion or portions of the fruit with seriousness equal to that defined in paragraph (a) above.

(2) Citrus fruit shall be deemed to be damaged by freezing when:

(a) It causes marked drying to extend into the segments of oranges and grapefruit more than one-quarter inch at the stem end or into segments of the mandarin groups more than one-eighth inch at the stem end or more than the equivalent of these respective amounts by volume when occurring in other portions of the fruit;

(b) It causes, before the drying process develops, other injury as evidenced by

1. A water-soaked appearance or evidence of previous water soaking;
2. Broken-down juice cells;
3. Mushy condition;
4. Open spaces in the pulp;

or when any condition or combination of conditions, as described above in 1., 2., 3., and 4., may be interpreted as affecting any portion or portions of the fruit with seriousness equal to that defined in paragraph (a) of this subsection.

History.—Comp. §89, ch. 25149, 1949.

601.90 Frozen citrus fruit; power of commission.—

(1) Whenever freezing temperatures of sufficient degree to cause serious damage to citrus fruit occur in any section of the citrus producing areas, the commission shall determine whether or not serious damage has resulted to citrus fruit from such freezing temperatures.

(2) If the commission does determine that serious damage, as defined in §601.89, has been caused by such temperature to citrus fruit, it may at any time within ninety-six hours after the occurrence of such freezing temperature order either or both of the following:

(a) That no citrus fruit shall be sold or offered for sale, or transported for a period not to exceed ten days after such order becomes effective.

(b) That, without an order under paragraph (a) above or subsequent to the termination of any such order for a period not to exceed fourteen days, no citrus fruit showing damage, as defined by §601.89, caused by freezing temperatures shall be sold or offered for sale or transported.

(3) Such order or orders shall not affect or be applicable to any citrus fruit which was prepared for shipment and a certificate of inspection issued thereon prior to the time the order or orders herein provided for become effective.

(4) No order or orders hereunder shall apply to citrus fruit transported to canning or concentrating plants for the purpose of processing.

(5) Any order, rule, or regulation of the commission issued pursuant to this section shall become effective at a time to be fixed by the commission.

History.—§90, ch. 25149, 1949; (2)-(5) by §1, ch. 59-7.

601.901 Amount of freeze damage; frozen concentrated products.—

(1) Whenever the Florida citrus commission, pursuant to §601.90, as may be amended, determines that serious damage has resulted to citrus fruit from freezing temperatures, it shall, any time thereafter, also determine and establish the maximum freeze damage of citrus fruit to be used in any frozen concentrated products, including concentrate for manufacturing purposes, to the end that such maximum freeze damage as affecting the quality of such processed products may enhance the value thereof and not depreciate the value thereof.

(2) Any order, rule, or regulation adopted by the Florida citrus commission pursuant hereto shall become effective at a time to be fixed by the commission but not less than twenty-four hours from the time same is adopted, irrespective of the provisions of §601.12.

(3) This section shall not repeal any other authority now or hereafter delegated to the Florida citrus commission, but shall be deemed as additional and supplemental authority vested in the Florida citrus commission and should any part of this section be held to be unconstitutional or unenforceable by any court of competent jurisdiction, the decision of such court shall not affect the remaining portions of this section. It is the intention of the legislature that this section would have been adopted had such unconstitutional or such unenforceable provision not been included herein.

History.—§§1-3, ch. 59-21.

601.91 Unlawful to sell, etc., frozen citrus.—

(1) It shall be unlawful at any time for any person to sell or offer for sale, to transport, to prepare, receive or deliver for transportation or market (except for canning, concentrating or by-product purposes within the state) any citrus fruit seriously damaged by freezing, as defined in §601.89. Not more than fifteen percent by count of the citrus fruit in any one container or bulk lot may be seriously damaged

by freezing injury; but not more than one-third of this tolerance shall be allowed for citrus fruit now or hereafter deemed adulterated by federal law or regulation.

(2) No lot of citrus fruit seriously damaged by freezing may be mixed with other lots of citrus fruit which are free from damage by freezing resulting in concealment of inferior fruit and thereby reducing the percentage of defective fruit in the seriously damaged lot to within the tolerance permitted for error in grading only.

(3) The manner and method of drawing samples and conducting tests under this section shall be prescribed by rules and regulations of the commission. The inspection in the state of all citrus fruits seriously damaged by freezing and the enforcement of this section and of rules, regulations, and orders made by the commission pursuant to and under authority of this section shall be under the direction, supervision, and control of the commissioner of agriculture and his duly authorized agents and inspectors who are qualified under existing laws to inspect for grade and maturity; and all citrus fruits that may be found to be seriously damaged by freezing, as defined by §601.89, upon inspection and testing shall be seized and after seventy-two hours' notice to the owner thereof may be confiscated and destroyed under the supervision of the citrus fruit inspector at the expense of the owner unless previous disposition is made by the owner or other person who offered the same for inspection, all the provisions of this section being subject to such reasonable rules and regulations as may be promulgated by the commission.

History.—Comp. §91, ch. 25149, 1949.

601.94 Fruit containing arsenic; powers of inspection.—Citrus fruit inspectors are authorized:

(1) to inspect citrus fruit, except grapefruit, for arsenic content at any packing house, canning plant, concentrating plant, or other place where citrus fruit, except grapefruit, is being received or prepared for sale or transportation, and

(2) to enforce the provisions of these arsenic laws under the direction and supervision of the commissioner of agriculture in accordance with the law and rules and regulations prescribed by the said commissioner.

History.—Comp. §94, ch. 25149, 1949.

601.95 Seizure of citrus fruit containing arsenic.—Whenever any citrus fruit inspector shall find citrus fruit, except grapefruit, at any packing house, canning plant, or concentrating plant, or other place that the same is being received or prepared for sale or transportation which citrus fruit shall, when tested, show an abnormal and excessively high ratio of total soluble solids of the juice thereof to the anhydrous citric acid thereof indicating the presence of arsenic therein, said inspector shall at once seize and take possession of said citrus fruit, except grapefruit, pending the procuring of the chemical analysis provided for in this chapter notifying the manager or other person in charge of said packing house, canning plant, or concentrating plant, or other place where the said fruit is being received of such seizure. It is unlawful for the manager of said packing house, canning plant, or concentrating plant, or other place where the fruit is being received, or the owner of said citrus fruit, or any person whomsoever to sell, transport, or in any way move or dispose of any of said fruit from the time of seizure thereof until after the making of said chemical analysis and the receipt of the chemist's report thereon; provided that no citrus fruit so seized may be held by any inspector more than ninety-six hours after the time of seizure thereof unless the same shall be shown by the chemist's analysis to contain arsenic.

History.—§95, ch. 25149, 1949; am. §10, ch. 26484, 1951.

601.96 Seized fruit; taking samples for analysis.—Upon the making of seizure of any citrus fruit as provided in §601.95, the inspector making said seizure shall immediately draw samples therefrom, as shall be provided for by regulations to be issued by the commissioner of agriculture, drawing said samples either from the packing house, canning plant, or concentrating plant bins, or elsewhere in the packing house, canning plant, or concentrating plant, or from field boxes, or vehicles delivering said citrus fruit to said packing house. Such samples so drawn by said inspector shall be transported with all possible haste to such chemist as may be designated by the commissioner of agriculture for the making by such chemist of a chemical analysis thereof to determine whether or not the said citrus fruit contains arsenic. Said chemist shall make said analysis with all the proper haste and report by the quickest means available the result of said analysis as soon as the same is completed to the inspector making the seizure. If the said analysis shall show that the said citrus fruit contains no arsenic, the inspector shall release the fruit from seizure as soon as he receives the report of the chemist thereon.

History.—Comp. §96, ch. 25149, 1949.

601.97 Destruction of certain fruit containing arsenic.—All citrus fruit, except grapefruit, prepared for sale or transportation, or which is being prepared for such purpose, or which has been or is being delivered for sale, or transportation that may be shown by the chemical analysis provided for in §601.96 to contain

arsenic, or any compound, or derivative of arsenic shall be destroyed by the inspector making seizure of the same, or by any citrus fruit inspector, or by the sheriff of the county where found, as may be provided by regulations prescribed by the commissioner of agriculture. Every such person in Florida shall specifically advise and notify the buyer of any citrus fruit or the canned or concentrated product thereof produced and canned or concentrated in any state or country other than Florida which is being sold, quoted, offered for sale, or shipped to such buyer that the said citrus fruit or the canned or concentrated products thereof were not produced in Florida, and the failure to so notify and advise such buyer will be construed as a violation of this section.

601.0109 Legislative findings of fact; strict enforcement of maturity standards in public interest.—

(1) FINDINGS.—(a) The legislature finds and determines and so declares that, for many years past, the shipment of raw, immature citrus fruit, generally designated as "green fruit," from the state to consuming markets has caused the loss of millions of dollars to the citrus growers of Florida; also has resulted in the lowering of the standard of living of many of its citizens; adversely affected the economic conditions of the entire state; reduced the receipts in the collection of ad valorem taxes, thereby reducing revenue needed by counties and cities; caused financial loss to the growers and shippers and processors who did not engage in the shipment of green fruit; and that such practice each year hurts the good name and reputation of all of Florida citrus.

(b) The legislature, after extensive hearings, and after many hearings attended by its citrus committees immediately prior to the convening of the 1949 session at various citrus industry meetings throughout the citrus area, and after having had the advice and counsel of the best qualified and most expert technical advisers in the Florida citrus industry, and after having had the benefit of the advice of some of the most expert and best informed growers, shippers, and processors, and after having made a careful study of the reaction of all citrus fruits by reason of changes in climatic conditions, and having found that regardless of the color of an orange or the color of a grapefruit or regardless of the juice content of such fruit, finds such fruit may be immature and unfit for human consumption. It is also recognized by experts that there are certain factors entering into the maturity of fruit which are not now measurable by chemical tests. There is a change brought about by time and nature in the blending of solids and acids into juice which characterizes maturity but not in a manner susceptible to chemical determination. Because of this, it is scientifically sound that the minimum requirements for solids and the ratio of solids to anhydrous citric acid in determining maturity be relaxed as the season progresses and the raw, immature flavor characteristic of fruit early in the season has disappeared through the workings of time and nature. Therefore, the legislature hereby finds and determines and so declares that, until nature has completed its process of removing the raw, immature flavor,

such citrus fruit will still be immature and unfit for human consumption and, when marketed, will result in dissatisfied consumers who will cease purchasing Florida citrus for some time and will classify that fruit which they had purchased as "Florida green fruit."

(c) The legislature finds and determines and so declares that there is no better method of determining when such raw and immature flavor leaves Florida citrus than by the standards set forth in this chapter; and that experience has demonstrated over a period of many years, by the best available records and under various climatic conditions and various seasonal changes, that generally speaking prior to November 1 of each season oranges which do not have a total soluble solids of nine percent with a minimum ratio of total soluble solids, as set forth in §601.20, still have a raw, immature flavor; and that, beginning on or about November 1 of each season, such raw, immature flavor gradually disappears from the orange and by November 15 the same orange may have a still lower soluble solids percentage and not be immature; and after November 15 can still have a further lower soluble solids percentage without being immature; and by December 1 nature has completed its process of removing the raw, immature flavor which might have existed prior to that time, provided such fruit meets the other minimum maturity requirements set forth in this chapter. On December 1 oranges, while not being sufficiently mature to ship in fresh form, may be safely used in canning or concentrating by being blended with fruit of higher maturity without the finished product having a raw, immature flavor. On December 1 grapefruit, while not being sufficiently mature to ship in fresh form, may be safely used in canning or concentrating by blending with fruit of higher maturity or by the addition of additives, without having a raw, immature flavor.

(d) The legislature finds and determines and so declares that the enforcement of the maturity standards, as set forth in this chapter, will not result in preventing any grower from marketing his fruit at some time during the marketing season, whenever nature has removed the raw, immature flavor; and, if there is a delay in such marketing, it will result in higher prices for the entire season, bringing additional millions of dollars to the growers of Florida and resulting in benefit to all growers, including the grower or growers who were delayed a short time in the shipment of their fruit.

(2) **DECLARATION.**—Therefore, the legislature declares that the strict enforcement of the maturity standards, as set forth in this chapter, is definitely in the public's interest and for the public's welfare, and that no citrus should be shipped from Florida and sold in the consuming markets which has a raw, immature flavor, and which could be classed by the consuming public as "Florida green fruit."

History.—Comp. §109, ch. 25149, 1949.

601.0110 Fruit may be sold or transported,

etc., direct from producer.—Any citrus producer may transport his own citrus fruit or any citrus fruit may be sold or purchased and transported in interstate or intrastate commerce in truck-load lots direct from a producer and any such fruit so sold, purchased or transported need not be processed, handled by any packing house, washed, polished, graded, stamped, labeled, branded, placed in containers or otherwise prepared for market as may be provided herein. Such fruit shall be certified at the time of inspection as tree run grade of fruit, but shall, otherwise, remain subject to the maturity standards and all other conditions, restrictions, embargoes and other requirements of this chapter and shall be inspected for such compliance as all other fruit is inspected at such convenient locations as may be determined by the commissioner. Any such fruit violating any of the provisions of this chapter, or any rule or regulation of the commission made pursuant to this chapter, but not inconsistent with this section, may be seized, condemned and destroyed as provided herein. At the time of such inspection all fees, assessments and excise taxes provided in this chapter shall be paid and collected at the same rate as paid by all other fresh fruit growers or shippers.

History.—Comp. §109½, ch. 25149, 1949.

History.—Comp. §112, ch. 25149, 1949.

601.0112 Exemption.—The provisions of this chapter shall not apply to any citrus products heretofore processed or which may be processed prior to August 1, 1949, from the 1948-49 citrus crop.

History.—Comp. §1, ch. 25195, 1949.

601.0114 Permits for experimental shipping and sale of orange juice concentrate.—

(1) The Florida citrus commission is hereby authorized and empowered to issue special permits for experimental purposes for the shipping and sale of frozen concentrated orange juices of any degree Brix less than 41.8 degrees or more than 44 degrees Brix and in any size or type of container, and shall promulgate such rules and regulations as it may deem necessary to control such permits. (a) The label on each container shall include words and figures relative to the proper reconstitution, such as "Florida 5 to 1 concentrate" in conspicuous type consistent with the size of the container.

(b) The applicant shall designate

1. Type and size of containers;
2. Proposed labeling;

3. Proposed avenue of distribution; and
4. Proposed volume of pack.

(c) The results of the experimental shipments and sales shall be furnished the commission for the information of the industry.

(2) All frozen concentrated orange juices to be shipped under said permits shall be inspected as now provided by law for the inspection of frozen concentrated orange juices and all fees and taxes paid in the manner and as provided by law.

(3) All frozen concentrated orange juice shall conform to the restrictions and provisions contained in §601.0108, except as to Brix.

History.—Comp. §§1-3, ch. 57-25.

601.0115 Regulation by commission of standards of frozen concentrated orange juice and other citrus products.—After a public hearing to be called and held by the Florida citrus commission, the said Florida citrus commission, in addition to all other powers it now possesses, which have heretofore been delegated to it by the legislature of the state, shall have the additional power to issue rules and regulations to:

(1) (a) Raise the existing minimum and/or maximum Brix requirements for frozen concentrated orange juice;

(b) Raise the existing minimum ratio of total soluble solids to anhydrous citric acid requirement and to change the existing maximum ratio of total soluble solids to anhydrous citric acid requirement for frozen concentrated orange juice;

(c) Change the existing maximum recoverable oil content requirement for frozen concentrated orange juice;

(2) For all other citrus products over and above the minimum requirement of law, to:

(a) Raise the existing minimum percent of total soluble solids;

(b) Raise the existing minimum ratio of total soluble solids to anhydrous citric acid requirements;

(c) Change the percentage of anhydrous citric acid requirements;

(d) Change the percentage of recoverable oil;

Any action under this section shall not be taken until after a public hearing has been called by the vote of nine members of the Florida citrus commission and any regulation adopted pursuant to this section shall be by the affirmative vote of at least nine members of the Florida citrus commission.

History.—§1, ch. 59-14; reenacted and am. §1, ch. 62-6.

Such complaint shall be filed within six months from the date of the last transaction between the complaining producer and the dealer complained against. Upon filing such complaint in the manner herein provided, the commissioner shall investigate the charges made; whereupon, if in the opinion of the commissioner the facts contained in the complaint warrant such action, a copy of the complaint shall be forwarded by the commissioner to such dealer who shall be called upon to answer the complaint in writing within a reasonable time to be prescribed by the commissioner. At his discretion the commissioner may order a hearing before him giving the complainant and the respondent notice of the time and place of such hearing. At the conclusion of such a hearing the commissioner shall report his findings and make his order upon the matters complained of to the complainant and the respondent in each case, who shall then have fifteen days in which to make effective and satisfy the commissioner's order. If such settlement is not effected within the time aforesaid, the commissioner or the producer may maintain a civil action against the principal and surety on the bond of the party against whom the order was directed, setting forth briefly in the complaint in said civil

action the causes for which damages are complained. In any such suit, if the party who was successful before the commissioner finally prevails, he shall be allowed court costs and a reasonable attorney's fee to be taxed and collected as a part of the cost of the suit. If the order of the commissioner is against the producer and if said producer is not satisfied with such ruling, he may, upon obtaining the approval of the commissioner, commence and maintain an action against the principal and surety on the bond of the parties complained of as in any civil action, provided that no action may be maintained in any instance against the bondsman of a licensee without the written approval of the commissioner. It is further provided that if the bond thus posted is insufficient to pay in full the valid claims of producers, the commissioner shall direct that the proceeds of such bond be divided pro rata among such producers.

In the event that any such instrument shall designate two or more persons to act as proxies, a majority of such persons present at the meeting, or, if only one be present, that one, shall have all of the powers conferred by the instrument upon all the persons so designated unless the instrument shall otherwise provide.

(b) Purchase the corporate assets of any other corporation and engage in the same character of business.

(c) Acquire, enjoy, utilize and dispose of patents, copyrights and trade marks and any licenses or other rights or interests thereunder or therein.

(d) Take, hold, sell and convey such property as may be necessary in order to obtain or secure payment of any indebtedness or liability to it.

(9) (a) Guarantee, endorse, purchase, hold, sell, transfer, mortgage, pledge or otherwise dispose of the shares of the capital stock of, or any bonds, securities or other evidences of indebtedness created by any other corporation of this state or any other state or government; while owner of such stock to exercise all the

(b) Purchase, hold, sell and transfer shares of its own capital stock, provided that no corporation shall purchase any of its own capital stock except from the surplus of its assets over its liabilities including capital. (10) Do all and everything necessary and proper for the accomplishment of the objects enumerated in its certificate of incorporation or necessary or incidental to the benefit and protection of the corporation, and to carry on any lawful business necessary or incidental to the attainment of the objects of the corporation whether or not such business is similar in nature to the objects enumerated in its certificate of incorporation.

(11) (a) Contract debts and borrow money at such rates of interest not to exceed the lawful interest rate and upon such terms as it or its board of directors may deem necessary or expedient and shall authorize or agree upon, issue and sell or pledge bonds, debentures, notes and other evidences of indebtedness, whether secured or unsecured, and execute such mortgages, or other instruments upon or encumbering its property or credit to secure the payment of money borrowed or owing by it, as occasion may require and the board of directors deem expedient.

(b) Provision may be made in such instruments for transferring corporate property of every kind and nature then belonging to or thereafter acquired by such corporation, as security for any bonds, notes, debentures or other evidences of indebtedness issued or debts or sums of money owing by said corporation.

(c) In case of the sale of any property by virtue of any such instrument or of any foreclosure, the party acquiring title shall have the same rights, privileges, grants, franchises, immunities and advantages, in and by such instrument enumerated or conveyed, as belonged to and were enjoyed by the corporation executing the instrument or contracting the debt.

(12) Cooperative associations incorporated under part I of this chapter may (a) limit and regulate the right of stockholders to transfer their stock and provide terms and limitations of stock; (b) provide for the government of the association by the purely cooperative custom of one man, one vote, and (c) distribute earnings, wholly or in part, on the basis of or in proportion to the amount of property bought from or sold to its members or other customers or of labor performed for or services rendered to the association.

(13) Make gifts for educational, scientific or charitable purposes.

(14) Indemnify any person made a party to an action by or in the right of the corporation to procure a judgment in its favor by reason of

(15) Indemnify any person made a party to an action, suit or proceeding other than one by or in the right of the corporation to procure a judgment in its favor, whether civil or criminal, brought to impose a liability or penalty on such person for an act alleged to have been committed by such person in his capacity of director or officer of the corporation, or of any other corporation which he served as such at the request of the corporation, against judgments, fines, amounts paid in settlement and reasonable expenses, including attorneys' fees, actually and necessarily incurred as a result of such action, suit or proceeding, or any appeal therein, if such director or officer acted in good faith in the reasonable belief that such action was in the best interests of the corporation, and in criminal actions or proceedings, without reasonable ground for belief that such action was unlawful. The termination of any such civil or criminal action, suit or proceeding by judgment, settlement, conviction or upon a plea of *nolo contendere* shall not in itself create a presumption that any such director or officer did not act in good faith in the reasonable belief that such action was in the best interests of the corporation or that he had reasonable ground for belief that such action was unlawful.

§ 47.15 et seq., Service of process on corporations.

608.131 Stockholders' derivative actions; security for expenses.—In any action commenced or maintained by a stockholder of any domestic or foreign corporation to procure a judgment in its favor:

(1) It must be made to appear that the plaintiff is a stockholder of such corporation at the time of bringing the action and that he was a stockholder of such corporation at the time of the transaction of which he complains, or that his interest devolved upon him by operation of law.

(2) The complaint must set forth with particularity the efforts of the plaintiff to secure the initiation of such action by the board of directors of such corporation or the reasons for not having made such effort.

(3) No such action shall be discontinued, compromised or settled without the approval of the court having jurisdiction of the action. Such court in its discretion if it shall determine that the interests of the stockholders of such corporation may be substantially affected thereby,

may direct that notice, by publication or otherwise, of such proposed discontinuance, compromise or settlement be given to such stockholders. Stockholders objecting to such settlement must, within a time allowed by the court, show cause why the settlement should not be accepted and approved by the court as fair and reasonable. If notice is so directed to be given the court may determine which one or more of the parties to the action shall bear the expense of giving same in such amount as the court shall determine and find to be reasonable in the circumstances and the amount of such expense shall be awarded as special costs of the action and recoverable in the same manner as statutory taxable costs.

(4) If the plaintiff or plaintiffs hold less than five per cent of the outstanding shares or voting trust certificates of such corporation, then unless the stock or voting trust certificates held by such plaintiff or plaintiffs shall then have a fair value in excess of fifty thousand dollars, such corporation shall be entitled at any stage of the proceedings before final judgment to require the plaintiff or plaintiffs to give security for the reasonable expenses including attorneys' fees which may be incurred by it in connection with such action and by the other parties defendant in connection therewith for which such corporation may become liable under §608.13 (14), to which security such corporation shall have recourse in such amount as the court having jurisdiction of such action shall determine upon the termination of such action. The amount of such security may thereafter from time to time be increased or decreased in the discretion of such court upon showing that the security provided has or may become inadequate or excessive.

(5) If the action on behalf of the corporation is successful, in whole or in part, or if anything is received by the plaintiff or plaintiffs as the result of a judgment, compromise or settlement, the court may award the plaintiff or plaintiffs the reasonable expenses of maintaining the action, including reasonable attorneys' fees and direct him or them to account to the corporation for the remainder of the proceeds so received by him or them. This subsection shall not apply to any judgment rendered for the benefit of injured shareholders only and limited to a recovery of the loss or damage sustained by them.

History.—§1, ch. 63-304.

608.14 Capital stock; power to issue, etc.—

(1) Every corporation may issue the shares of stock authorized by its certificate of incorporation and none other. Such shares may consist of common stock of a par value stated in the certificate of incorporation, common stock of no par value, and preferred stock. Each may consist of two or more kinds, which may be divided into classes and classes into series, and each kind, class and series may have such distinguishing characteristics, including designations, preferences or restrictions as regards dividends, redemption, voting powers or

restrictions or qualifications of voting powers as shall be stated in the certificate of incorporation. Restrictions and qualifications of voting powers so imposed shall control in all cases where any vote or consent of stockholders is now or hereafter required by statute unless such statute shall expressly provide to the contrary.

(2) Shares of preferred or special stock of any class may be divided by number from time to time into and issued in designated series, and such shares of preferred or special stock of any class or series thereof shall provide for dividends at such rates, on such conditions and payable at such times and shall be subject to redemption rights at such price or prices and at such time or times as shall be stated and expressed with respect to such division by number and issuance in series, dividends and redemption rights either in the certificate of incorporation or in the resolution or resolutions providing for the issue of such stock adopted by the board of directors or duly constituted executive committee of the corporation.

(3) If the corporation so elects, it may, prior to the issuance of any shares of a series pursuant to resolution or resolutions adopted by its board of directors or executive committee as above provided file in the office of the secretary of state a certificate which shall set forth a copy of said resolution or resolutions and recite the fact of the adoption thereof and shall be signed by the secretary or assistant secretary, sealed with the seal of the corporation and executed and acknowledged by the president or a vice-president. Upon such filing, said resolution or resolutions shall become a part of the certificate of incorporation of the corporation as though amended thereby and shall be effective to designate and establish said series and to fix and determine the relative rights and preferences thereof.

History.—Comp. §1, ch. 28170, 1953; the provisions of sub. § § (1) and (2) formerly contained in §§611.06, 612.09.

608.15 Consideration for issue of stock; nonassessable stock.—Every corporation may issue and dispose of its authorized no par value shares for such consideration as may be prescribed in the certificate of incorporation, or if no consideration is so prescribed, then for such consideration as may be fixed by the stockholders at a meeting or by the board of directors when acting under general or special authority granted by the stockholders or conferred by the certificate of incorporation. Authorized shares of par value stock may be issued only for a consideration having a value, in the judgment of the board of directors, at least equivalent to the full par value of the stock so to be issued. In the absence of fraud in the transaction the judgment of the directors as to the value of any such consideration shall be conclusive. Any and all shares issued for not less than the consideration so prescribed or fixed shall be fully paid and nonassessable.

History.—Comp. §1, ch. 28170, 1953; provisions contained herein formerly covered by § § 612.10, 612.11.

608.16 Issue of partly paid shares; payment; holders' liability.—

(1) The certificate of incorporation may expressly authorize the issue of the whole or of any part of the shares as partly paid, subject to calls thereon until the whole consideration therefor shall have been paid. The corporation may declare and pay dividends upon the basis of the amount actually paid on the respective shares. If upon the certificate issued to represent such stock the amount unpaid thereon shall be specified, the holder thereof shall not be subject to any liability to the corporation except for the payment of the amount shown by such certificate as unpaid.

(2) Subscriptions to the shares of a corporation shall be paid at such times and in such installments as may be provided in the contract of subscription or in the absence of such provisions in such contract, as the board of directors may by resolution require. Such remedies in case of default on any subscription as may be provided for in the contract of subscription may be enforced according to their tenor, but if no such remedy is provided for in such contract, then if default shall be made in the payment of any installment of such subscription and shall continue for thirty days, the corporation may sell at public auction a sufficient number of shares of such subscriber to pay the same, with incidental charges. If a receiver of the corporation has been appointed, all unpaid subscriptions shall be paid at such times and in such installments as the receiver or the court may direct, subject, however, to the provisions of the subscription contract.

608.17 Amount of capital.—The amount of capital of every corporation under part I of this chapter shall be the sum of the par value of all outstanding par value shares, plus the aggregate consideration received for all outstanding no par value shares, to which shall be added such additional amounts as the stockholders or the board of directors have, from time to time, transferred to capital.

History.—Comp. §1, ch. 28170, 1953; provisions contained herein formerly §612.21.

608.18 Amendments; reduction of capital; distribution.—

(1) Any corporation having capital stock may amend its certificate of incorporation in any respect, provided that only such provisions shall be inserted by amendment as would be lawful and proper in an original certificate of incorporation made at the time of making such amendment. Every amendment shall be approved by the board of directors, proposed by them to the stockholders and approved at a stockholders' meeting by such proportion, not less than a majority, of the stock entitled to vote thereon as may be provided in the certificate of incorporation. Where the proposed amendment would decrease the amount payable as a preference, or otherwise adversely affect the rights of any kind, class or series

of stock, the holders of record of each such kind, class or series shall be entitled to vote separately on such amendment whether by terms of the certificate of incorporation entitled to vote or not and the separate affirmative vote of a majority of each such kind, class or series shall be included in the affirmative vote herein required.

(2) A copy of the proposed amendment with thereon a certificate of its approval by the stockholders sealed with the corporate seal, signed by the secretary or assistant secretary and executed and acknowledged by the president or a vice-president shall be prepared and filed with the secretary of state in the manner required for certificates of incorporation.

(3) The certificate of incorporation shall be amended and the amendment incorporated therein when the amendment has been filed with the secretary of state, approved by him and all fees and filing taxes have been paid.

(4) Without in any way limiting the authorization contained in the first sentence of subsection (1) of this section, the amendment may increase or reduce by any amount the authorized number of shares of any kind, class or series of stock, change the par value of shares of any class having par value, or change shares of a class having par value into the same or a different number of shares without par value, or change shares of a class without par value into the same or a different number of shares having par value, authorize the change of any kind, class or series into any other kind, class, or series, or authorize the issue of any kind, class or series of stock not previously authorized.

(5) No amendment shall reduce capital to an amount less than the sum of (a) the aggregate par value of all par value shares to remain outstanding, plus (b) the aggregate consideration received for all no par value shares to remain outstanding, after the reduction. In no case shall the capital be reduced below five hundred dollars.

(6) Every reduction in capital involving any distribution among stockholders shall specify the method of such distribution and said distribution shall be made in accordance with the provisions of the certificate of incorporation designating the rights, preferences and restrictions of the respective kinds, classes or series of stock. No such distribution shall be made which would reduce the assets of the corporation below the amount of its liabilities including capital as reduced.

(7) Unless specifically otherwise provided, (a) no amendment or reduction in capital shall operate to reduce the total authorized capital, and (b) whenever any shares of stock are redeemed or otherwise retired, other shares may be issued in lieu thereof in compliance with the requirements of §608.15.

(8) If all the directors and all the stockholders of the corporation sign a written statement manifesting their intention that a certain amendment of the certificate of incorporation

therein set forth be made, then upon the filing of such written statement in the office of the secretary of state, the approval thereof by him, and the payment of all fees and filing taxes, the certificate of incorporation of the corporation shall be thereby amended in accordance with the proposed amendment set forth in said written statement, with the same effect as though the requirements set forth in subsections (1)-(3) of this section had been satisfied. The provisions of subsections (4)-(7) inclusive, of this section shall be applicable to amendments effected in accordance with this subsection.

608.19 Sale of assets and franchises.—

(1) Every corporation may, by action taken at any meeting of its board of directors, sell, lease, or exchange all of its property and assets, including its good will and its corporate franchises or any property or assets essential to its corporate business, upon such terms and conditions as its board of directors deem expedient, after authorization by affirmative vote given at a meeting or by the written consent, of stockholders of record holding at least a majority of the stock entitled to vote on such proposal. The certificate of incorporation may, however, require the vote or written consent of a greater proportion than a majority and the separate vote or consent of a majority or greater proportion of any kind, class or series of stock.

(2) Unless the certificate of incorporation shall provide otherwise, no vote or consent of stockholders shall be necessary for a transfer of assets by way of mortgage, in trust or in pledge to secure indebtedness of the corporation.

History.—Comp. §1, ch. 28170, 1953; provisions contained herein formerly §612.35.

608.20 Consolidation and merger of domestic corporations.—

(1) Any two or more corporations existing under the laws of this state may consolidate into a new corporation or merge into any one of the constituent corporations, as shall be specified in the consolidation or merger agreement. The boards of directors of such corporations, or the holders of a majority of the voting stock of any such corporation present at a meeting however duly called or held, as desire to consolidate or merge may enter into an agreement signed by a majority of the members of the several boards of directors or, as the case may be, by the person or persons designated by such majority of the voting stock at such meeting, under the corporate seals of the respective corporations, prescribing the terms and conditions of consolidation or merger, the mode of carrying the same into effect, and stating such other facts as are necessary to be set out in articles of incorporation, as well as the manner and basis of payment for the shares of each of the constituent corporations, whether with cash, bonds, notes or stock of the

proposed consolidated or merged corporation, with such other details and provisions as necessary or desirable. The agreement may state as the amount of capital with which the consolidated or continuing corporation will begin business any amount not less than the sum of the par value of all par value stock plus the aggregate value of consideration received for all no par value stock to be outstanding when the merger or consolidation is completed. In no case shall the amount of capital with which the consolidated or merged corporation will begin business be less than five hundred dollars.

(2) The agreement shall be submitted to a meeting of stockholders of record of each corporation. Notice of the time, place and purpose of the meeting shall be given to every stockholder of record, whether entitled to vote or not. Upon adoption of the agreement by the holders of such proportion as required by the certificate of incorporation, but not less than a majority, of the stock entitled to vote thereon, the secretary or assistant secretary of each corporation shall certify the fact of that approval on the agreement under the seal of the corporation. The agreement so adopted and certified shall, for each corporation, be signed by the president or vice-president and secretary or assistant secretary under its corporate seal, and acknowledged by the president or vice-president to be the act, deed and agreement of the corporation. The agreement so certified and acknowledged by each corporation shall be filed in the office of the secretary of state and, when approved by him and all fees and taxes required thereon by this chapter have been paid, the consolidation or merger shall be effective.

608.21 Consolidation or merger of domestic and foreign corporations.—

(1) Any one or more corporations existing under the laws of this state, may consolidate or merge with one or more other corporations organized under the laws of any other state, territory, possession or jurisdiction of the United States or of the United States if the laws under which said other corporation or corporations are formed shall permit such consolidation or merger. The constituent corporations may merge into a single corporation which may be any one of them, or they may consolidate to form a new corporation, which may be a corporation of the jurisdiction of incorporation of any one of the constituent corporations as shall be specified in the consolidation or merger agreement. All the constituent corporations shall enter into an agreement in writing which shall prescribe the terms and conditions of the consolidation or merger, the mode of carrying the same into effect, the basis of payment for the shares of each of the constituent corporations whether with cash, bonds, notes or shares of the consolidated or merged corporation and such other details and provisions as shall be agreed

upon. The agreement shall also contain such other facts as shall be required to be set forth in articles of incorporation by the laws of the jurisdiction which is stated therein to be the domicile of the consolidated or merged corporation and which can be stated in the case of a consolidation or merger. The agreement shall be adopted, signed and acknowledged by each of said constituent corporations in accordance with the laws under which it is formed and, in case of a Florida corporation, in the manner provided in §608.20. If the consolidated or merged corporation is to be a Florida corporation, the agreement so adopted, signed and acknowledged, shall be filed in the office of the secretary of state and, when approved by him and all fees and taxes required thereon by part I of this chapter have been paid, the consolidation or merger shall be effective.

(2) If the consolidated or merged corporation be a foreign corporation the agreement shall be filed in the office of the secretary of state and shall thenceforth be taken and deemed to be the agreement and act of consolidation or merger of the constituent corporations for all purposes of the laws of this state. Before such foreign corporation may transact any business in this state it shall comply with every applicable provision of chapter 613.

608.22 Consolidation or merger; status of corporations and stockholders.—

(1) Upon the effective date of the consolidation or merger, the separate existence of the constituent corporations or of all such constituent corporations except the one into which the other constituent corporations have been merged, as the case may be, shall cease, and the constituent corporations shall become a single corporation in accordance with the agreement, possessing all the rights, privileges, powers, franchises, whether or not by their terms assignable, and immunities, as well of a public as a private nature, and properties, real, personal and mixed belonging to all the constituent corporations, however acquired. All rights of creditors and all liens upon the property of either of the constituent corporations shall be preserved unimpaired, limited in lien to the property affected by such liens at the time of the consolidation or merger, and all debts, contracts, liabilities, obligations and duties of the respective constituent corporations shall thenceforth attach to the consolidated or merged corporation, and may be enforced against it to the extent as if they had been incurred or controlled by it.

(2) Each stockholder entitled to vote, in either of the constituent corporations at the time the consolidation or merger becomes effective, who did not vote against the consolidation or merger and object thereto in writing, and each stockholder, not entitled to vote, in each of the constituent corporations at the time the consolidation or merger becomes effective,

who did not object thereto in writing, shall cease to be a stockholder in such constituent corporation and, together with the stockholders voting in favor of the consolidation or merger, shall be entitled to receive in exchange for his stock, the consideration specified in the agreement of consolidation or merger.

608.23 Consolidation or merger; payment for stock of dissatisfied stockholders.—

(1) If any stockholder of any constituent Florida corporation entitled to vote on a consolidation or merger agreement shall vote against it and, at or prior to the taking of the vote, object thereto in writing, or if any stockholder of record in any constituent Florida corporation not entitled to vote thereon, shall at or prior to the taking of the vote object thereto in writing and if, in either case, such stockholder shall, within twenty days after the taking of such vote, demand in writing that the consolidated or merged corporation make payment of the fair cash value of his stock, the consolidated or merged corporation shall, within thirty days after said consolidation or merger agreement becomes effective, pay to him the fair cash value of the stock as of the day before such vote was taken. In case of disagreement as to the fair cash value, the stockholder within sixty days after the consolidation or merger agreement has become effective and upon reasonable notice to the consolidated or merged corporation, may appeal by petition to the circuit court of the county in which the principal office or resident agent of the consolidated or merged corporation is established, to appoint three appraisers to appraise the value of his stock. The award of the appraisers, or a majority of them if not opposed within ten days after it has been filed in court, and notice thereof served on the consolidated or merged corporation, shall be confirmed by the court, and when confirmed shall be final and conclusive. If the award of the appraisers be opposed, such opposition shall be tried summarily and judgment rendered thereon by the court.

(2) If the amount determined on such award is in excess of the amount the consolidated or merged corporation shall have offered to pay as the fair cash value of the stock, the court shall assess against the consolidated or merged corporation the costs of the proceedings, including a reasonable attorney's fee to the stockholder and a reasonable fee to the appraisers; otherwise such costs and fees to the appraisers shall be assessed one-half against the consolidated or merged corporation and the remainder against the stockholder. Any party shall have the right of appeal from the judgment according to existing laws, provided said appeal be taken within ten days after the signing of the judgment.

(3) Unless the consolidation or merger is abandoned, any stockholder on the making of such demand in writing as aforesaid, shall cease to be a stockholder in said constituent

corporation and shall have no rights with respect to his stock except the right to receive payment therefor, and upon payment of the agreed fair cash value of the stock or of the value of the stock under final judgment, he shall transfer his stock to the consolidated or merged corporation. If the consolidated or merged corporation shall fail to pay the amount of the judgment within ten days after the same shall become final, it may be enforced as other judgments.

608.25 Capital of consolidated or merged corporations.—The capital of a consolidated or merged corporation shall be the amount stated in the consolidation or merger agreement as the amount of capital with which the consolidated or merged corporation will begin business until the corporation shall issue additional stock or, by action of its board of directors, transfer additional amounts to capital. The issue of any additional shares shall increase capital as provided in §608.17. Transfer of funds to capital shall increase capital by the amount so transferred.

(1) Notwithstanding the provisions of any other statutes of the state applicable to amendments of charters, articles of association or incorporation, or certificates of incorporation of railroad companies incorporated under the laws of Florida, where a plan of reorganization of any such railroad company pursuant to the act of congress of July 1, 1898, entitled "An act to establish a uniform system of bankruptcy throughout the United States," as amended (hereinafter called "the national bankruptcy act"), has been confirmed by decree or order of a court of competent jurisdiction, the reorganization managers or committee designated in the plan of reorganization to

consummate the same, or such other person so authorized by the court or judge in such reorganization proceedings, shall have full power and authority to adopt such amendments of its charter, articles of association or incorporation, or certificate of incorporation as may be necessary and proper to put into effect and carry out such plan of reorganization and the decrees and orders of the court relative thereto without action by the directors or stockholders of any such railroad company; provided, however, that nothing herein contained shall preclude the stockholders and/or directors from exercising any rights that have been preserved by such order or decree confirming such plan of reorganization.

(2) After the adoption of such amendments of the charter, articles of association or incorporation, or certificate of incorporation, a certificate of amendment executed, acknowledged and sworn to by such reorganization managers or committee or such other person so authorized by the court or judge to adopt such amendments, shall be filed with the secretary of state. Such certificate of amendment shall show:

608.27 Dissolution, voluntary.—

(1) (a) Whenever the board of directors of any corporation shall find it desirable that it be dissolved, they may adopt a resolution to that effect. If, at a meeting of stockholders, such proportion as required by the certificate of in-

corporation or the bylaws, but not less than a majority, of stock entitled to vote thereon shall vote in favor, the resolution shall be adopted. A copy of the resolution, with thereon the certificate of the president or vice president and the secretary or assistant secretary of its adoption by the stockholders, together with a list of names and addresses of the officers and directors, shall be filed in the office of the secretary of state.

(b) In addition, an affidavit from the corporation, executed by the president or vice president and attested by the secretary or assistant secretary, stating that all currently due property taxes, both tangible and intangible, and all sales and use taxes, where applicable, have been paid as of the date of the affidavit, shall be filed with the secretary of state at the same time. After satisfying himself that the foregoing requirements have been met, the secretary of state, shall cause to be published one time in a newspaper published in the county where the principal office of the corporation is located, a notice that such resolution has been filed. Upon the filing with the secretary of state by the manager or publisher of such newspaper of proof of publication of the notice and payment by the corporation of the cost of publication and the fee required by §608.05(5) (b) the corporation shall be dissolved.

608.28 Dissolution where opposing ownership interests are evenly divided.—When the total stock voting power is evenly divided into two independent ownerships or interests, and the number of directors is even and equally divided respecting the management of the corporation with one-half of the ownership favoring the course advocated by one-half of the directors, and the other half of the ownership favoring the course of the other half, or where the ownership is equally divided and the number of directors is uneven, but the two halves of the ownership are unable to agree on or elect successor directors and the old directors are holding over, the circuit court, sitting in chancery, may entertain a petition from any stockholder for involuntary dissolution of the corporation. If, after hearing thereon, the court finds that the division of ownership is equal and cannot be reconciled, he may appoint a receiver or trustee of the corporation, and enter an order that it be dissolved. The order shall be filed in the office of the secretary of state, who shall treat it as a resolution and certificate of dissolution as provided by §608.27. The fees and costs provided by §608.27, shall be paid by the receiver or trustee from corporate funds. Liquidation shall be by the procedure provided in §608.29.

608.29 Dissolved corporations; receivers appointed by the court; powers.—

(1) When any corporation organized under part I of this chapter shall be dissolved or cease to exist in any manner whatever, the circuit court, sitting in chancery, on application of any creditor or stockholder of such corporation, at any time, may either continue such directors as trustees, or appoint one or more persons to be receivers of and for such corporation, to take charge of the estate and effects thereof, and to collect the debts and property due and belonging to the corporation, with power to prosecute and defend, in the name of the corporation, or otherwise, all such suits as may be necessary or proper for the purpose aforesaid, and to appoint an agent or agents under them, and to do all other acts which might be done by such corporation, if in being, that may be necessary for the final settlement of the unfinished business of the corporation. The powers of such trustees or receivers may be continued as long as the circuit court shall find necessary for the purposes aforesaid.

(2) The circuit court shall have jurisdiction of said application and of all questions arising in the proceedings thereon, and may make such orders and decrees and issue injunctions therein as justice and equity shall require.

(3) Such trustees or receivers, after payment of all allowances, expenses and costs, and the satisfaction of all special and general liens upon the property and funds of the corporation to the extent of their lawful priority, shall pay the other debts due from the corporation if the funds in their hands shall be sufficient therefor, and if not, they shall distribute the same ratably among all the creditors who shall prove their debts in such manner as provided by order or decree of the court for that purpose. They shall, if there be any balance remaining after the payment of such debts and necessary expenses or the making of adequate provision therefor distribute and pay the same to and among those or their legal representatives who shall be justly entitled thereto, as having been stockholders of the corporation.

(4) Trustees or receivers, where appointed, shall make final distribution of assets within such time and in such manner as the court may determine in the order of appointment or in subsequent proceedings.

History.—Comp. §1, ch. 28170, 1953; provisions contained herein formerly §§611.34, 612.50-612.53.

608.30 Dissolution; continuation after; trustees.—

(1) Every dissolved or expired corporation shall continue a body corporate for three years after dissolution or expiration for the purpose of satisfying its liabilities, selling and conveying its property and dividing the net remaining assets among the stockholders but for no other purpose.

(2) (a) The directors of the corporation at the time of dissolution or expiration shall be and constitute a board of trustees for the

property owned by the dissolved or expired corporation. In the event of vacancies in the board of directors at the time of dissolution or expiration the remaining directors, as trustees, may fill them from among the stockholders. Subsequent vacancies may be filled by the surviving trustees in like manner. Acts of a majority of the trustees or of a majority of the surviving trustees shall be acts of the board of trustees.

(b) In the event there be no surviving trustees, or none such can be located, and the need arises, the circuit court, sitting in chancery, upon petition of any person having any claim against the corporation or any right, title, interest, claim, lien or demand in, to or upon real property in which the corporation holds of record any right, title, interest, claim, lien or demand in, to or upon, may, after finding as a fact that there are no surviving trustees or that none such can be located, appoint one or more trustees, who shall have power to do all things that trustees holding office under paragraph (a) hereof could do.

(3) (a) The trustees shall take charge of the estate and effects of the corporation. They shall act with reasonable diligence and dispatch to collect the debts due and property belonging to the corporation and to pay such debts and claims as may be established against it so far as assets coming into their hands permit. They shall have power to prosecute and defend, as trustees of the corporation, all suits in progress at the time of dissolution or expiration or thereafter arising as may be necessary for closing the affairs of the corporation and to sell and convey its property, real and personal.

(b) After paying or adequately providing for payment of the corporate debts, liabilities and obligations, they may divide the remaining assets ratably among the stockholders or, with the written consent of a majority of the voting stock, they may sell the remaining assets or a part of them to a corporation of this or any other state and take in payment stock or bonds or both and distribute them ratably among the stockholders. If any stockholder who did not consent to the sale shall demand in writing, within thirty days after notice of such sale, the fair cash value of his share of the assets sold, such fair cash value shall be determined as provided in §608.23, and the vendee corporation shall pay to him the value so determined within ten days after the determination becomes final.

(c) The trustees may do all acts necessary and proper to the final settlement of all the affairs of the corporation, including but not limited to the following: They may convey, assign, release, subordinate and satisfy any right, title, interest, claim, lien or demand in, to or upon real property standing of record in this state in the name of such dissolved corporation. It shall not be necessary for any stockholder to execute such deed, but execution thereof by a majority of the trustees or a majority of the surviving trustees shall be adequate. All deeds or other instruments so exe-

cuted in the past are hereby validated in all respects. The trustees so executing any such instrument may append thereto an affidavit stating in substance that they are duly qualified to act as such trustees, and that they constitute a majority of the trustees then existing. Such affidavit, as to purchasers without notice, shall be taken and held to be conclusive as to the facts therein stated. The trustees shall continue as trustees of the property of such dissolved corporation so long as it holds of record in this state any right, title, interest, claim, lien or demand in, to, or upon real property.

(4) If, at the end of three years after dissolution or expiration, any claim is not paid, agreed to be paid, reduced to judgment or litigation for its enforcement initiated, they may make final distribution of the remaining assets to the then stockholders of record according to the priorities between them. If at that time there be unpaid judgments or pending litigation of claims, they may, after reserving an amount sufficient to pay such judgments or claims with costs, distribute the remaining assets ratably among the then stockholders of record. Upon conclusion of such pending litigation and payment of such amounts as final judgments or decrees may require them to pay, they may distribute as hereinbefore stated any amounts remaining.

(5) Upon their making distribution after the three-year period or thereafter at the end of litigation, they shall be relieved and discharged of any further or personal obligation to distribute assets first to creditors and second to stockholders. Nothing in this section shall relieve the stockholders from ratable contribution, from any assets received in distribution, toward payment of any valid and enforceable claim made against them as distributees, or against the corporation, or relieve property coming to the hands of the trustees from any valid claim of lien or claim of right therein, nor prevent service of process upon the trustees as such to enforce any lien or determine any property right after distribution.

(3) Three months after the date of the publication of the notice required by this section, the secretary of state shall prepare a list of delinquent corporations named in the published notice, which have not in the meantime filed their reports and paid the taxes due, which list shall be certified to the governor who shall thereupon issue a proclamation and cause the same to be attested by the secretary of state under the great seal of the state, dissolving or cancelling the permits of such delinquent corporations. Thereupon the secretary of state may remove from his active files the certificates of incorporation of all corporations dissolved or which have had their permits cancelled as provided herein, and shall cause to have made copies thereof, by photographic process. The receipt of the secretary of state shall be issued for such payments and in such cases shall state that the corporation has been fully restored or its permit to do business in the state fully revived and restored. The stock book or stock lists shall show the current status; provided, if the transfer agent of the corporation be located elsewhere, a reasonable time shall be allowed for transit of mail. The stock book or stock lists shall be open for at least three business hours each business day for inspection by any judgment creditor of the corporation or any person who shall have been for at least six months immediately preceding his demand a record holder of not less than one per cent of the outstanding shares of such corporation, or by any officer, director, or any committee or person holding or authorized in writing by the holders of at least five per cent of all its outstanding shares. Certificates shall be signed by the president or a vice-president and the treasurer or an assistant treasurer, or the secretary or an assistant secretary, and sealed with the seal of the corporation. The seal may be facsimile, engraved or printed. Where such certificate is signed by (a) a transfer agent or an assistant transfer agent, other than the corporation itself, or by (b) a transfer clerk acting on behalf of the corporation and a registrar, the signature of any of those officers named herein may be facsimile. In case any officer who signed, or whose facsimile signature has been used on any certificate shall cease to be such officer for any reason before the certificate has been delivered by the corporation, such certificate may nevertheless be adopted by the corporation and issued and delivered as though the person who signed it or whose facsimile signature has been used thereon had not ceased to be such officer.

(b) It shall not be necessary to set forth in said certificate the provisions of the certificate of incorporation in original or amended form showing the class or classes of stock authorized to be issued by the corporation and the distinguishing characteristics thereof. If the corporation so elects, said provisions may be either (a) summarized on the face or back of the certificate or (b) incorporated by reference made on the face or back of the certificate where such reference states that a copy of said provisions, certified by an officer of the corporation, will be furnished by the corporation or its transfer agent, without cost, to and upon request of the certificate holder.

(2) Every bond or debenture issued by any corporation shall be evidenced by an appropriate instrument which shall be signed by the president or a vice-president and by the treasurer or an assistant treasurer, or by the secretary or an assistant secretary, and sealed with the seal of the corporation. In case any officer who signed, or whose facsimile signature has been used on any such bond or debenture, shall cease to be an officer of the corporation for any reason before the same has been delivered by the corporation, such bond or debenture may nevertheless be adopted by the corporation and issued and delivered as though the person who signed it or whose facsimile signature has been used thereon had not ceased to be such officer.

Transfers of certificates of stock may be made between the parties as provided in and by chapter 614. No transfer of stock shall be valid against the corporation, its stockholders (other than the transferor) and its creditors for any purpose except to render the transferee liable for debts of the corporation to the extent provided in part I of this chapter, until it shall have been registered upon the corporation's books.

(2) Unless otherwise provided by the certificate of incorporation, every stockholder, upon the sale for cash of any new stock of the same kind, class or series as that which he already holds, shall have the right to purchase his pro rata share thereof (as nearly as may be done without issuance of fractional shares) at the price at which it is offered to others, which price, in the case of par value shares, may be in excess of par.

(1) Any person owning or holding stock in any corporation for profit, as an individual or as a trustee for another, may enter into a written agreement vesting one or more trustees with the authority to exercise the voting power of any or all of his stock as described in the agreement. There may be included in the agreement conditions, limitations and instructions as to the manner in which the vote shall be cast upon any proposition and upon general or any special policy. No trustee heretofore or hereafter so appointed for the purpose of conferring the right to vote such stock shall have the right to vote the same for the purpose of either increasing or reducing the capital stock of such corporation, unless said agreement shall expressly give to him such right. Any such agreements may provide for the method of appointment or election, or may designate successor trustees in event of death, resignation, or other vacancy in any trustee-

ship. The conditions or limitations contained in the agreement shall not bind the corporation nor affect any act thereof. Any act by a trustee contrary to such conditions, limitations or instructions, shall not affect the validity of any election, resolution, or actions of the stockholders or of the corporation. The remedy of the stockholder in such cases will be against the defaulting trustee. Ten years from date of the instrument will be the maximum period for which any agreement under the provisions of this section shall be effective.

(2) All such agreements shall be recorded in the minutes of the corporation or in a corporate book especially provided for the purpose. (1) The existence of a corporation, hereafter or heretofore formed under the laws of this state, shall in no respect be deemed impaired by the acquisition of all the shares of stock of such corporation by one person or by two persons, nor shall the corporation, by such acquisition, be deemed not to possess any managerial boards or bodies or any capacities, powers or authority which it would have possessed with three or more stockholders, nor shall the corporation, upon such acquisition, be deemed to have become dormant, inactive or incapable of acting as a corporation.

(2) The acquisition, heretofore or hereafter, of all of the shares of stock of a corporation by one person or by two persons is hereby declared to violate no policy or provision of the laws of this state.

(3) If the business of a close corporation is managed by a board of directors, an agreement among all or less than all of the stockholders, whether solely among themselves or between one or more of them and a party who is not a stockholder, is not invalid, as among the parties thereto, on the ground that it so relates to the conduct of the affairs of the corporation as to interfere with the discretion of the board of directors, but the making of such an agreement shall impose upon the stockholders who are parties thereto the liability for managerial acts that is imposed by the laws of this state upon directors.

History.—§6, ch. 63-379.

608.0106 Director.—The stockholders of a close corporation entitled to elect a director of such corporation may at any time remove such director, with or without cause, by like action of the stockholders as required for the election of such director, absent a contrary provision by agreement or in the bylaws or articles of incorporation of the corporation.

610.011 Short title.—This act may be cited as the uniform act for simplification of fiduciary security transfers.

History.—§11, ch. 61-204.

610.021 Definitions.—In this act, unless the context otherwise requires:

(1) Assignment includes any written stock power, bond power, bill of sale, deed, declaration of trust or other instrument of transfer.

(2) Claim of beneficial interest includes a claim of any interest by a decedent's legatee, distributee, heir or creditor, a beneficiary under a trust, a ward, a beneficial owner of a security registered in the name of a nominee, or a minor owner of a security registered in the name of a custodian, or a claim of any similar interest, whether the claim is asserted by the claimant or by a fiduciary or by any other authorized person on his behalf, and includes a claim that the transfer would be in breach of fiduciary duties.

(3) Corporation means a private or public corporation, association or trust issuing a security.

(4) Fiduciary means an executor, administrator, trustee, guardian, committee, conservator, curator, tutor, custodian or nominee.

(5) Person includes an individual, a corporation, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, two or more persons having a joint or common interest, or any other legal or commercial entity.

(6) Security includes any share of stock, bond, debenture, note or other security issued by a corporation which is registered as to ownership on the books of the corporation.

(7) Transfer means a change on the books of a corporation in the registered ownership of a security.

(8) Transfer agent means a person employed or authorized by a corporation to transfer securities issued by the corporation.

History.—§1, ch. 61-204.

610.031 Registration in the name of a fiduciary.—A corporation or transfer agent registering a security in the name of a person who is a fiduciary or who is described as a fiduciary is not bound to inquire into the existence, extent, or correct description of the fiduciary relationship, and thereafter the corporation and its transfer agent may assume without inquiry that the newly registered owner continues to be the fiduciary until the corporation or transfer agent receives written notice that the fiduciary is no

longer acting as such with respect to the particular security.

History.—§2, ch. 61-204.

610.041 Assignment by a fiduciary.—Except as otherwise provided in this act, a corporation or transfer agent making a transfer of a security pursuant to an assignment by a fiduciary:

(1) May assume without inquiry that the assignment, even though to the fiduciary himself or to his nominee, is within his authority and capacity and is not in breach of his fiduciary duties;

(2) May assume without inquiry that the fiduciary has complied with any controlling instrument and with the law of the jurisdiction governing the fiduciary relationship, including any law requiring the fiduciary to obtain court approval of the transfer; and

(3) Is not charged with notice of and is not bound to obtain or examine any court record or any recorded or unrecorded document relating to the fiduciary relationship or to the assignment, even though the record or document is in its possession.

History.—§3, ch. 61-204.

610.051 Evidence of appointment or incumbency.—A corporation or transfer agent making a transfer pursuant to an assignment by a fiduciary who is not the registered owner shall obtain the following evidence of an appointment or incumbency:

(1) In the case of a fiduciary appointed or qualified by a court, a certificate issued by or under the direction or supervision of that court or an officer thereof and dated within sixty days before the transfer; or

(2) In any other case, a copy of a document showing the appointment or a certificate issued by or on behalf of a person reasonably believed by the corporation or transfer agent to be responsible or, in the absence of such a document or certificate, other evidence reasonably deemed by the corporation or transfer agent to be appropriate. Corporations and transfer agents may adopt standards with respect to evidence of appointment or incumbency under this subsection provided such standards are not manifestly unreasonable. Neither the corporation nor transfer agent is charged with notice of the contents of any document obtained pursuant to this subsection except to the extent that the contents relate directly to the appointment or incumbency.

History.—§4, ch. 61-204.

610.061 Adverse claims.—

(1) A person asserting a claim of beneficial interest adverse to the transfer of a security pursuant to an assignment by a fiduciary may give the corporation or transfer agent written notice of the claim. The corporation or transfer agent is not put on notice unless the written notice identifies the claimant, the registered owner and the issue of which the security is a part, provides an address for communication directed to the claimant and is received before the transfer. Nothing in this act relieves the corporation or transfer agent of any liability for making or refusing to make the transfer after it is so put on notice, unless it proceeds in the manner authorized in subsection (2).

(2) As soon as practicable after the presentation of a security for transfer pursuant to an assignment by a fiduciary, a corporation or transfer agent which has received notice of a claim of beneficial interest adverse to the transfer may send notice of the presentation by registered or certified mail to the claimant at the address given by him. If the corporation or transfer agent so mails such a notice it shall withhold the transfer for thirty days after the mailing and shall then make the transfer unless restrained by a court order.

History.—§5, ch. 61-204.

610.071 Nonliability of corporation or transfer agent.—A corporation or transfer agent incurs no liability to any person by making a transfer or otherwise acting in a manner authorized by this act.

History.—§6, ch. 61-204.

610.081 Nonliability of third persons.—

(1) No person who participates in the acquisition, disposition, assignment or transfer of a security by or to a fiduciary including a person who guarantees the signature of the fiduciary is liable for participation in any breach of fiduciary duty by reason of failure to inquire whether the transaction involves such

a breach unless it is shown that he acted with actual knowledge that the proceeds of the transaction were being or were to be used wrongfully for the individual benefit of the fiduciary or that the transaction was otherwise in breach of duty.

(2) If a corporation or transfer agent makes a transfer pursuant to an assignment by a fiduciary, a person who guaranteed the signature of the fiduciary is not liable on the guarantee to any person to whom the corporation or transfer agent by reason of this act incurs no liability.

(3) This section does not impose any liability upon the corporation or its transfer agent.

History.—§7, ch. 61-204.

610.091 Territorial application.—

(1) The rights and duties of a corporation and its transfer agents in registering a security in the name of a fiduciary or in making a transfer of a security pursuant to an assignment by a fiduciary are governed by the laws of the jurisdiction under whose laws the corporation is organized.

(2) This act applies to the rights and duties of a person other than the corporation and its transfer agents with regard to acts and omissions in this state in connection with the acquisition, disposition, assignment or transfer of a security by or to a fiduciary and of a person who guarantees in this state the signature of a fiduciary in connection with such a transaction.

History.—§8, ch. 61-204.

610.101 Tax obligations.—This act does not affect any obligations of a corporation or transfer agent with respect to estate, inheritance, succession or other taxes imposed by the laws of this state.

History.—§9, ch. 61-204.

610.111 Uniformity of interpretation.—This act shall be so construed as to effectuate its general purpose to make uniform the laws of those states which enact it.

History.—§10, ch. 61-204.

- 613.11 Foreign corporations engaging in business without permit, etc.

613.01 Required to file charter and receive permit to transact business.—No foreign corporation shall transact business, or acquire, hold or dispose of property in this state until it shall have filed in the office of the secretary of state a duly authenticated copy of its charter or articles of incorporation, and shall have received from him a permit to transact business in this state; and any foreign corporation which shall violate the provisions of this section shall render itself, its officers and agents severally liable to the penalties and fines provided in §613.11, but no violation of this chapter shall affect the title to property thus acquired, held or disposed of in violation of the provisions hereof.

History.—§1, ch. 5717, 1907; §1, ch. 6876, 1915; RGS 4095; CGL 6026.

cf.—§617.11, Foreign nonprofit corporations.

§360.15 Companies incorporated in other states may construct or own lines in this state, foreign corporations procedure outlined.

613.02 Issuing permit to transact business in the state.—

(1) Upon the filing of such copy, the secretary of state shall, if the objects of the corporation are such as are not prohibited by the laws of the state, issue a permit allowing such corporation to transact business in this state, and such corporation shall thereupon be empowered to exercise all and be limited to the same rights, powers and privileges as like corporations organized under the laws of this state, but he shall not deliver such permit to the corporation until he shall have received from it, for the use of the state, a sum equal to that which the said corporation would have been required to pay as a charter fee upon that portion of its capital employed, or to be employed, in the state if it had been incorporated under the laws of this state. The fee of the secretary of state for issuing the permit shall be five dollars. In every case where application is made to the secretary of state for the issuance of a permit under this section, the secretary of state shall demand and receive from the applicant, for the use of the state, a fee calculated upon the basis of the total authorized capital stock of the corporation, as shown by its charter, unless the applicant shall make it appear by such affidavit and other satisfactory evidence as the secretary of state may require to be submitted to him that the amount of capital of such foreign corporation employed, or to be em-

ployed, in the state, is less than the total amount of authorized capital stock shown by the charter of such foreign corporation; in which case, the secretary of state shall determine, from the evidence submitted to him, what is the amount of capital employed in the state by said foreign corporation, and shall collect a sum in that event equal to that which the said corporation would have been required to pay as a charter fee if it had been incorporated under the laws of the state with an authorized capital equal to the amount of capital employed, or to be employed by such foreign corporation in the state. All determinations of fact made by the secretary of state in the administration of this law shall be prima facie evidence of the truth and validity of the finding of the secretary of state as to the amount of capital of such foreign corporation employed, or to be employed, in the state, upon which the charter fee provided for by this section is required to be computed and paid.

(2) This section is declaratory of existing law since the passage of legislation in this state authorizing foreign corporations to do business herein.

History.—§2, ch. 5717, 1907; RGS 4096; CGL 6027; §1, ch. 13640, 1929; am. §§1, 2, ch. 22653, 1945.

cf.—§608.05 Filing fees and taxes for corporations.

613.03 Charter amendments after permit issued; copy to be filed; increases in capital stock; filing fees and taxes; penalty.—

(1) (a) Every foreign corporation amending its charter or certificate or articles of incorporation after receiving a permit as provided in §613.02 shall, within sixty days after such amendment, file a duly authenticated copy thereof in the office of the secretary of state. The secretary of state shall issue to the corporation a certificate of the filing after receipt of the filing fees and taxes indicated below.

(b) If the amendment does not authorize an increase in the capital stock, the filing fee shall be ten dollars. If the amendment authorizes an increase in the capital stock, the fees and filing tax shall equal those required of a domestic corporation. The filing tax shall be paid upon the entire increase in capital stock unless the corporation shall make it appear to the secretary of state by satisfactory affidavits or such other legal and satisfactory evidence as he may require that the amount of the in-

crease in capital stock to be employed in Florida is less than the total increase. Upon being satisfied that such is true, the secretary of state shall compute and collect the filing tax on the basis of that part of the increase of capital stock which is employed or to be employed in Florida. Determinations of fact made by the secretary of state hereunder shall be prima facie evidence of their truth and validity as provided in §613.02.

(2) If any foreign corporation shall otherwise than by amendment increase the amount of capital employed or to be employed in Florida, it shall report such increase to the secretary of state not later than thirty days after the close of its fiscal year in which the increase occurred. The secretary of state shall collect from the corporation the same filing fees and taxes upon such increase in capital employed in Florida as if the increase had been made by amendment of the charter or certificate or articles of incorporation.

(3) (a) The secretary of state may inquire into and determine whether any foreign corporation has become liable for additional fees and filing taxes for increases of capital employed or to be employed in Florida.

(b) All foreign corporations shall pay the additional fee and filing taxes required after such determination by the secretary of state.

(4) The secretary of state may revoke the permit of any foreign corporation failing to file any certificate or pay any filing taxes required by this section.

History.—§3, ch. 5717, 1907; RGS 4097; CGL 6028; §2, ch. 13640, 1929; am. §1, ch. 28285, 1953.
cf.—§613.06 Corporations not affected.
§608.05 Filing fees and taxes for corporations.

613.04 Can not maintain action until provisions complied with.—The failure of any such foreign corporation to comply with the provisions of this chapter shall not affect the validity of any contract with such foreign corporation, but no action shall be maintained or recovery had in any of the courts of this state by any such corporation, or its successors or assigns, so long as such foreign corporation fails to comply with the provisions of this chapter.

History.—§4, ch. 5717, 1907; §2, ch. 6876, 1915; RGS 4098; CGL 6029.

613.05 Corporations affected by chapter.—This chapter shall be deemed to apply to foreign building and loan associations, foreign insurance companies, foreign surety companies, and all other foreign corporations which now are or hereafter may be required to obtain other certificates of authority to transact business in this state, and to impose an additional requirement upon them, as well as to all other foreign corporations except those which are excepted by its terms from the operation of this chapter.

History.—§5, ch. 5717, 1907; RGS 4099; CGL 6030.

613.06 Corporations that are not affected.—This chapter shall not apply to any foreign corporation whatsoever that was transacting business in this state on June 1, 1907, and

which has continuously transacted business in this state since said date; provided, however, that any such foreign corporation hereafter increasing its capital stock shall comply with the provisions of §613.03 in relation thereto.

History.—§6, ch. 5717, 1907; RGS 4100; CGL 6031.

613.07 "Foreign corporation" defined.—A foreign corporation is defined to be a corporation incorporated by or under the laws of any other state or territory or of any other country, but nothing in this chapter shall apply to or include banking or trust companies incorporated under the laws of any other state, territory or other country.

History.—§7, ch. 5717, 1907; §3, ch. 6876, 1915; RGS 4101; CGL 6032.

613.08 Permit not to be issued when name of corporation similar to Florida corporation.—No permit under this chapter shall be issued to any foreign corporation to transact business or acquire, hold or dispose of property in this state under any corporate name which is or may be the same as the corporate name of any corporation organized or existing under the laws of the state, or so nearly similar thereto as to cause or tend to cause confusion.

History.—§1, ch. 5717, 1907; §1, ch. 6484, 1915; RGS 4102; CGL 6033.

613.09 Invalidity of certain deeds of trust upon property in this state removed; proviso.—The invalidity created by chapter 5717, laws of 1907, as to every deed of trust upon property in this state, and in which a foreign corporation was named as trustee, is removed as to such trustee; provided, such trustee has no interest in such deed of trust other than the protection of the holders of bonds or other negotiable paper secured by such deed of trust.

History.—§3, ch. 6875, 1915; RGS 4105; CGL 6036.

613.10 Invalidity as to conveyance of real property removed.—The invalidity created by chapter 5717, laws of 1907, as to every conveyance of real property in this state, and made to a foreign corporation, is, as to all grantees of such corporation who are innocent purchasers for value, removed.

History.—§5, ch. 6875, 1915; RGS 4107; CGL 6038.

613.11 Foreign corporations engaging in business without permit, etc.—Any foreign corporation which shall violate the provisions of this chapter, prescribing the terms and conditions upon which foreign corporations for profit may transact business or acquire, hold or dispose of property in this state, shall, upon conviction, be fined not more than one thousand dollars for the first offense, and not more than five thousand dollars for each subsequent offense, and any officer or agent of any foreign corporation who shall violate the provisions of this chapter shall, upon conviction, be punished by a fine of not more than two thousand dollars or by imprisonment not exceeding six months.

614.04 Powers of those lacking full legal capacity and of fiduciaries not enlarged.—Nothing in this law shall be construed as enlarging the powers of an infant or other person lacking full legal capacity, or of a trustee, executor or administrator, or other fiduciary, to make a valid indorsement, assignment or power of attorney.

History.—§4, ch. 21894, 1943.

614.05 Corporation not forbidden to treat registered holder as owner.—Nothing in this chapter shall be construed as forbidding a corporation:

(1) To recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner, or,

(2) To hold liable for calls and assessments a person registered on its books as the owner of shares.

History.—§5, ch. 21894, 1943.

614.06 Title derived from certificate extinguishes title derived from separate document.—

The title of a transferee of a certificate under a power of attorney or assignment not written upon the certificate, and the title of any person claiming under such transferee, shall cease and determine if, at any time prior to the surrender of the certificate to the corporation issuing it, another person, for value in good faith, and without notice of the prior transfer, shall purchase and obtain delivery of such certificate with the indorsement of the person appearing by the certificate to be the owner thereof, or shall purchase and obtain delivery of such certificate and the written assignment or power of attorney of such person, though contained in a separate document.

History.—§6, ch. 21894, 1943.

614.07 Who may deliver certificate.—The delivery of a certificate to transfer title in accordance with the provisions of §614.03, is effectual, except as provided in §614.09, though made by one having no right of possession and having no authority from the owner of the certificate or from the person purporting to transfer the title.

History.—§7, ch. 21894, 1943.

614.08 Indorsement effectual in spite of fraud, duress, mistake, revocation, death, incapacity or lack of consideration or authority.—The indorsement of a certificate by the person appearing by the certificate to be the owner of the shares represented thereby is effectual, except as provided in §614.09, though the indorser or transferor,

(1) was induced by fraud, duress or mistake, to make the indorsement or delivery, or,

(2) has revoked the delivery of the certificate, or the authority given by the indorsement or delivery of the certificate, or,

(3) has died or become legally incapacitated after the indorsement, whether before or after the delivery of the certificate, or,

(b) was made under such mistake as to make the indorsement or delivery inequitable; or,

(2) If the delivery of a certificate was made

(a) without authority from the owner, or,

(b) after the owner's death or legal incapacity;

(3) The possession of the certificate may be reclaimed and the transfer thereof rescinded, unless:

(a) The certificate has been transferred to a purchaser for value in good faith without notice of any facts making the transfer wrongful, or,

(b) The injured person has elected to waive the injury, or,

(c) The injured person has been guilty of laches in endeavoring to enforce his rights;

(4) Any court of appropriate jurisdiction may enforce specifically such right to reclaim the possession of the certificate or to rescind the transfer thereof and, pending litigation, may enjoin the further transfer of the certificate or impound it.

History.—§9, ch. 21894, 1943; am. §7, ch. 22853, 1945.

614.10 Recision of transfer of certificate does not invalidate subsequent transfer by transferee in possession.—Although the transfer of a certificate or of shares represented thereby has been rescinded or set aside, nevertheless, if the transferee has possession of the certificate or of a new certificate representing part or the whole of the same shares of stock, a subsequent transfer of such certificate by the transferee, mediately or immediately, to a purchaser for value in good faith, without notice of any facts making the transfer wrongful, shall give such purchaser an indefeasible right to the certificate and the shares represented thereby.

History.—§10, ch. 21894, 1943.

614.11 Delivery of unindorsed certificate imposes obligation to indorse.—The delivery of a certificate by the person appearing by the certificate to be the owner thereof without the indorsement requisite for the transfer of the certificate and the shares represented thereby, but with intent to transfer such certificate or shares, shall impose an obligation, in the absence of an agreement to the contrary, upon the person so delivering, to complete the transfer by making the necessary indorsement. The transfer shall take effect as of the time when the indorsement is actually made. This obligation may be specifically enforced.

History.—§11, ch. 21894, 1943.

614.12 Ineffectual attempt to transfer; promise to transfer.—An attempted transfer of title to a certificate or to the shares represented thereby without delivery of the certificate shall have the effect of a promise to transfer and the obligation, if any, imposed by such promise shall be determined by the law governing the formation and performance of contracts.

614.13 Warranties on sale of certificate.—

614.15 Involuntary transfers.—Shares of stock may be attached or levied upon, under execution, as now provided by law, and any sale under attachment or execution, as now provided by law, shall be recognized by the corporation in which such shares were so sold upon production of a bill of sale duly executed by the officer making such sale and a new certificate shall be issued to the purchaser at such sale.

614.18 Alteration of certificate does not divest title to shares.—The alteration of a certificate, whether fraudulent or not and by whomsoever made, shall not deprive the owner of his title to the certificate and the shares originally represented thereby, and the transfer of such a certificate shall convey to the transferee a good title to such certificate and to the shares originally represented thereby.

History.—§18, ch. 21894, 1943.

614.19 Lost or destroyed certificate.—

(1) When a certificate has been lost or destroyed, a court of competent jurisdiction may order the issue of a new certificate therefor on service of process upon the corporation and on reasonable notice by publication, and in any other way which the court may direct, to all persons interested, and upon satisfactory proof of such loss or destruction and upon the giving of a bond with sufficient surety to be approved by the court to protect the corporation or any per-

son injured by the issue of the new certificate from any liability or expense which it or they may incur by reason of the original certificate remaining outstanding. The court may also in its discretion order the payment of the corporation's reasonable costs and counsel fees.

(2) The issue of a new certificate under an order of the court as provided in this section shall relieve the corporation from liability in damages to a person to whom the original certificate has been or shall be transferred for value without notice of the proceedings or of the issuance of the new certificate.

617.012 Reincorporation.—

(1) Any corporation which has a charter approved by a circuit judge, under this chapter and the laws from which derived, or a charter granted by the legislature of this state, on or prior to September 1, 1959, the effective date of chapter 59-427, acts of 1959, may reincorporate hereunder by filing with the secretary of state a copy of its charter and all amendments thereto, certified by the clerk of the circuit court of the county wherein recorded, as to charters and amendments granted by circuit judges, and by the secretary of state, as to legislative charters, together with a certificate containing the provisions required in original articles of incorporation by §617.013, and accepting the provisions of this chapter as amended.

(2) Said certificate shall be executed by its president and attested by its secretary under the corporate seal, if any, and it shall show that its issuance was duly authorized by a meeting of its members regularly called, or if its members have no voting rights, by meeting of its board of directors, managers or trustees regularly called. Upon the filing thereof and payment of the filing fees specified in §617.015, for filing articles of incorporation, the

corporation shall be deemed to be incorporated hereunder and the certificate shall constitute its articles of incorporation hereunder.

(3) The corporation shall then be entitled to and be possessed of all the privileges, franchises and powers as if originally incorporated under this chapter as amended; and all the properties, rights and privileges theretofore belonging to the corporation, which were acquired by gift, grant, conveyance, assignment or otherwise shall be and they are hereby ratified, approved, confirmed and assured to the corporation with like effect and to all intents and purposes as if they had been originally acquired through incorporation under this chapter as amended; provided, however, that any corporation thus reincorporating hereunder shall be subject to all the contracts, duties and obligations theretofore resting upon the corporation or to which the corporation shall then be in any way liable.

(2) The articles of incorporation shall contain:

(a) The name of the proposed corporation, which shall include the word "incorporated" or "inc." The name shall be such as will distinguish the corporation from any other domestic corporation, or any foreign corporation admitted to conduct its affairs in this state; provided, however, that all corporations heretofore organized under this chapter may reincorporate under §617.012, with their same corporate names notwithstanding duplication of names.

(b) The purpose or purposes for which the corporation is organized.

(3) The articles of incorporation shall be in writing, subscribed by not less than three natural persons competent to contract and acknowledged by all of the subscribers before an officer authorized to take acknowledgments, and filed in the office of the secretary of state for approval. A duplicate copy so subscribed and acknowledged may also be filed.

History.—§4, ch. 59-427.

617.014 Approval of articles; beginning of corporate existence.—When the articles of incorporation have been filed in the office of the secretary of state and approved by him and the filing fee herein specified has been paid, the subscribers thereof and their associates and successors shall constitute a corporation. The approval of the articles of incorporation by the secretary of state shall be indicated by his endorsement thereof with the date and time of approval on the original. The original shall be filed in the records of his office. In any case, the charter or articles of incorporation shall be amended and the amendment incorporated therein only when the amendment has been filed with the secretary of state, approved by him, and all filing

fees have been paid. The secretary of state shall not approve or file any amendment to the charter of a corporation heretofore incorporated hereunder which has not reincorporated pursuant to §617.012, unless such corporation has previously filed certified copies of its charter and all amendments thereto with the secretary of state together with an affidavit executed by its president stating that such documents constitute copies of the charter of the corporation and all amendments thereto. (2) No act of a corporation and no conveyance or transfer of real or personal property to or by a corporation shall be invalid by reason of the fact that the corporation was without capacity or power to do such act or to make or receive such conveyance or transfer, but such lack of capacity or power may be asserted:

(a) In any action by a member or a director against the corporation to enjoin the doing of any act or the transfer of real or personal property by or to the corporation, but in any such action the plaintiff shall sustain the burden of proof that he has not at any time prior thereto assented to the act or transfer in question and that in bringing the action he is not acting in collusion with officials of the corporation. If the unauthorized acts or transfer sought to be enjoined are being, or are to be, performed or made pursuant to any contract to which the corporation is a party, the court may, if all of the parties to the contract are parties to the action and if deemed equitable, set aside and enjoin the performance of such contract, and in so doing may allow to the corporation or to the other parties to the contract, as the case may be, compensation for the loss or damage sustained by either of them which may result from the action of the court in setting aside and enjoining the performance of such contract, but anticipated profits to be derived from the performance of the contract shall not be awarded by the court as loss or damage sustained.

Upon filing a certified copy of the decree of dissolution in the office of the secretary of state and the payment of all filing fees, the corporation shall be dissolved; provided, that in the case of corporations heretofore incorporated hereunder and not reincorporated, the decree of dissolution shall also be recorded in the office of clerk of the circuit court which approved the charter of the corporation.

may decree a dissolution of such corporation upon the sworn petition of any person. Notice thereof shall be served by the petitioner by mail to the last known officers and agents of such corporation, specifying the date and time when the petition shall be presented to the circuit judge. In addition, the circuit judge shall direct notice to be published for such time as he shall deem to be expedient. Upon the presentation of proof of such service and publication of notice, which may be by affidavit, if the circuit judge shall find from the evidence presented that the corporation is defunct, he may decree a dissolution and make all necessary orders and decrees for the winding up of the affairs of such corporation, taking care that the claims of creditors be satisfied as far as may be out of the assets of the corporation. The circuit judge may in his discretion direct that the costs of the proceeding be satisfied out of the assets of the corporation after the claims of creditors, if any, are satisfied. Upon filing a certified copy of the decree of dissolution in the office of the secretary of state and the payment of all filing fees, the corporation shall be dissolved; provided, that in the case of corporations heretofore incorporated hereunder, the decree of dissolution shall also be recorded in the office of the clerk of the circuit court which approved the charter of the corporation.

Neither the rights of creditors nor any liens upon the property of any such corporation shall be impaired by such merger or consolidation.

618.10 Membership of corporation.—

(1) Under the terms and conditions prescribed in the by-laws adopted by it, an association may admit as members, or issue common stock only to persons engaged in the production of agricultural products and to associations as defined in this chapter.

(2) An association organized hereunder may become a member or stockholder of any other association or corporation.

History.—§7, ch. 9300, 1923; CGL 6472; §7, ch. 14675, 1931; §7, ch. 22858, 1945.

618.11 How meetings called.—In its by-laws each association shall provide for one or more regular meetings annually. The board of directors shall have the right to call a special meeting at any time, and ten per cent of the members or stockholders may file a petition stating the specific business to be brought before the association and demand a special meeting at any time. Such meeting must thereupon be called by the directors. Notice of all special meetings, together with a statement of the purpose thereof, shall be mailed to each member at least ten days prior to the meeting; provided, however, that the by-laws may require instead that such notice may be given by publication in a newspaper of general circulation, published at the principal place of business of the association.

History.—§11, ch. 9300, 1923; CGL 6476; §11, ch. 14675, 1931.

618.12 Directors; election.—

(1) The affairs of the association shall be managed by a board of not less than three directors, to be elected by the members or stockholders, with such qualifications as may be provided for in the articles of incorporation or the by-laws. The by-laws may provide that the territory in which the association has members shall be divided into districts and that the directors shall be nominated according to such district, either directly or by district delegates elected by the members in that district. In such case the by-laws shall specify the number of directors to be nominated by each district, the man-

ner and method of reapportioning the directors and of re-districting the territory covered by the association. The by-laws may provide that primary elections shall be held in each district to nominate the directors apportioned to such districts and the result of all such primary elections may be ratified by the next regular meeting of the association or may be considered final as to the association. The by-laws may provide that one or more directors may be nominated by the commissioner of agriculture or by the other directors nominated by the members or their delegates. Such directors shall represent primarily the interest of the general public in such associations. Such directors shall not number more than one-third of the entire number of directors.

(2) An association may provide a fair remuneration for the time actually spent by its officers and directors in the service and for the service of the members of its executive committee. No director, during the term of his office, shall be a party to a contract for profit with the association differing in any way from the business relations accorded regular members or holders of common stock of the association or others, or differing from terms generally current in that district.

(3) The by-laws may provide for an executive committee to be elected by the board of directors from within or without the membership of the board and may allot to such committee all the functions and powers of the board of directors, subject to the general direction and control of the board.

(4) When a vacancy on the board of directors occurs other than by expiration of term, the remaining members of the board, by a majority vote, shall fill the vacancy, unless the by-laws provide for the nomination of directors by districts. In such case the board of directors shall call a special meeting of the members or stockholders in the respective district to nominate a person qualified to fill the vacancy.

618.13 Officers; election.—The directors shall elect from their number a president and one or more vice-presidents. They shall also elect a secretary, a treasurer, and such other officers as may be provided for in the by-laws, none of whom need be directors or members of the association. The office of secretary and treasurer may be combined into one office designated as secretary-treasurer, or both functions and titles may be united in one person. The treasurer may be a bank or any depository, and as such, shall not be considered as an officer, but as a function of the board of directors, and in such case the secretary shall perform the usual accounting duties of the treasurer excepting that the funds shall be deposited only as and where authorized by the board of directors.

History.—§13, ch. 9300, 1923; CGL 6478; §13, ch. 14675, 1931.

618.14 Removal of officers and directors.—Any member may bring charges against an officer or director by filing them in writing with the secretary of the association, together with a petition signed by ten per cent of the members, requesting the removal of the officer or director in question. The removal shall be voted upon at the next regular or special meeting of the association, and by a vote of a majority of the members, the association may remove the officer or director and fill the vacancy. The director or officer against whom such charges have been brought shall be informed in writing of the charges previous to the meeting and shall have an opportunity at the meeting to be heard in person or by counsel and to present witnesses; and the person bringing the charges against him shall have the same opportunity.

In case the by-laws provide for election of directors by districts with primary elections in each district then the petition for removal of a director must be signed by twenty per cent of the members residing in the district from which he was elected. The board of directors must call a special meeting of the members residing in that district to consider the removal of the director. By a vote of the majority of the members of that district, the director in question shall be removed from office.

History.—§15, ch. 9300, 1923; CGL 6480; §15, ch. 14675, 1931.

An association may issue its shares of stock having no par value from time to time for such consideration as may be fixed by the board of directors. No association shall issue stock until it has been fully paid for. Promissory notes may be accepted by the association as full or partial payment for such stock. The association shall hold the stock as security for the payment of the note; but such retention as security shall not affect the right of any stockholder to vote unless such notes are past due.

No member shall be liable for the debts of the association to an amount exceeding the sum remaining unpaid on his membership fee or his subscription to capital stock, including any unpaid balance on any promissory notes given in payment thereof.

No stockholder of an association organized under this chapter, except an association organized under this chapter or an association as defined in this chapter, shall own more than one-third of the outstanding common stock of the association; and an association in its by-laws may limit the amount of common stock which one member may own to an amount less than one-third of the outstanding common stock. The association shall limit its dividends on stock both common and preferred, to any amount not greater than eight per cent per annum on the par value thereof, or if such capital stock is without par value, then upon the actual cash value of the consideration re-

ceived by the association therefor. The association by the vote of its directors, may establish and accumulate reserves out of earnings, including a permanent surplus fund as an addition to capital. Net income in excess of additions to reserves and surpluses so established shall be distributed to the members of the association on the basis of patronage. Any distribution of reserves and surpluses at any time shall be made to members at the time such distribution is ordered on the basis of patronage.

Any receipts or dividends from subsidiary corporations or from stock or other securities owned by the association shall be included in the ordinary receipts of the association.

No member in any association without capital stock shall be entitled to more than one vote; but the by-laws may provide that such members or the holders of common stock in an association with capital stock, may vote upon any or all questions on a patronage basis.

Preferred stock may be sold to any person, member or nonmember, and may be redeemable or retireable by the association on such terms and conditions as may be provided for in the articles of incorporation, and printed on the stock certificates. The by-laws, except as otherwise provided for in this chapter, shall prohibit the transfer of the common stock of the association to persons not engaged in the production of agricultural products and such restrictions shall be printed upon every certificate of stock subject thereto.

History.—§14, ch. 9300, 1923; CGL 6479; §14, ch. 14675, 1931.

618.16 Referendum upon certain motions.—Upon demand of one-third of the entire board of directors made immediately and so recorded at the same meeting at which the original motion was passed any matter that has been approved or passed by the board must be referred to the entire membership or the stockholders for decision at the next special or regular meeting; provided, however, that a special meeting may be called for the purpose.

History.—§16, ch. 9300, 1923; CGL 6481; §16, ch. 14675, 1931.

618.17 Marketing contracts.—The association and its members may make and execute marketing contracts requiring the members to sell, for any period of time, all or any specified part of their agricultural products or specified commodities exclusively to or through the association or any agencies designated by the association. The contracts may provide that the association may sell or resell the products of its members with or without taking title thereto; and pay to its members the resale price, after deducting all necessary selling, overhead and other costs and expenses, including interest or dividends on stock, not exceeding eight per cent per annum, and reserves for retiring the stock, if any; and other proper reserves; and any other proper deductions.

History.—§17, ch. 9300, 1923; CGL 6482(1); §18, ch. 1931.

618.18 Remedies for breach of marketing contract.—

(1) The by-laws and the marketing contract may fix, as liquidated damages, specific sums to be paid by the member or stockholder of the association upon the breach by him of any provisions of the marketing contract regarding the sale or delivery or withholding of products; and may further provide that the member will pay all costs, premiums for bonds, expenses and fees in case any action is brought upon the contract by the association; and any such provisions shall be valid and enforceable in the courts of this state.

(2) In the event of any such breach or threatened breach of such marketing contract by a member, the association shall be entitled to an injunction to prevent the further breach of the contract and to a decree of specific performance thereof. Pending the adjudication of such an action and upon filing a verified complaint showing the breach or threatened breach, and upon filing a sufficient bond, the association shall be entitled to a temporary restraining order and preliminary injunction against the member.

Any two or more associations may, by agreement between them, unite in employing and using or may separately employ and use the same personnel, methods, means, and agencies for carrying on and conducting their respective businesses.

If such corporations are warehousing corporations, they may issue legal warehouse receipts to the associations against the commodities delivered by it, or to any other person and such legal warehouse receipts shall be considered as adequate collateral to the extent of the usual and current value of the commod-

ity represented thereby. In case such warehouse is licensed, or licensed and bonded under the laws of this or any other state or the United States, its warehouse receipt delivered to the association on commodities of the association or its members, or delivered by the association or its members, shall not be challenged or discriminated against because of ownership or control wholly or in part, by the association.

(a) All liabilities of the partnership, except liabilities to general partners and to limited partners on account of their contributions, have been paid or there remains property of the partnership sufficient to pay them,

(b) The consent of all members is had, unless the return of the contribution may be rightfully demanded under the provisions of subsection (2), and,

(c) The certificate is canceled or so amended as to set forth the withdrawal or reduction.

(2) Subject to the provisions of subsection (1), a limited partner may rightfully demand the return of his contribution:

(a) On the dissolution of a partnership, or,
(b) When the date specified in the certificate for its return has arrived, or,

(4) When a contributor has rightfully received the return in whole or in part of the capital of his contribution, he is nevertheless liable to the partnership for any sum, not in excess of such return with interest, necessary to discharge its liabilities to all creditors who extended credit or whose claims arose before such return.

620.20 Effect of retirement, death or insanity of general partner.—The retirement, death or insanity of a general partner dissolves the partnership, unless the business is continued by the remaining general partners:

History.—§5, ch. 61-64.

621.06 Rendition of professional services, limitation.—No corporation organized and incorporated under this act may render professional services except through its officers, employees and agents who are duly licensed or otherwise legally authorized to render such professional services within this state; provided, however, this provision shall not be interpreted to include in the term "employee" as used herein clerks, secretaries, bookkeepers, technicians and other assistants who are not usually and ordinarily considered by custom and practice to be rendering professional services to the public for which a license or other legal authorization is required.

A corporation's failure to require compliance with this provision shall constitute a ground for the forfeiture of its articles of incorporation and its dissolution. When a corporation's failure to comply with this provision is brought to the attention of the office of the secretary of state, the secretary of state forthwith shall certify that fact to the attorney general for appropriate action to dissolve the corporation.

History.—§10, ch. 61-64.

At such shareholders' meet-

ing the shares of stock held by the shareholder proposing to sell or transfer his shares may not be voted or counted for any purpose. The articles of incorporation may provide specifically for additional restraints on the alienation of shares and may require the redemption or purchase of such shares by the corporation at prices and in a manner specifically set forth in such articles or the articles may specifically authorize the corporation's board of directors or its shareholders to adopt bylaws restraining the alienation of shares and providing for the purchase or redemption by the corporation of its shares; provided, however, such provisions dealing with the purchase or redemption by the corporation of its shares may not be invoked at a time or in a manner that would impair the capital of the corporation.

624.0200 Certificate of authority required.—

(1) No person shall act as an insurer and no insurer or its agents, attorneys, subscribers,

or representatives, shall directly or indirectly transact insurance in this state except as authorized by a subsisting certificate of authority

issued to the insurer by the commissioner, except as to such transactions as are expressly otherwise provided for in this code.

(2) No insurer shall from offices or by personnel or facilities located in this state solicit insurance applications or otherwise transact insurance in another state or country unless it holds a subsisting certificate of authority issued to it by the commissioner authorizing it to transact the same kind or kinds of insurance in this state.

(3) This state hereby preempts the field of regulating insurers and their agents and representatives, and no county, city, municipality, district, school district, or political subdivision shall require of any insurer, agent, or representative regulated under this code any authorization, permit, or registration of any kind for conducting transactions lawful under the authority granted by the state under this code.

624.0201 Exceptions, certificate of authority required.—A certificate of authority shall not be required of an insurer with respect to the following:

(1) Investigation, settlement, or litigation of claims under its policies lawfully written in this state, or liquidation of assets and liabilities of the insurer (other than collection of new premiums), all as resulting from its former authorized operations in this state.

(2) Transactions involving a policy, subsequent to issuance thereof, covering only subjects of insurance not resident, located, or expressly to be performed in this state at time of issuance, and lawfully solicited, written, or delivered outside this state.

(3) Transactions pursuant to surplus lines coverages lawfully written under part VI of chapter 626.

(4) Reinsurance, when transacted as authorized under §624.0409.

(5) The continuation and servicing of life insurance or disability insurance policies or annuity contracts remaining in force as to residents of this state where the insurer has withdrawn from the state and is not transacting new insurance therein.

History.—§46, ch. 59-205.

Note.—Similar provision found in former §625.12.

624.0202 Authorization for investment purposes only.—A foreign insurer may transact business in this state without certificate of authority, for the purpose and to the extent only of investing its funds in Florida real estate or in securities secured thereby, by complying with the laws of this state relating to foreign business corporations in general. Such an insurer shall not be subject to any other provisions of this code.

History.—§47, ch. 59-205.

624.0203 General eligibility of insurers for certificate of authority.—To qualify for and hold authority to transact insurance in this state an insurer must be otherwise in compli-

ance with this code and with its charter powers, and must be an incorporated stock insurer, or an incorporated mutual insurer, or a reciprocal insurer, of the same general type as may be formed as a domestic insurer under this code; except that:

(1) No insurer shall be authorized to transact insurance in this state which does not maintain reserves as required by part I of chapter 625 (assets and liabilities) applicable to the kind or kinds of insurance transacted by such insurer, wherever transacted in the United States; or which transacts insurance in the United States on the assessment premium plan, stipulated premium plan, co-operative plan, or any similar plan.

(2) No foreign insurer shall be authorized to transact insurance in this state unless it is otherwise qualified therefor under this code and has operated satisfactorily for at least three years in its state or country of domicile or is the wholly owned subsidiary of an insurer which is an authorized insurer in this state, or is the successor in interest through merger or consolidation of an authorized insurer.

(3) The commissioner shall not grant or continue authority to transact insurance in this state as to any insurer the management of which is found by him to be incompetent or untrustworthy, or so lacking in insurance company managerial experience as to make the proposed operation hazardous to the insurance-buying public; or which he has good reason to believe is affiliated directly or indirectly through ownership, control, reinsurance transactions or other insurance or business relations, with any person or persons whose business operations are or have been marked, to the detriment of policyholders or stockholders or investors or creditors or of the public, by manipulation of assets, or of accounts, or of reinsurance, or by bad faith.

(4) No insurer the voting control or ownership of which is held in whole or substantial part by any government or governmental agency, or which is operated for or by any such government or agency, shall be authorized to transact insurance in this state. Membership in a mutual insurer, or subscribership in a reciprocal insurer, or ownership of stock of an insurer by the alien property custodian or similar official of the United States, or supervision of an insurer by public insurance supervisory authority shall not be deemed to be an ownership, control, or operation of the insurer for the purposes of this subsection.

(5) No authorized insurer shall act as a fronting company for any unauthorized insurer. A "fronting company" is an authorized insurer which by reinsurance or otherwise generally transfers to one or more unauthorized insurers substantially the entire risk of loss under substantially all of the insurance written by it in this state. This provision shall not apply as to any policies which are in force on the effective date of this code.

(6) No insurer shall be authorized to transact insurance in this state which during the

three years immediately preceding its application for a certificate of authority has violated any of the insurance laws of this state and after being informed of such violation has failed to correct the same; except, that if all other requirements are met the commissioner may nevertheless issue a certificate of authority to such an insurer upon the filing by the insurer of a sworn statement of all such insurance so written in violation of law, and upon payment to the commissioner of a sum of money as additional filing fee equivalent to all premium taxes and other state taxes and fees as would have been payable by the insurer if such insurance had been lawfully written by an authorized insurer under the laws of this state. This fee when collected shall be deposited to the credit of the miscellaneous service fund provided for under §624.0324.

(7) Nothing in this code shall be deemed to prohibit the granting and continuance of a certificate of authority to a domestic title insurer organized as a business trust, if the declaration of trust of such insurer was filed in the office of the secretary of state prior to January 1, 1959, and if the insurer otherwise meets the applicable requirements of this code. Such an insurer may hereinafter in this code be referred to as a "business trust insurer."

624.0204 Name of insurer.—

(1) No insurer shall be formed or authorized to transact insurance in this state under a name which is the same as that of any other authorized insurer or is so nearly similar thereto as to cause or tend to cause confusion, or which would tend to mislead as to the type of organization of the insurer. Before incorporating under or using any name the insurer or proposed insurer shall submit its name or proposed name to the commissioner for his approval consistent with this provision, and such approval shall be endorsed upon any proposed charter or application for authority which may be submitted to any officer authorized to grant such proposed charter or authority.

(2) Before approving or disapproving the name or proposed name of an insurer the commissioner shall notify all other authorized insurers whose name might be adversely affected, allowing them thirty days after the date of the notice within which to file their objections with him. If a name is so objected to, the commissioner shall disapprove the name unless he is of the opinion that the objections are not well-founded.

(3) No charter or authority shall be granted to any person by any court, office, department, or officer authorized to grant authority or permission to organize or act as an insurer unless the application therefor or proposed charter bears the endorsed approval of the name by the commissioner.

(4) No life insurer shall be so authorized which has or uses a name deceptively similar to that of another insurer authorized to transact

insurance in this state within the preceding five years if life insurance policies originally issued by such other insurer are still outstanding in this state.

(1) A life insurer may also grant annuities, but shall not be authorized to transact any other kind of insurance other than disability; except, that the commissioner shall, if the insurer is otherwise qualified therefor, continue to so authorize any life insurer which, immediately prior to the effective date of this code, was lawfully authorized to transact in this state a kind or kinds of insurance in addition to life and disability.

(2) A reciprocal insurer shall not transact life insurance.

(3) Except as to domestic mutual title insurers, or domestic business trust title insurers as referred to in §624.0203(7), so authorized prior to the effective date of this code, a title insurer shall be a stock insurer.

quirements shall be based upon all the kinds of insurance actually transacted or to be transacted by the insurer in any and all areas in which it operates, whether or not only a portion of such kinds are to be transacted in this state.

(3) As to surplus required for qualification to transact one or more kinds of insurance and thereafter to be maintained, domestic mutual insurers are governed by chapter 628 of this code and domestic reciprocal insurers are governed by chapter 629.

(2) If within three years after date of its initial certificate of authority to transact insurance in this state such an insurer requests authority to transact an additional kind or kinds of insurance, it shall not be so authorized unless it then possesses surplus or additional surplus in such an amount as would be required under this section as for an original certificate of authority covering all the kinds of insurance the insurer then proposes to transact.

(3) After issuance of its initial certificate of authority the insurer shall maintain a surplus required under this section of not less than one hundred thousand dollars, except that a title insurer must at all times have the surplus as to policyholders as provided for in §624.0208 (3).

(1) All stock, mutual, reciprocal, and business trust insurers, which had in full force and effect a certificate of authority to transact insurance in this state on January 1, 1963, and which do not meet the capital, surplus or net trust fund requirements of §624.0206 shall increase to the additional required capital on or before December 31, 1968.

(2) All stock, mutual, reciprocal, and business trust insurers, which had in full force and effect a certificate of authority to transact insurance in this state on January 1, 1963, and which do not meet the special surplus requirements of §624.0207 shall increase to and maintain the minimum required surplus of one hundred thousand dollars as provided in §624.0207

(3) at the rate of thirty-three and one-third per cent on or before December 31, 1964, and the remaining sixty-six and two-thirds per cent on or before December 31, 1966.

(3) A title insurer must at all times have and maintain surplus as to policyholders in the amount of not less than three hundred thousand dollars; and if the insurer is a stock insurer not less than one hundred thousand dollars of such surplus as to policyholders must be represented by paid-in capital stock.

(4) Except, that any such insurer which after the effective date of this code requests authority to transact any kind or kinds of insurance in addition to those it was authorized to transact prior thereto shall possess and maintain unimpaired the same amount of paid-in capital stock (if a stock insurer) or surplus (if a mutual or reciprocal insurer) or net trust fund (if a business trust insurer) as would be required of a new insurer under §624.0206 for authority to transact all the kinds of insurance the insurer then proposes to transact.

(5) Surety insurers having unimpaired paid-in capital stock (if a stock insurer) or unimpaired surplus (if a mutual or reciprocal insurer) of less than two hundred fifty thousand dollars are not acceptable as surety upon the bonds of the city, county and state officers, under §627.0903.

(1) A life insurer may also grant annuities without additional capital or additional surplus.

(2) A casualty insurer may be authorized to transact also disability insurance without additional capital or additional surplus.

(3) A property insurer may without additional capital or additional surplus include such amount and kind of insurance against legal liability for injury, damage, or loss to the person or property of others, and for medical, hospital, and surgical expense related to such injury, as the commissioner deems to be reasonably incidental to insurance of real property against fire and other perils under policies covering residential properties involving not more than four families, with or without incidental office, professional, private school or studio occupancy by an insured, whether or not the premium or rate charged for certain perils so covered is specified in the policy. Any provision of §624.0408 (limit of risk) to the contrary notwithstanding, no insurer authorized as to property insurance only shall, pursuant to this subsection, retain risk as to any one subject of insurance as to hazards other than property insurance hazards, in an amount exceeding five per cent of its surplus to policyholders.

History.—§54, ch. 59-205.

624.0210 Deposit requirement, domestic and foreign insurers.—

(1) The commissioner shall not issue or permit to exist a certificate of authority as to any domestic insurer, unless it has deposited and maintains deposited in trust for the protection of the insurer's policyholders or its policy-

(a) To transact property insurance, fifty thousand dollars.

(b) To transact casualty insurance, fifty thousand dollars.

(c) To transact title insurance, seventy-five thousand dollars.

(d) To transact surety insurance, seventy-five thousand dollars.

Provided that if a foreign insurer writes more than one kind of insurance in this state listed from (a) through (d) of this subsection, it shall not be required to deposit more than seventy-five thousand dollars. Such deposits shall be for the protection of the insurer's policyholders or its policyholders and creditors.

Provided further that if a foreign insurer has a surplus to policyholders of not less than one million dollars of which not less than five hundred thousand dollars is unassigned surplus, according to the latest annual statement, such foreign insurer shall not be required to make such deposit.

(3) In addition to the deposits otherwise required pursuant to this section, the commissioner may, after notice and hearing, require any insurer transacting property, casualty, surety, or title insurance, for good cause shown, to deposit and maintain deposited in trust for the protection of the insurer's policyholders or its policyholders and creditors for such time as he deems necessary, securities eligible for such deposit under §625.0202 having a value at all times of not less than the amount which the commissioner shall determine is necessary, which amount shall be not less than seventy-five thousand dollars, nor more than two hundred fifty thousand dollars, depending on the insurer's obligations in this state.

(a) The largest amount of paid-in capital stock required by §624.0206 of a domestic stock insurer transacting like kinds of insurance, or

(b) Three hundred thousand dollars.

624.0213 Issuance or refusal of authority.—

(1) If upon completion of the application for a certificate of authority the commissioner finds that the insurer has met the requirements for and is entitled thereto under this code, he shall issue to the insurer a proper certificate of authority; if he does not so find, the commissioner shall issue his order refusing such certificate. The commissioner shall act upon an application for a certificate of authority within a reasonable period after its completion. In the case of an alien insurer, such valuation shall be limited to its insurance transactions in the United States. In calculating such reserves, the commissioner may use group methods and approximate averages for fractions of a year or otherwise. He may accept in his discretion the insurer's calculation of such reserves. In lieu of the valuation of the reserves herein required of any foreign or alien insurer, he may accept any valuation made or caused to be made by the insurance supervisory official of any state or other jurisdiction when such valuation complies with the minimum standard herein provided, and if the official of such state or jurisdiction accepts as sufficient and valid for all legal purposes the certificate of valuation of the commissioner when such certificate states the valuation to have been made in a specified manner according to which the aggregate reserves would be at least as large as if they had been computed in the manner prescribed by the law of that state or jurisdiction. Where any such valuation is made by the commissioner, he may use the actuary of the department or employ an actuary for the purpose, and the reasonable compensation of the actuary, at a rate approved by the commissioner, and reimbursement of traveling expenses pursuant to §624.0119 upon demand by the commissioner supported by an itemized statement of such compensation and expenses, shall be paid by the insurer. When a domestic

insurer furnishes the commissioner with a valuation of its outstanding policies as computed by its own actuary or by an actuary deemed satisfactory for the purpose by the commissioner, the valuation shall be verified by the actuary of the department without cost to the insurer.

(3) The minimum standard for the valuation of all such policies and contracts issued prior to the operative date of §627.0225 (standard nonforfeiture law) shall be any basis satisfactory to the commissioner. Any basis satisfactory to the commissioner on the effective date of this code shall be deemed to meet such minimum standards.

(4) The minimum standard for the valuation of all such policies and contracts issued on or after the operative date of §627.0225 (standard nonforfeiture law) shall be the commissioner's reserve valuation method defined in subsection (5) of this section, three and one-half per cent interest and the following tables:

(a) For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in such policies, the commissioners' 1958 standard ordinary mortality table; except, that for any category of such policies issued on female risks modified net premiums and present values, referred to in subsection (5) of this section, may be calculated according to an age not more than three years younger than the actual age of the insured.

(b) For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in such policies, the 1941 standard industrial mortality table.

(c) For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies, the 1937 standard annuity mortality table or, at the option of the insurer, the annuity mortality table for 1949, ultimate, or any modification of either of these tables approved by the commissioner.

(d) For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies, the group annuity mortality table for 1951, any modification of such table approved by the commissioner, or, at the option of the insurer, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts.

(e) For total and permanent disability benefits in or supplementary to ordinary policies or contracts, for policies or contracts issued on or after January 1, 1966, the tables of period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 disability study of the society of actuaries, with due regard to the type of benefit; for policies or contracts issued on or after January 1, 1961 and prior to January 1, 1966, either such tables or, at the option of the insurer, the class three disability table (1926); and for poli-

cies issued prior to January 1, 1961, the class three disability table (1926). Any such table for active lives, shall be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(f) For accidental death benefits in or supplementary to policies, for policies issued on or after January 1, 1966, the 1959 accidental death benefits table; for policies issued on or after January 1, 1961 and prior to January 1, 1966, either such table or, at the option of the insurer, the intercompany double indemnity mortality table; and for policies issued prior to January 1, 1961, the intercompany double indemnity mortality table. Either table shall be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(g) For group life insurance, life insurance issued on the sub-standard basis and other special benefits, such tables as may be approved by the commissioner as being sufficient with relation to the benefits provided by such policies.

(5) COMMISSIONERS' RESERVE VALUATION METHOD.—

(a) Reserves according to the commissioners' reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums, shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of 1. over 2. as follows:

1. A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due; provided, however, that such net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

2. A net one-year term premium for such benefits provided for in the first policy year.

(b) Reserves according to the commissioners' reserve valuation method for:

1. Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums,
2. Annuity and pure endowment contracts,
3. Disability and accidental death benefits in all policies and contracts, and

4. All other benefits, except life insurance and endowment benefits in life insurance policies,

shall be calculated by a method consistent with the principles of subsection (5) (a) of this section, except that any extra premiums charged because of impairments or special hazards shall be disregarded in the determination of modified net premiums.

(6) MINIMUM AGGREGATE RESERVES.—In no event shall an insurer's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued on or after the operative date of §627.0225, be less than the aggregate reserves calculated in accordance with the method set forth in subsection (5) of this section and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for such policies.

(7) OPTIONAL RESERVE BASIS.—

(a) Reserves for all policies and contracts issued prior to the operative date of §627.0225 may be calculated, at the option of the insurer, according to any standards which produce greater aggregate reserves for all such policies and contracts than the minimum reserves required by the laws in effect immediately prior to such date.

(b) For any category of policies, contracts or benefits specified in subsection (4) of this section, issued on or after the operative date of §627.0225 (the standard nonforfeiture law), reserves may be calculated, at the option of the insurer, according to any standard or standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided, but the rate or rates of interest used shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided for therein, provided, however, that reserves for participating life insurance policies issued on or after the operative date of §627.0225 (the standard nonforfeiture law) may, with the consent of the commissioner, be calculated according to a rate of interest lower than the rate of interest used in calculating the nonforfeiture benefits in such policies, with the further proviso that if such lower rate differs from the rate used in the calculation of the nonforfeiture benefits by more than one-half of one per cent, the insurer issuing such policies shall file with the commissioner a plan providing for such equitable increases, if any, in the cash surrender values and nonforfeiture benefits in such policies as the commissioner approves.

(8) LOWER VALUATIONS.—An insurer which at any time had adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum herein provided.

(9) **DEFICIENCY RESERVE.**—If the gross premium charged by any life insurer on any policy or contract is less than the net premium for the policy or contract according to the mortality table, rate of interest and method used in calculating the reserve thereon, there shall be maintained on such policy or contract a deficiency reserve in addition to all other reserves required by law. For each such policy or contract the deficiency reserve shall be the present value, according to such standard, of an annuity of the difference between such net premium and the premium charged for such policy or contract, running for the remainder of the premium-paying period.

(10) This section does not apply as to those credit life insurance policies for which reserves are computed and maintained as required under §625.131.

(2) As to single premium credit life insurance policies, the insurer shall establish and maintain reserves which are not less than the value, at the valuation date, of the risk for the unexpired portion of the period for which the premium has been paid as computed on the basis of the commissioners' 1941 standard ordinary mortality table and three per cent interest. At the commissioner's discretion, the insurer may make a reasonable assumption as to the ages at which net premiums are to be determined. In lieu of the foregoing basis, reserves based upon unearned gross premiums may be used at the option of the insurer.

(b) If purchased above or below par, on the basis of the purchase price adjusted so as to bring the value to par at maturity and so as to yield in the meantime the effective rate of interest at which the purchase was made, or in lieu of such method, according to such accepted method of valuation as is approved by the commissioner.

(c) Purchase price shall in no case be taken at a higher figure than the actual market value at the time of purchase, plus actual brokerage, transfer, postage or express charges paid in the acquisition of such securities.

(2) The commissioner shall have full dis-

cretion in determining the method of calculating values according to the rules set forth in this section, but no such method or valuation shall be inconsistent with any applicable valuation or method used by insurers in general, or any such method then currently formulated or approved by the national association of insurance commissioners or its successor organization.

(3) Stock of a subsidiary corporation of an insurer shall not be valued at an amount in excess of the net value thereof as based upon those assets only of the subsidiary which would be eligible under part II of chapter 625 for investment of the funds of the insurer direct.

(4) No valuations under this section shall be inconsistent with any applicable valuation or method then currently formulated or approved by the national association of insurance commissioners or its successor organization.

(3) Upon being satisfied by such statement and such other information and evidence as he may reasonably require, and by such examination, if any, of the affairs of the insurer as he deems advisable to make, that the insurer is entitled to the release of its deposits or excess portions thereof as provided in §625.0212, the commissioner shall release, or authorize the custodian bank or trust company in the case of deposits made under §625.0204 or §625.0205 to release, the deposit or excess portion thereof to the insurer or its authorized representative. In the event that no such information is presented to the commissioner within such ninety day period, he shall thereupon release and return the deposit or deposits as requested by the insurer or insurers whose request was not challenged. (e) Such vending machine shall be so constructed and operated that it shall retain a copy of the application, showing the date, name and address of applicant and beneficiary and the amount of insurance;

(f) No policy of insurance vended through such machine shall be for a period of time longer than forty-eight hours, or for the duration of a specified one-way trip or round trip, as applicable;

(g) Each such machine shall have provided on it or immediately adjacent thereto, in a prominent location, adequate envelopes for the use of patrons of such machines in mailing the policies vended through such machines, or that the policy itself (if designed to permit such

procedure) may be mailed without an envelope; and

(h) Such licensed agent shall cause to be inspected and tested each such vending machine with reasonable frequency, and at least once each day on five out of each seven days; and should same not be in good working condition shall cause a notice to be prominently displayed thereon that the same is out of order. (2) Nothing in this section shall be construed to apply to or affect any contingent commissions agreement under which the general or state agent or local resident agent does not pay claims arising under policies of the insurer he represents from a stated percentage of premiums collected by him or remitted to such agent and retained by him.

(4) Such general charges are not required to allege any facts constituting any alleged improper conduct of the licensee, for such inquiry or investigation is authorized as a fact-finding inquiry or investigation for the purpose of determining the existence or non-existence of facts constituting such improper conduct as would justify the commissioner in instituting proceedings to suspend or revoke the license of any such licensee as hereinafter in this chapter provided.

(5) Service of such copy of general charges may be made by delivering copy to the licensee or mailing same by registered or certified mail with return receipt requested addressed to him at his business or residence address. If so mailed, notice shall be deemed to have been given when deposited in a mail depository of the United States post office.

(6) The charges or complaints against any agent, solicitor or adjuster may be informally alleged and need not be in any such language as is necessary to charge a crime on an indictment or information.

(1) For any cause for which issuance of the license or permit could have been refused had it then existed and been known to the commissioner.

(2) Violation of any provision of this code or of any other law applicable to the business of insurance in the course of dealing under the license or permit.

(3) Violation of any lawful order or rule or regulation of the commissioner.

626.631 Procedure for refusal, suspension, or revocation of license or permit.—

(1) If any licensee or permittee is convicted by a court of a violation of this code, the license or permit of such individual shall thereby be deemed to be immediately revoked, without any further procedure relative thereto by the commissioner.

(2) As to licenses and permits denied by the commissioner upon application therefor, the applicant if aggrieved thereby shall have the right to a hearing thereon and may appeal to the court from any adverse decision of the commissioner relative thereto as provided in general in part II of chapter 624 (the insurance commissioner).

(3) As to licenses or permits issued under part I of this chapter and thereafter suspended or revoked, or renewal or continuation thereof refused by the commissioner except for failure of the licensee to pass any examination required under part I of this chapter, the procedures hereinafter set forth in this section shall apply.

(4) If after an investigation or upon other evidence the commissioner has reason to believe that there may exist any one or more grounds for the suspension, revocation, or refusal to renew or continue the license of any agent or solicitor or adjuster or the permit of any service representative or claims investigator, as such grounds are specified in §§626.611 and 626.621, the commissioner shall mail written notice of his intention to suspend, revoke, or refuse to renew or continue the license or permit, as the case may be, accompanied by a copy of the charges against the licensee or permittee, to the licensee or permittee and to each insurer represented by a licensee agent or employing a licensee adjuster or permittee, and to the appointing general lines agent as to a licensee solicitor. Such notice and charges shall be mailed by registered mail, addressed to the licensee or permittee at his residence or

principal business address last of record with the commissioner, and to the insurer or appointing agent addressed to the insurer or agent at its or his address last of record with the commissioner. The notice shall be deemed given when so addressed and mailed postage prepaid at a United States post office or branch thereof.

(5) If within twenty days after the date of mailing the notice and charges as provided for in subsection (4), neither the licensee or the permittee, nor the insurer or appointing agent have filed with the commissioner at his office in Tallahassee a written answer to such charges coupled with a written request for a hearing thereon, the commissioner may proceed to suspend, revoke, or refuse to renew the license or permit.

(6) If within such twenty days an answer and request for hearing is so filed with the commissioner, the commissioner shall hold a hearing with respect to the charges, the hearing to be held within sixty days of the date of the mailing of the notice and charges referred to in subsection (4), unless postponed by mutual consent of the parties. The commissioner shall give the licensee or permittee and each insurer or appointing agent that has filed with him the answer to the charges and request for hearing as provided in subsection (5) written notice of the hearing and of the matters to be considered thereat not less than ten days in advance of the hearing date.

(7) All such hearings shall be conducted under the provisions of §624.0125 (conduct of hearings), and in accordance with other applicable provisions of part II of chapter 624 (the insurance commissioner) including, but not limited to, §§624.0120 (witnesses and evidence), 624.0121 (testimony compelled; immunity from prosecution) and 624.0122 (same; penalty for refusal to testify), to the extent that such provisions are not in conflict with the express provisions of this section.

(8) The commissioner's statement of charges, papers, documents, reports or evidence relative to the subject of a hearing under this section shall not be subject to subpoena without his consent until after the same shall have been published at the hearing, unless after notice to the commissioner and hearing the court determines that the commissioner would not be unnecessarily hindered or embarrassed by such subpoenas.

(9) Following the hearing the commissioner shall make his order thereon as required under §624.0126 (order on hearing) and mail a copy thereof by registered mail to the address last of record in his office of each party to the hearing. If by his findings made upon the hearing the commissioner finds that one or more of the grounds therefor exist as specified in §§626.611 and 626.621, his order shall incorporate the taking of action relative to suspension, revocation, or refusal to renew or continue the license or permit as required under

§626.611 or as authorized under §626.621.

(1) The commissioner shall, in his order suspending a license or permit, specify the period during which the suspension is to be in effect, but such period shall not exceed one year. The license or permit shall remain suspended during the period so specified; subject, however, to any rescission or modification of the order by the commissioner, or modification or reversal thereof by the court, prior to expiration of the suspension period. A license or permit which has been suspended shall not be reinstated except upon request for such reinstatement, but the commissioner shall not grant such reinstatement if he finds that the circumstance or circumstances for which the license or permit was suspended still exist or are likely to recur.

(2) No individual licensed or the permittee under any license or permit which has been revoked by the commissioner, shall have the right to apply for another license or permit under this code within two years from the effective date of such revocation, or, if judicial review of such revocation is sought, within two years from the date of final court order or decree affirming the revocation. The commissioner shall not, however, grant a new license or permit to any individual if he finds that the circumstance or circumstances for which the previous license or permit was revoked still exist or are likely to recur; if an individual's license as agent or solicitor has been revoked upon the ground specified in §626.611 (12) (controlled business), the commissioner shall refuse to grant or issue any new license so applied for.

(3) If licenses as agent or solicitor as to the same individual have been revoked at two separate times, the commissioner shall not thereafter grant or issue any license or permit under this code as to such individual.

(4) During the period of suspension, or after revocation of the license or permit, the former licensee or permittee shall not engage in or attempt to profess to engage in any transaction or business for which a license or permit is required under this code.

626.651 Effect of suspension, revocation upon associated licenses and licensees.—

(1) Upon suspension, revocation or refusal to renew or continue any one license of an agent or solicitor the commissioner shall at the same time likewise suspend or revoke all other licenses held by the licensee under this code.

(2) In case of the suspension or revocation of license of any general lines agent, the license of any and all other agents who are

members of such agency, whether incorporated or unincorporated, and any and all solicitors employed by such agency, who knowingly are parties to the act which formed the ground for the suspension or revocation may likewise be suspended or revoked for the same period as that of the offending agent; but this shall not prevent any agent or solicitor, except the one whose license was first suspended or revoked, from being licensed as a member of or a solicitor for some other agency. The provisions of this subsection shall not apply to life agents.

(3) The procedures provided for in §626.631 shall likewise apply as to suspensions, revocations and refusals to renew or continue as referred to in subsection (2).

(2) As a condition to such probation or in connection therewith, the commissioner may specify in his order reasonable terms and conditions to be fulfilled by the probationer during the probation period. 626.0101 Scope of part II.—Part II of this chapter applies only as to:

- (1) General lines agents, as defined in §626.041;
- (2) Solicitors, as defined in §626.071; and
- (3) Service representatives, as defined in §626.081.

626.0102 Part II is supplementary to licensing law.—Part II of this chapter is supplementary to part I of this chapter of the code, "the licensing procedures law."

History.—§253, ch. 59-205.

626.0103 Industrial fire insurance defined.—For the purposes of this code "industrial fire insurance" is insurance against loss by fire of buildings or other structures, which may include extended coverage and windstorm insurance, under which the premiums are collected monthly or more often and the face amount of

the insurance provided by the policy on one risk under the same ownership is not more than two thousand five hundred dollars including the contents of such buildings or other structures, and the insurer issuing such policy is operating under a system of collecting a debit by its agents.

History.—§254, ch. 59-205.

Note.—Similar provision found in former §627.72.

626.0104 Purpose of license.—

(1) The purpose of a license issued under this code to a general lines agent or solicitor is to authorize and enable the licensee actively and in good faith to engage in the insurance business as such an agent or solicitor with respect to the general public, and to facilitate the public supervision of such activities in the public interest; and not for the purpose of enabling the licensee to receive a rebate of premium in the form of "commission" or other compensation as an "agent" or "solicitor," or to enable the licensee to receive commissions or other compensation based upon insurance solicited or procured by or through him upon his own interests or those of other persons with whom he is closely associated in capacities

other than that of insurance agent or solicitor.

(2) The commissioner shall not grant, renew, continue, or permit to exist any license as such agent or solicitor as to any applicant therefor or licensee thereunder if he finds that the license has been or is being or will probably be used by the applicant or licensee for the purpose of securing rebates or commissions on "controlled business," that is, on insurance written on his own interests or those of his family or of any firm, corporation or association with which he is associated, directly or indirectly, or in which he has an interest other than as to the insurance thereof.

(3) A violation of this section shall be deemed to exist or be probable (as to an applicant for license) if the commissioner finds that during any twelve months period aggregate commissions or other compensation accruing in favor of the applicant or licensee based upon the insurance procured or to be procured (in the case of an applicant for license) by or through the licensee with respect to insurance of his own interests or those of his family or of any firm, corporation or association with which he is associated or in which he is interested as above referred to in subsection (2), have exceeded or will exceed thirty-five per cent of the aggregate amount of commissions and compensation accruing or to accrue in his favor during the same period as to all insurance coverages procured or to be procured by or through him. Except, any general lines agent who, on July 1, 1959, had aggregate commissions or other compensation on controlled business as defined in this section in excess of the aforesaid thirty-five per cent, shall be permitted to continue writing such insurance for the same insured or insureds, so long as the agent continues to hold a general lines agent's license in good standing to transact the same kinds of insurance so written, until the termination of such license by failure to renew or continue, suspension or revocation.

(4) This section shall not be deemed to prohibit the licensing under a limited license as to motor vehicle physical damage insurance, as provided for in §626.321, any person employed by or associated with a motor vehicle sales or financing agency, with respect to insurance of the interest of such agency in a motor vehicle sold or financed by it. This section shall not apply with respect to the interest of a real estate mortgagee in or as to insurance covering such interest, or in the real estate subject to such mortgage.

626.0112 Temporary license; death, disability, absence of agent.—

(1) The commissioner may, in his discretion, issue a temporary license as agent to a licensed agent's employee, family member, business associate, or personal representative, or to the representative of a direct writing insurer of which the agent was the licensed agent in the area served by the agency, for the purpose of continuing or winding up the business affairs of the agent or agency, all subject to the following conditions:

(a) The agent so being replaced must have become deceased; or unable to perform his duties as agent because of military service, or illness or other physical or mental disability; or, in the case of a direct writing insurer, as above mentioned, have had his employment or agency appointment terminated by the insurer;

(b) There must be no other person connected with the agent's business who is licensed as a general lines agent.

(c) The proposed temporary licensee must be qualified as for a regular general lines agent's license under this code except as to residence, examination, education, or experience.

(d) Application for the temporary license must be made by the applicant upon statements and affidavit filed with the commissioner on forms as prescribed and furnished by him.

(3) If a temporary licensee is used to replace an individual whose agency appointment or employment and license has been terminated by the insurer, such latter individual shall not again be appointed or licensed as an agent of the same insurer or affiliated insurers within a period of twenty-four months following the date of such termination.

(4) If an absent or disabled agent being replaced under a temporary license returns or becomes able to resume the active conduct of the agency, or if the disposition of the affairs of

(1) The commissioner may, upon written application and the payment of a license fee as specified therefor in §624.0300 (filing, license and miscellaneous fees), issue a license as a general lines agent to an individual who is otherwise qualified therefor under parts I and II of this chapter (licensing procedures law), but who is not a resident of this state, if by the laws of the state of his residence, residents of this state may be licensed in like manner as a nonresident agent of his state.

(2) The commissioner shall not, however, issue any such license to any nonresident who has an office or place of business in this state, or who has any direct or indirect pecuniary interest in any insurance agent, insurance agency, or in any solicitor licensed as a resident of this state; nor to any individual who does not, at time of issuance and throughout the existence of the Florida license, hold a license as agent or broker issued by the state of his residence; nor to any individual who is employed by any insurer as a service representative or who is a supervising or managing general agent in any state, whether or not also licensed in another state as an agent or broker.

The commissioner shall have discretion to refuse to issue any such license to a nonresident when he has reason to believe that the applicant by ruse or subterfuge is attempting to avoid the intent and prohibitions contained in this subsection, or to believe that any of the grounds exist as for suspension or revocation of license as set forth in §§626.611 and 626.621.

(3) Such a nonresident shall not enter this state for the purpose of inspecting any risk or property without the written permission of the insured, or of a countersigning agent, resident in this state, on such risk. (2) The appointment shall be irrevocable for as long as there could be any cause of ac-

tion against the agent arising out of his insurance transactions in this state.

(3) Duplicate copies of such legal process against such agent shall be served upon the commissioner by a person competent to serve a summons.

(4) Upon receiving such service, the commissioner shall forthwith send one of the copies of the process, by registered mail with return receipt requested, to the defendant agent at his last address of record with the commissioner.

History.—§337, ch. 59-205.

Note.—Similar provisions found in former §636.40.

626.0424 Office and records.—

(1) Every licensed independent adjuster and every licensed public adjuster shall have and maintain in this state a place of business accessible to the public, and keep therein the usual and customary records pertaining to

transactions under the license. This provision shall not be deemed to prohibit maintenance of such an office in the home of the licensee. The license of the adjuster shall show the address of his place of business, and the licensee shall promptly give written notice to the commissioner of any change of such address.

(2) The records of the adjuster relating to a particular claim or loss shall be so retained in the adjuster's place of business for a period of not less than one year after completion of the adjustment. This provision shall not be deemed to prohibit return or delivery to the insurer or insured of documents furnished to or prepared by the adjuster and required by the insurer or insured to be returned or delivered thereto.

(2) This section does not apply to:

(a) Matters authorized to be done by the commissioner under the unauthorized insurers process law, §§626.0503 through 626.0509.

(b) Surplus lines insurance when written pursuant to the surplus lines law, §§626.0510 through 626.0534.

(c) Transactions as to which certificate of authority is not required of an insurer, as stated in §624.0201 (exceptions, certificate of authority required).

626.0501 Penalty for representing unauthorized insurer.—

(1) Any person who in this state represents or aids an unauthorized insurer in violation of §626.0500 shall upon conviction thereof be guilty of a misdemeanor, and be subject to a fine not in excess of \$1,000, or imprisonment in the county jail for not more than 6 months, or by both such fine and imprisonment in the discretion of the court.

626.0502 Suits by unauthorized insurers prohibited.—As to transactions not permitted under §624.0201, no unauthorized insurer shall institute, file, or maintain, or cause to be instituted, filed, or maintained, any suit, action or proceeding in this state to enforce any right, claim or demand arising out of any insurance transaction in this state.

History.—§344, ch. 59-205.

626.0503 Unauthorized insurers process law; short title; interpretation.—

(1) Sections 626.0503 through 626.0509 may be cited as the "unauthorized insurers process law."

(2) Such law shall be so interpreted as to effectuate its general purpose to make uniform the law of those states which enact it.

History.—§345, ch. 59-205.

626.0504 Purpose of process law.—The purpose of the unauthorized insurers process law is to subject certain insurers to the jurisdiction of courts of this state in suits by or on behalf of insureds or beneficiaries under insurance contracts. The legislature declares that it is a subject of concern that many residents of this state hold policies of insurance issued or delivered in the state by insurers while not authorized to do business in this state, thus presenting to such residents the often insuperable obstacle of resorting to distant forums for the purpose of asserting legal rights under such policies. In furtherance of such state interest, the legislature herein provides a method of substituted service of process upon such insurers and declares that in so doing it exercises its power to protect its residents and to define, for the purpose of this chapter, what constitutes doing business in this state, and also exercises powers and privileges available to the state by virtue of public law 15, 79th congress of the United States, chapter 20, 1st session, s. 340,

as amended, which declares that the business of insurance and every person engaged therein shall be subject to the laws of the several states.

History.—§346, ch. 59-205.

Note.—Similar provisions found in former §625.29.

626.0505 Acts constituting commissioner as process agent.—Any of the following acts in this state, effected by mail or otherwise, by an unauthorized foreign or alien insurer:

(1) The issuance or delivery of contracts of insurance to residents of this state or to corporations authorized to do business therein;

(2) The solicitation of applications for such contracts;

(3) The collection of premiums, membership fees, assessments or other considerations for such contracts; or

(4) Any other transaction of insurance is equivalent to and shall constitute an appointment by such insurer of the commissioner and his successor or successors in office, to be its true and lawful attorney, upon whom may be served all lawful process in any action, suit, or proceeding instituted by or on behalf of an insured or beneficiary, arising out of any such contract of insurance; and any such act shall be signification of the insurer's agreement that such service of process is of the same legal force and validity as personal service of process in this state upon such insurer.

History.—§347, ch. 59-205.

Note.—Similar provisions found in former §625.30.

626.0506 Service of process; judgment by default.—

(1) Service of process upon an insurer pursuant to §626.0505 shall be made by delivering to and leaving with the commissioner or some person in apparent charge of his office two copies thereof. The commissioner shall forthwith mail by registered mail one of the copies of such process to the defendant at its last known principal place of business, and shall keep a record of all process so served upon him. The service of process is sufficient, provided notice of such service and a copy of the process are sent within ten days thereafter by registered mail by plaintiff or plaintiff's attorney to the defendant at its last known principal place of business, and the defendant's receipt, or receipt issued by the post office with which the letter is registered, showing the name of the sender of the letter and the name and address of the person to whom the letter is addressed, and the affidavit of the plaintiff or plaintiff's attorney showing a compliance herewith are filed with the clerk of the court in which the action is pending on or before the date the defendant is required to appear, or within such further time as the court may allow.

(2) Service of process in any such action, suit or proceeding shall in addition to the manner provided in subsection (1) of this section be valid if served upon any person within this state, who, in this state on behalf of such insurer, is

(a) Soliciting insurance, or

(b) Making, issuing or delivering any contract of insurance, or

(c) Collecting or receiving any premium, membership fee, assessment or other consideration for insurance;

and a copy of such process is sent within ten days thereafter by registered mail by the plaintiff or plaintiff's attorney to the defendant at the last known principal place of business of the defendant, and the defendant's receipt, or the receipt issued by the post office with which the letter is registered, showing the name of the sender of the letter and the name and address of the person to whom the letter is addressed, and the affidavit of the plaintiff or plaintiff's attorney showing a compliance herewith are filed with the clerk of the court in which such action is pending on or before the date the defendant is required to appear, or within such further time as the court may allow.

(3) No plaintiff shall be entitled to a judgment by default or a decree pro confesso under this section until the expiration of thirty days from date of the filing of the affidavit of compliance.

(4) Nothing in this section shall limit or abridge the right to serve any process, notice or demand upon any insurer in any other manner now or hereafter permitted by law.

History.—§348, ch. 59-205.

Note.—Similar provisions found in former §625.30.

626.0507 Defense of action by unauthorized insurer; damages and attorney fee.—

(1) Before an unauthorized insurer shall file or cause to be filed any pleading in any action or proceeding instituted against it under §§626.0505 and 626.0506, such insurer shall:

(a) Procure a certificate of authority to transact insurance in this state, or

(b) Deposit with the clerk of the court in which such action or proceeding is pending cash or securities or file with such clerk a bond with good and sufficient sureties, to be approved by the court, in an amount to be fixed by the court sufficient to secure the payment of any final judgment which may be rendered in such action. The court may in its discretion make an order dispensing with such deposit or bond where the insurer makes a showing satisfactory to the court that it maintains in a state of the United States funds or securities, in trust or otherwise, sufficient and available to satisfy any final judgment which may be entered in such action or proceeding, and that the insurer will pay any final judgment entered therein without requiring suit to be brought on such judgment in the state where such funds or securities are located, and that if, nevertheless, such suit is brought on such final judgment the insurer shall waive all defenses thereto.

(c) Any proof, evidence or testimony in support of such motion shall be taken in the jurisdiction of the court in which the action or proceeding is pending.

(d) If the unauthorized insurer seeks to

take discovery or de bene esse depositions of witnesses beyond the jurisdiction of the court in which the action is pending, upon seasonable application by the plaintiff, the court by appropriate order shall require the unauthorized insurer, before such depositions are taken, to make similar deposit as described in paragraph (b) above, in sufficient amount to pay the reasonable expenses of the plaintiff and his attorney in attending the taking of such depositions, including reasonable attorney's fees to be fixed by the court.

(2) The court in any action or proceeding in which service is made in the manner provided in §626.0506 may, in its discretion, order such postponement as may be necessary to afford the defendant reasonable opportunity to comply with the provisions of subsection (1), and to defend such action.

(3) Nothing in subsection (1) is to be construed to prevent an unauthorized insurer from filing a motion to quash or to set aside the service of any process made in the manner provided in §626.0506, hereof on the ground either:

(a) That such unauthorized insurer has not done any of the acts enumerated in §626.0505, or

(b) That the person on whom service was made pursuant to §626.0506(2) was not doing any of the acts therein enumerated.

History.—§349, ch. 59-205.

Note.—Similar provisions found in former §625.31.

626.0508 Attorney fee.—In any action against an unauthorized foreign or alien insurer upon a contract of insurance issued or delivered in this state to a resident thereof or to a corporation authorized to do business therein, if the insurer has failed for thirty days after demand prior to the commencement of the action to make payment in accordance with the terms of the contract, the trial judge shall allow to the plaintiff a reasonable attorney fee or compensation and include such fee or compensation in any judgment that may be rendered in such action.

History.—§350, ch. 59-205.

Note.—Similar provisions found in former §625.32.

626.0509 Exemptions from process act.—The provisions of §§626.0503 through 626.0508 shall not apply to any action, suit or proceeding against any unauthorized foreign or alien insurer arising out of any contract of insurance,

(1) Covering reinsurance, wet marine and transportation, commercial aircraft or railway insurance risks, or

(2) Against legal liability arising out of the ownership, operation or maintenance of any property having a permanent situs outside of this state, or

(3) Against loss of or damage to any property having a permanent situs outside this state, or

(4) Issued under and in accordance with the surplus lines law, where such insurer enters a general appearance or where such contract

of insurance contains a provision designating the commissioner and his successor or successors in office or designating a Florida resident agent to be the true and lawful attorney of such unauthorized insurer upon whom may be served all lawful process in any action, suit or proceeding instituted by or on behalf of an insured or beneficiary arising out of any such contract of insurance and service of process effected on such commissioner, his successor or successors in office or such resident agent shall be deemed to confer complete jurisdiction over such unauthorized insurer in such action.

626.0510 Surplus lines law; short title; purposes.—

(1) Sections 626.0510 through 626.0534 constitute and may be referred to as "the surplus lines law."

(2) It is declared that the purposes of the surplus lines law are to provide orderly access for the insuring public of Florida to insurers not authorized to transact insurance in this state, through only qualified, licensed, and supervised surplus lines agents resident in Florida, for insurance coverages and to the extent thereof not procurable from authorized insurers; to protect such authorized insurers, which under the laws of Florida must meet certain standards as to policy forms and rates, from unwarranted competition by unauthorized insurers who, in the absence of this law, would not be subject to similar requirements; and for other purposes as set forth in this surplus lines law.

(3) This section, and this surplus lines law, do not apply as to insurance coverages which are subject to §626.0535 (report and tax of independently procured coverages).

History.—§352, ch. 59-205.

626.0511 Definitions.—As used in this surplus lines law:

(1) "Surplus lines agent" means an individual licensed as provided in part VI of this chapter to handle the placement of insurance coverages with unauthorized insurers; and to place such coverages with authorized insurers as to which the licensee is not licensed as an agent if so placed through a countersigning Florida licensed resident agent of such insurer.

(2) "Surplus lines insurer" means an unauthorized insurer in which an insurance coverage is placed or may be placed under this surplus lines law.

(3) To "export" means to place in an unauthorized insurer under this surplus lines law, insurance covering a subject of insurance resident, located, or to be performed in Florida.

History.—§353, ch. 59-205.

Note.—Similar provisions found in former §645.01.

626.0512 Surplus lines insurance authorized.—If certain insurance coverages of subjects resident, located, or to be performed in

this state cannot be procured from authorized insurers, such coverages, hereinafter designated "surplus lines," may be procured from unauthorized insurers, subject to the following conditions:

(1) The insurance must be eligible for export under §626.0513 or §626.0514;

(2) The insurer must be an eligible surplus lines insurer under §626.0514 or §626.0515;

(3) The insurance must be so placed through a licensed Florida surplus lines agent resident in Florida; and

(4) The other applicable provisions of this surplus lines law must be complied with.

History.—§354, ch. 59-205.

626.0513 Eligibility for export.—

(1) No insurance coverage shall be eligible for export unless it meets all of the following conditions:

(a) The full amount of insurance required must not be procurable, after a diligent effort has been made to do so, from among the insurers authorized to transact and actually writing that kind and class of insurance in this state, and the amount of insurance exported shall be only the excess over the amount so procurable from authorized insurers.

(b) The premium rate at which the coverage is exported shall not be lower than that rate applicable, if any, and filed by and in actual and current use by a majority of the authorized insurers for the same coverage on a similar risk.

(c) The policy or contract form under which the insurance is exported shall not be more favorable to the insured as to the coverage or rate than under similar contracts on file and in actual current use in this state by the majority of authorized insurers actually writing similar coverages on similar risks; except, that a coverage may be exported under a unique form of policy designed for use with respect to a particular subject of insurance if a copy of such form is filed with the commissioner by the surplus lines agent desiring to use the same and is subject to the commissioner's disapproval within ten days of filing such form exclusive of Saturdays, Sundays, and legal holidays if he finds that use of such special form is not reasonably necessary for the principal purposes of the coverage or that its use would be contrary to the purposes of this surplus lines law with respect to the reasonable protection of authorized insurers from unwarranted competition by unauthorized insurers.

(d) Except as to extended coverage in connection with fire insurance policies and except as to windstorm insurance, the policy or contract under which the insurance is exported shall not provide for deductible amounts, in determining the existence or extent of the insurer's liability, other than those available under similar policies or contracts in actual and current use by one or more authorized insurers. This paragraph shall not apply with respect

to workmen's compensation self-insurance qualified as such under chapter 440.

(2) Except, that the commissioner may by rules and regulations declare eligible for export generally and notwithstanding the provisions of paragraphs (a), (b), (c) and (d) of subsection (1), any class or classes of insurance coverage or risk for which he finds, after a hearing, which he shall hold annually or more often, of which notice thereof was given to each insurer authorized to transact such class or classes in this state, that there is no reasonable or adequate market among authorized insurers. Any such rules and regulations shall continue in effect during the existence of the conditions upon which predicated, but subject to earlier termination by the commissioner.

(3) Subsection (1) does not apply to wet marine and transportation or aviation risks which are subject to §626.0514.

History.—§355, ch. 59-205; (1) (c) §1, ch. 63-86.

626.0514 Eligibility for export; wet marine, aviation.—

(1) Insurance coverage of wet marine and transportation or aviation risks as defined in this code in §624.0406(1) (a) 1. may be exported under the following conditions:

(a) The insurance must be placed only by or through a licensed Florida surplus lines agent;

(b) The insurer must be one made eligible by the commissioner specifically for such coverages, based upon information furnished by the insurer and indicating that the insurer is well able to meet its financial obligations; and

(c) The surplus lines agent shall, within sixty days after procurement of the policy or contract, file with the commissioner a copy of the policy, cover note, or contract.

(2) This section shall not apply as to pleasure boats, nor as to private aircraft owned by private owners for business and pleasure purposes only (excluding commercial), exclusive of check flight or ferry flight coverage only.

History.—§356, ch. 59-205; §2, ch. 63-86.

Note.—Similar provisions found in former §645.05.

626.0515 Eligible surplus lines insurers.—

(1) No surplus lines agent shall place any coverage with any unauthorized insurer which is not then an eligible surplus lines insurer as provided for under this section.

(2) No unauthorized insurer shall be or become an eligible surplus lines insurer unless made eligible by the commissioner in accordance with the following conditions:

(a) Eligibility of the insurer must be requested in writing by a licensed surplus lines agent;

(b) The insurer must be currently an authorized insurer in the state or country of its domicile as to the kind or kinds of insurance proposed to be so placed, and must have been such an insurer for not less than the three years next preceding; or must be the wholly-owned subsidiary of an already eligible surplus lines insurer or authorized insurer that has been so

eligible for a period of not less than the three years next preceding;

(c) Before granting eligibility the requesting surplus lines agent or the insurer shall furnish the commissioner with a duly authenticated copy of its current annual financial statement in the English language and with all monetary values therein expressed in United States dollars, at an exchange rate—in the case of statements originally made in the currencies of other countries—then current and shown in the statement, and with such additional information relative to the insurer as the commissioner may request;

(d) The insurer, if organized under the laws of a state of the United States, must have surplus as to policyholders of not less than the amount required under this code for a life authorized insurer; or, if an alien insurer, must have and maintain in the United States a trust fund for the protection of all its policyholders in the United States under terms deemed by the commissioner to be reasonably adequate, in the amount of not less than eight hundred thousand dollars. Any such surplus as to policyholders or trust fund shall be represented by investments consisting of public obligations of the United States, or of any state, county, or municipality thereof, or by other investments of the same general character and quality as are eligible investments for like funds of like domestic insurers under part II of chapter 625 of this code;

(e) The insurer must be of good reputation as to the providing of service to its policyholders and the payment of losses and claims;

(f) The insurer must be eligible, as for authority to transact insurance in this state, under subsections (3) (management and affiliations), and (4) (voting control or operation by alien government or agency) of §624.0203; and

(g) This subsection does not apply as to unauthorized insurers made eligible under §626.0514 as to wet marine and aviation risks as in such section provided.

(3) The commissioner shall from time to time publish a list of all currently eligible surplus lines insurers, and shall mail a copy thereof to each licensed surplus lines agent at his office last of record with the commissioner.

(4) This section shall not be deemed to cast upon the commissioner any duty or responsibility to determine the actual financial condition or claims practices of any unauthorized insurer; and the status of eligibility, if granted by the commissioner, shall indicate only that the insurer appears to be sound financially and to have satisfactory claims practices, and that the commissioner has no credible evidence to the contrary.

(5) Where it appears that any particular insurance risk which is eligible for export, but insurance coverage thereon, in whole or in part, is not procurable from the eligible surplus lines insurers, after a diligent effort, then the surplus lines agent may file a supplemental affidavit stating such facts and advising the in-

surance commissioner that such part of the risk as shall be unprocurable, as aforesaid, is being placed with named unauthorized insurers, in the amounts and percentages set forth in the affidavit. Such named unauthorized insurer shall, however, before accepting any risk in this state, deposit with the insurance commissioner United States government bonds of the market value of ten thousand dollars which shall be held by said commissioner for the benefit of Florida policyholders only and the surplus lines agent shall procure from such unauthorized insurer and file with the insurance commissioner a certified copy of its statement of condition as of the close of the last calendar year. If such statement reveals, including both capital and surplus, net assets of at least five hundred thousand dollars, then the surplus lines agent may proceed to consummate such contract of insurance. Whenever any insurance risk or any part thereof, is placed with an unauthorized insurer, as provided herein, the policy, binder or cover note shall bear conspicuously on its face in boldface type the following notation: "All or part of the insurers participating in this risk have not been authorized to transact business in Florida, nor have they been declared eligible as a surplus lines insurer by the insurance commissioner of this state. The placing of such insurance by a duly licensed surplus lines agent in this state, shall not be construed as approval of such insurer by the insurance commissioner of Florida. Consequently, you do not have the protection of the insurance laws of Florida." All other provisions of this code shall apply to such placement the same as if such risks were placed with an eligible surplus lines insurer.

History.—§357, ch. 59-205; (5) §1, ch. 61-105; (2) (b) §3, ch. 63-86; (2) (d) §1, ch. 63-209.

Note.—Similar provisions found in former §645.08.

626.0516 Withdrawal of eligibility; surplus lines insurer.—

(1) If at any time the commissioner has reason to believe that any unauthorized insurer then on the list of eligible surplus lines insurers is insolvent, or in unsound financial condition, or does not make reasonable prompt payment of just losses and claims in this state, or that it is no longer eligible under the conditions therefor provided in §626.0515, he shall withdraw the eligibility of the insurer to insure surplus lines risks in this state.

(2) If the commissioner finds, after a hearing thereon of which notice was given to all licensed surplus lines agents, that an insurer currently eligible as a surplus lines insurer has wilfully violated the laws of Florida he may, in his discretion, withdraw the eligibility of the insurer to insure surplus lines risks in this state.

(3) The commissioner shall promptly mail notice of all such withdrawals of eligibility to each surplus lines agent at his address last of record with the commissioner.

History.—§358, ch. 59-205.

Note.—Similar provisions found in former §645.08.

626.0517 Export procedure.—

(1) Within sixty days after the effectuation of any surplus lines insurance (exclusive of Saturdays, Sundays, and legal holidays), the surplus lines agent shall file with the commissioner in his office at Tallahassee:

(a) A copy of the binder, cover note, certificate, policy, or other confirmation of insurance showing the identity and location of the subject of the proposed insurance; name and address of proposed insured; name of proposed insurer or insurers; perils to be covered; form or type of policy or contract under which to be insured; any special or additional coverages or conditions; amount of premium or rate; and such other pertinent information as the commissioner may reasonably require; and

(b) The affidavit of the surplus lines agent, on forms as prescribed and furnished by the commissioner, as to efforts made to place the coverage with authorized insurers and the results thereof.

(2) This section does not apply as to wet marine and transportation or aviation coverages which are subject to §626.0514.

Note.—Similar provisions found in former §645.05.

626.0518 Surplus lines examining office; filings confidential.—

(1) For the expeditious examination of surplus lines insurance coverages as provided for in §626.0517, the commissioner shall establish and maintain in his offices at Tallahassee such facilities, as an "examining office," as may reasonably be necessary for the purpose.

(2) In the operation of the examining office, the commissioner may employ or obtain necessary personnel and office furniture, fixtures and facilities, and/or may make joint use of personnel, furniture, fixtures and facilities otherwise employed or used in his office.

(3) Filings made by surplus lines agents with the examining office, other than the affidavits provided for in §626.0517(1)(b), shall not be open to public inspection and shall be held as confidential information. This provision shall not apply as to the quarterly reports filed by such agents pursuant to §625.0528 or to any information in connection with a unique form of policy issued pursuant to §626.0513(1)(c).

History.—§360, ch. 59-205.

626.0519 Evidence of the insurance; changes; penalty.—

(1) Upon placing a surplus line coverage, the surplus lines agent shall promptly issue and deliver to the insured evidence of the insurance consisting either of the policy as issued by the insurer or, if such policy is not then available, a certificate, cover note, or other confirmation of insurance. Such document shall be executed or countersigned by the surplus lines agent and shall show the description and location of the subject of the insurance, coverage, conditions and term of the insurance, the

premium and rate charged and taxes collected from the insured, and the name and address of the insured and insurer. If the direct risk is assumed by more than one insurer, the document shall state the name and address and proportion of the entire direct risk assumed by each insurer.

(2) No surplus lines agent shall issue any such document, or purport to insure or represent that insurance will be or has been granted by any unauthorized insurer unless he has prior written authority from the insurer for the insurance, or has received information from the insurer in the regular course of business that such insurance has been granted, or an insurance policy providing the insurance actually has been issued by the insurer and delivered to the insured.

(3) If after the issuance and delivery of any such document there is any change as to the identity of the insurers, or the proportion of the direct risk assumed by the insurer as stated in the original certificate, cover note, or confirmation, or in any other material respect as to the insurance coverage evidenced by such a document, the surplus lines agent shall promptly issue and deliver to the insured a substitute certificate, cover note or confirmation, or endorsement for the original such document, accurately showing the current status of the coverage and the insurers responsible thereunder. No such change shall result in a coverage or insurance contract which would be in violation of this surplus lines law if originally issued on such basis.

(4) If a policy issued by the insurer is not available upon placement of the insurance and the surplus lines agent has issued and delivered a certificate, cover note or confirmation, as hereinabove provided, upon request therefor by the insured the surplus lines agent shall as soon as reasonably possible procure from the insurer its policy evidencing the insurance and deliver the policy to the insured in replacement of the certificate, cover note, or confirmation theretofore issued.

(5) Any surplus lines agent who knowingly or negligently issues a false certificate, cover note, or confirmation of insurance, or false endorsement therefor, or who fails promptly to notify the insured of any material change with respect to such insurance by delivery to the insured of a substitute certificate, cover note or confirmation, or endorsement as provided in subsection (3), shall, upon conviction, be subject to the penalties provided by §624.15 of this code or to any greater applicable penalty otherwise provided by law.

626.0520 Filing copy of policy or certificate.—Immediately upon issuing a surplus lines policy, the surplus lines agent shall file with the commissioner an exact copy of the policy so issued. If a policy has not been issued, the surplus lines agent shall so file an exact copy of

his certificate, cover note, or other confirmation of insurance as delivered to the insured. The surplus lines agent shall likewise promptly file with the commissioner an exact copy of any substitute certificate, cover note, or other confirmation of insurance, and of every endorsement of an original policy, certificate, cover note, or other confirmation of insurance, delivered to an insured, together with such surplus lines agent's memorandum informing the commissioner as to the substance of any change represented by such substitute certificate, cover note, or other confirmation, or of any such endorsement, as compared with the coverage as originally placed or issued.

History.—§364, ch. 59-205.

626.0523 Liability of insurer as to losses and unearned premiums.—

(1) If the unauthorized insurer has assumed the risk as to a surplus lines coverage placed under this surplus lines law, and if the premium therefor has been received by the surplus lines agent who placed such insurance, then in all questions thereafter arising under the coverage as between the insurer and the insured the insurer shall be deemed to have received the premium due to it for such coverage; and the insurer shall be liable to the insured as to losses covered by such insurance, and for unearned premiums which may become payable to the insured upon cancellation of such insurance, whether or not in fact the surplus lines agent is indebted to the insurer with respect to such insurance or for any other cause.

The commissioner may, in his discretion, require a bond in larger amount commensurate with the volume of surplus lines business transacted or to be transacted by a particular surplus lines agent. The bond shall be conditioned that the surplus lines agent will faithfully conduct business under the license in accordance with the provisions of the surplus lines law and rules and regulations of the commissioner for the effectuation thereof, and that the licensee will promptly remit to the commissioner the taxes as provided for by such law. No such bond shall be terminated unless not less than thirty days prior written notice thereof is given the licensee and filed with the commissioner.

charges in that respect and a notice of a hearing thereon to be held at a time and place fixed in the notice, which shall not be less than twenty days after the date of the service thereof. The court shall have jurisdiction of the proceeding and shall have power to make and enter appropriate orders in connection therewith and to issue such writs as are ancillary to its jurisdiction or are necessary in its judgment to prevent injury to the public pendente lite.

(3) A transcript of the proceedings before the commissioner, including all evidence taken and the report and findings shall be filed with such petition. The commissioner may modify his findings of fact or make new findings by reason of the additional evidence so taken, and he shall file such modified or new findings with the return of such additional evidence.

Upon such review, the

court shall have authority to issue appropriate orders and decrees in connection therewith, including, if the court finds that it is to the interest of the public, orders enjoining and restraining the continuance of any method of competition, act or practice which it finds, notwithstanding such report of the commissioner, constitutes a violation of this trade practices law. 627.031 Purpose of part I; interpretation.—

The purpose of part I of chapter 627 is to promote the public welfare by regulating insurance rates to the end that they shall not be excessive, inadequate or unfairly discriminatory, and to authorize and regulate cooperative action among insurers in rate making and in other matters within its scope. Nothing in said part I is intended:

(1) To prohibit or discourage reasonable competition, or

(2) Prohibit or encourage, except to the extent necessary to accomplish the aforementioned purpose, uniformity in insurance rates, rating systems, rating plans or practices. This part of chapter 627 shall be liberally interpreted to carry into effect the provisions of this section.

History.—§411, ch. 59-205.

627.041 Definitions.—As used in part I of this chapter as to property insurance:

(1) "Rate" means the unit charge by which the measure of exposure or the amount of insurance specified in a policy of insurance or covered thereunder is multiplied to determine the premium.

(2) "Premium" means the consideration paid or to be paid to an insurer for the issuance and delivery of any binder or policy of insurance.

627.051 Divisions of part I; insurer's designation where two laws apply.—

(1) Sections 627.061 (making of rates; property insurance), 627.071 ("inland marine" definition), and 627.201 (deviations; property insurance) shall apply only to property insurance on risks located in this state. Such sections, together with other sections applicable as to property insurance, are designated as the property rate regulatory provisions of this chapter. Except where distinguished by context "property insurance" also includes "inland marine" insurance.

(2) Sections 627.081 (making of rates; casualty and surety), 627.211 (deviations; casualty and surety), and 627.351 (assigned risk plan; casualty and surety) shall apply only as to casualty and surety insurances on risks or operations in this state. Such sections, together with other sections applicable as to casualty and surety insurances, are designated as the casualty and surety rate regulatory provisions of this chapter.

(3) If any kind of insurance, subdivision or combination thereof, or type of coverage subject to the property rate regulatory provisions of this chapter, is also subject to the casualty and surety rate regulatory provisions of this chapter, an insurer to which both such groups of provisions are otherwise applicable shall file with the commissioner a designation as to which such group of rate regulatory provisions shall be applicable to it with respect to such kind of insurance, subdivision, or combination thereof, or type of coverage.

History.—§415, ch. 59-205.

Note.—Similar provisions found in former §§629.02, 630.01.

627.061 Making of rates; property insurance.—

(1) Rates for property insurance shall be made in accordance with the following provisions:

(a) Manual, minimum, class rates, rating schedules or rating plans shall be made and adopted, except in the case of specific inland marine rates on risks specially rated.

(b) Rates shall not be excessive, inadequate or unfairly discriminatory.

(c) Due consideration shall be given to past and prospective loss experience within and outside this state, to the conflagration and catastrophe hazards, to a reasonable margin for underwriting profit and contingencies, to dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers, to past and prospective expenses both countrywide and those specially applicable to this state, and to all other relevant factors within and outside this state; and in the case of fire insurance rates consideration shall be given to the experience of the fire insurance business during a period of not less than the most recent five-year period for which such experience is available.

(2) Except to the extent necessary to meet the provisions of subsection (1)(b) of this section, uniformity among insurers in any matter within the scope of this section is neither required nor prohibited.

(3) Rates made in accordance with this section may be used subject to the applicable provisions of this chapter.

History.—§416, ch. 59-205.

Note.—Similar provisions found in former §§629.03, 629.06, 629.14.

627.071 Inland marine defined.—For the purposes of this code "inland marine" insurance shall be deemed to include insurance now or hereafter defined by statute, or by interpretation thereof, or if not so defined or interpreted, by ruling of the commissioner, or as established as general custom of the business, as inland marine insurance.

History.—§417, ch. 59-205.

Note.—Similar provisions found in former §629.03.

627.081 Making of rates; casualty and surety.—

(1) All rates as to casualty and surety insurances shall be made in accordance with the following provisions:

(a) Due consideration shall be given to past and prospective loss experience within and outside this state, to catastrophe hazards, if any, to a reasonable margin for underwriting profit and contingencies, to dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers, to past and prospective expenses both countrywide and those specially applicable to this state, and to all other relevant factors within and outside this state.

(b) The systems of expense provisions included in the rates for use by any insurer or group of insurers may differ from those of other insurers or groups of insurers to reflect the requirements of the operating methods of any such insurer or group with respect to any kind of insurance, or with respect to any subdivision or combination thereof for which subdivision or combination separate expense provisions are applicable.

(c) Risks may be grouped by classifications for the establishment of rates and minimum premiums. Classification rates may be modified to produce rates for individual risks in accordance with rating plans which establish standards for measuring variations in hazards or expense provisions, or both. Such standards may measure any differences among risks that can be demonstrated to have a probable effect upon losses or expenses.

(d) Rates shall not be excessive, inadequate or unfairly discriminatory.

(2) Except to the extent necessary to meet the provisions of subsection (1)(d), uniformity among insurers in any matters within the scope of this section is neither required nor prohibited.

History.—§418, ch. 59-205.

Note.—Similar provisions found in former §630.02.

627.091 Rate filings.—

(1) As to property insurance every insurer shall file with the commissioner, except as to inland marine risks which by general custom of the business are not written according to manual rates or rating plans, every manual, minimum, class rate, rating schedule or rating plan and every other rating rule, and every modification of any of the foregoing which it proposes to use. Specific inland marine rates on risks specially rated, made by a rating organization, shall be filed with the commissioner. The commissioner may investigate inland marine rates not required to be filed under this subsection and may require the filing of any particular such rate not otherwise required to be filed.

(2) As to casualty and surety insurances every insurer shall file with the commissioner every manual of classifications, rules and rates, every rating plan and every modification of any of the foregoing which it proposes to use.

(3) Every filing shall state the proposed effective date thereof, and shall indicate the character and extent of the coverage contemplated. When a filing is not accompanied by the information upon which the insurer supports the filing and the commissioner does not have

sufficient information to determine whether the filing meets the requirements of this chapter, he shall within fifteen days after the date of filing require the insurer to furnish the information upon which it supports the filing and in such event the waiting period provided for in §627.101(2) shall commence as of the date such information is furnished. The information furnished in support of a filing may include:

(a) The experience or judgment of the insurer or rating organization making the filing;

(b) Its interpretation of any statistical data it relies upon;

(c) The experience of other insurers or rating organizations; or

(d) Any other factors which the insurer or rating organization deems relevant.

(4) A filing and any supporting information shall be open to public inspection as provided in §627.101.

(5) An insurer may satisfy its obligation to make such filings by becoming a member of, or a subscriber to, a licensed rating organization which makes such filings, and by authorizing the commissioner to accept such filings in its behalf; but nothing contained in this chapter shall be construed as requiring any insurer to become a member or a subscriber to any rating organization.

History.—§419, ch. 59-205.

Note.—Similar provisions found in former §§629.03, 629.08, 629.17, 630.03.

627.101 When filing becomes effective.—

(1) The commissioner shall review filings as soon as reasonably possible after they have been made in order to determine whether they meet the requirements of this chapter.

(2) Within fifteen days after the date of the filing, together with any additional information, if any, in support of the filing which has been requested by the commissioner under §627.091(3), has been received by the commissioner, the commissioner shall place the filing and its supporting information on file in his office for public inspection, and give notice thereof to the insurer or rating organization that made the filing. Prior to being so placed on file for public inspection the filing shall be deemed a privileged communication not open to public inspection; but this provision shall not be deemed to prohibit any insurer or rating organization from discussing, or require any such insurer or rating organization to discuss, with any person or organization any filing which it proposes to make or has made with the commissioner.

(3) A filing which the commissioner has placed on file for public inspection as provided in subsection (2) shall so remain on file for fifteen days (counting such filing date as the first day of such public inspection period), and shall not be approved, disapproved, or become effective during such fifteen-day period except after a public hearing. If not theretofore approved or disapproved after a public hearing thereon, or affirmatively approved or disapproved by the commissioner on the sixteenth day after the filing was so placed on file

for public inspection, the filing shall become effective as at 12:01 A.M. on such sixteenth day, unless within such fifteen-day period the commissioner has concluded it to be in the public interest to hold a public hearing to determine whether the filing meets the requirements of this chapter, and given notice of such hearing to the insurer or rating organization that made the filing, and in which case the effectiveness of the filing shall be subject to the further order of the commissioner made as provided in §627.111.

(4) An insurer or rating organization may, at the time it makes a filing with the commissioner, request a public hearing thereon. In such event the commissioner shall forthwith place the filing on file in his office for public inspection and shall give notice of the hearing, and otherwise hold and conduct the hearing as provided in §627.111, and the effectiveness of the filing shall be subject to the commissioner's order made following the hearing.

(5) If any such filing would result in a change in premium or premium rate as to automobile liability insurance, the commissioner shall coincidentally with placing the filing on file in his office for public inspection as provided hereinabove in this section, inform the established news agencies having offices at Tallahassee thereof and post or cause to be posted a notice of the pendency of such filing, at the place customarily used for the posting of public notices, at the court house of each Florida county whose residents are to be affected by the proposed premium or premium rate change. The commissioner may prescribe the general form of such notice, may therein summarize the filing or filings covered thereby, and may make a reasonable grouping of filings by different rating organizations and insurers which may be pending at the same time for inclusion in the same such notice. The commissioner shall certify in writing as to the informing of such news agencies and as to such posting, and a copy of the certificate shall be made part of the commissioner's records pertaining to such filings. The effectiveness of any such filing or action of the commissioner relative thereto shall not be affected by failure of the commissioner so to inform any particular news agency or failure to post or cause to be posted a copy of any such notice at any particular court house as hereinabove provided.

(6) If the commissioner disapproves a filing he shall promptly give notice of such disapproval to the insurer or rating organization that made the filing, stating the respects in which he finds the filing does not meet the requirements of this chapter. If the commissioner approves a filing he shall give prompt notice thereof to the insurer or rating organization that made the filing, and in which case the filing shall become effective upon such approval or upon such subsequent date as may be satisfactory to the commissioner and the insurer or rating organization that made the filing. If the filing becomes effective in the absence of affirmative approval, or disapproval,

as provided in subsection (3), the filing shall become operative upon such effective date or upon such subsequent date as may be provided for therein.

(7) Except, that specific inland marine rates on risks specially rated by a rating organization, or any special filing with respect to a surety or guaranty bond required by law or by court or executive order or by order, rule or regulation of a public body and not covered by a previous filing, or any other special surety filing which in the commissioner's opinion should become immediately effective, shall become effective when filed and shall be deemed to meet the requirements of part I of this chapter until such time as the commissioner reviews the filing and so long thereafter as the filing remains in effect.

History.—§420, ch. 59-205.

Note.—Similar provisions found in former §§629.03, 629.09, 629.17, 630.03.

627.111 Hearing as to filing; effective date of filing.—

(1) If, pursuant to §627.101(3) the commissioner determines to hold a public hearing as to a filing, or holds such a public hearing pursuant to request therefor under §627.101(4), he shall give written notice thereof to the rating organization or insurer that made the filing, shall hold such hearing within thirty days after commencement of the public inspection period provided for in §627.101(2) or §627.101(4), and not less than ten days prior to the date of the hearing he shall give written notice of the hearing to the insurer or rating organization that made the filing. The commissioner may also, in his discretion, give advance public notice of such hearing by publication of notice in one or more daily newspapers of general circulation in this state.

(2) The hearing shall be conducted and the order thereon shall be made as provided in §627.371.

(3) If the commissioner's order disapproves the filing, the filing shall not become effective during the effectiveness of such order. If the commissioner's order approves the filing, the filing shall become effective upon the date of the order or upon such subsequent date as may be satisfactory to the insurer or rating organization that made the filing.

(4) Any such order of the commissioner shall be subject to judicial review as provided in §627.391.

History.—§421, ch. 59-205.

Note.—Similar provisions found in former §§629.03, 629.09, 629.17, 630.03.

627.121 Coverage changes pending hearing and order.—

(1) After the commissioner places a filing on file in his office for public inspection as provided in §627.101, and pending the effectiveness of the filing, whether or not a public hearing is held with respect to the filing as provided in §627.101 and §627.111, as to coverages proposed to be affected by such filing the following provisions shall apply:

If a filing would result in increase of premium

or premium rate, or restriction of forms or conditions of coverage, then upon the commissioner placing the filing on file in his office for public inspection as provided in §627.101, the insurer or rating organization, or member or subscriber of the rating organization, that made the filing shall notify the agents affected thereby, and pending the effectiveness of the filing, whether or not a public hearing is held as to the filing, as to insurance coverages proposed to be affected by the filing no insurance policy or contract or item of insurance shall be cancelled or reduced in amount on a pro rata basis, except at the request of the insurer in accordance with the provisions contained in the policy or contract.

(2) This section does not apply as to workmen's compensation insurance.

History.—§422, ch. 59-205.

627.131 Disapproval of special inland marine or surety filing.—If within thirty days after a specific inland marine rate on a risk specially rated by a rating organization subject to §627.101(7), has become effective, or if within thirty days after a special surety or guaranty filing subject to §627.101(7) has become effective, the commissioner finds that such filing does not meet the requirements of this chapter, he shall send to the rating organization or insurer which made the filing written notice of disapproval of the filing specifying therein in what respects he finds that the filing fails to meet the requirements of this chapter and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. The disapproval shall not affect any contract made or issued prior to the expiration of the period set forth in the notice.

History.—§423, ch. 59-205.

Note.—Similar provisions found in former §§629.05, 630.03.

627.141 Subsequent disapproval of filing.—

(1) If at any time after a filing has been approved by him or has otherwise become effective the commissioner finds, after a hearing held on not less than twenty days' written notice specifying the matters to be considered at the hearing and given to every insurer and rating organization which made the filing, that the filing no longer meets the requirements of this chapter, he shall issue an order specifying in what respects he finds that such filing fails to meet such requirements and stating when, within a reasonable period thereafter, such filing shall be deemed no longer effective. The commissioner shall send a copy of the order to every such insurer and rating organization. The order shall not affect any insurance contract or policy made or issued prior to the expiration of the period set forth in the order.

(2) This section does not apply to the special inland marine or surety filings referred to in §627.131 until after expiration of the thirty day period provided for in such section.

History.—§424, ch. 59-205.

Note.—Similar provisions found in former §§629.09, 630.03.

627.151 Basis of approval or disapproval of filing; scope of disapproval power.—

(1) In determining at any time whether to approve or disapprove a filing, or to permit a filing otherwise to become effective, the commissioner shall give consideration only to the applicable standards and factors referred to in §627.061 as to property insurance coverages, and as referred to in §627.081 as to casualty and surety insurance coverages.

(2) As to property insurance no manual, minimum, class rate, rating schedule, rating plan, rating rule, rating system, plan of operation or any of the foregoing shall be disapproved if the rates thereby produced meet the requirements of this chapter.

(3) As to casualty and surety insurances no manual of classifications, rule, rating plan, rating system, plan of operation or any modification of any of the foregoing which establishes standards for measuring variations in hazards or expense provisions, or both, shall be disapproved if the rates thereby produced meet the requirements of this chapter.
